Connect SoCal 2024 Subcommittees: Racial Equity & Regional Planning

Connect SoCal 2024 Subcommittees

- **NEXT GENERATION INFRASTRUCTURE**
- **RESILIENCE & CONSERVATION**
- **RACIAL EQUITY & REGIONAL PLANNING**

PURPOSE

Dive deeper into key areas for Connect SoCal and provide recommendations to the Policy Committees on how to address these issues in the Plan

REPRESENTATION

Members from across the region with invited participation from business or civic leaders and practitioners

DURATION

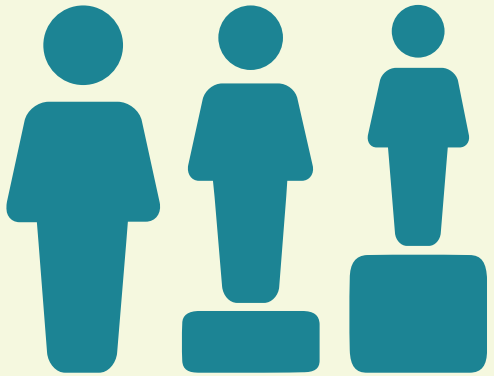
Launched in September 2022

Final Meeting and Recommendations: January 19 (RE&RP) and 23 (R&C), February 15 (NGI)

More info: scag.ca.gov/**subcommittees**

Key Questions

Racial Equity & Regional Planning



- What are the opportunities to advance racial equity through the policies and strategies in Connect SoCal?
- How can Connect SoCal guide how planning and investments over the next 30 years address and rectify the effects of racially discriminatory policies in the SCAG region?

Key Findings

Racial Equity & Regional Planning

- Need to identify economic development strategies to address poverty in the region
- Break down silos across governmental agencies and equity efforts.
- Systemic racism has shaped housing and transportation policy, funding and implementation in the SCAG region.
- Need to assess how to improve health outcomes for people of color
- Need to develop inclusive engagement practices
- Need to analyze equity for SCAG and support jurisdictions
- And more…

Recommendations

Racial Equity & Regional Planning

- Connect SoCal 2024 will be a vehicle to promote racial equity
- Embed a racial equity lens in Connect SoCal implementation
- Incorporate racial equity centered best practices in data collection
- Break down silos within SCAG and local, State, and Federal partners
- Prioritize community-centered interventions in the most disadvantaged communities
- Identify and target communities vulnerable to displacement and work towards stabilizing communities and increase access to housing
- Incorporate equity-centered economic activities
- Increase equitable, inclusive, and meaningful representation and engagement of people of color/DACs

Policy Development Framework for Connect SoCal 2024: Update

Policy Development Framework

SCAG Equity Working Group: Technology Guiding Principles

March 9, 2023

Javier Silva, Assistant Regional Planner

TECHNOLOGY GUIDING PRINCIPLES

An Overview and Introduction

Background and History

- Emerging technologies can result in significant impacts that cross municipal boundaries and collectively shape the SCAG region
- As technology continues to rapidly progress, leaders must make informed decisions based on emerging technologies
- An objective framework (such as the Guiding Principles) can be used to develop a foundation for the evaluation and implementation of new technologies and related policies
- **Staff seeks to develop Guiding Principles for Emerging Technologies for inclusion in the forthcoming Connect SoCal 2024 plan update**
- To ensure that technology isn't addressed in a piecemeal fashion but rather in a coordinated, regional manner that supports our Connect SoCal goals

Overview

Why are the *Guiding Principles* important?

- Technology is a major disruptor, SCAG as regional MPO can advocate for best practices and provide resources

Why is SCAG writing these *Principles*?

- Some cities, counties, and/or local agencies have a demonstrated need for guidance on how to interact with new technologies and implement accordingly

What will the *Principles* accomplish?

- The principles will provide a comprehensive set of considerations that leaders and stakeholders should consider when engaging with new technologies

Alignment with SCAG Policies and Programs

- **Racial Equity Early Action Plan**, adopted May 2021
- **Clean Transportation Technology Policy** (draft), February 2023
- **Connect SoCal 2024 Resilience and Conservation Subcommittee White Paper** (draft), March 2023
- **Resolution No. 23-653-1** to Affirm a Call-To-Action due to Increasing Supply Chain Volatility and Complexity in the SCAG Region and Committing Ongoing Collaboration with Local, State, and Federal Partners to Plan, Fund, and Implement Projects and Strategies that ensure a Safe, Resilient, and Efficient Supply Chain and Goods Movement System, adopted March 2023
- **Resolution No. 23-653-2** to Approve a Regional Complete Streets Policy, adopted March 2023

GUIDING PRINCIPLES: DRAFT EQUITY PRINCIPLES

Review of the Draft Equity and Accessibility Principles

Draft Equity Principles for Consideration

- **Equity and Accessibility are the #1 and #2 Technology Guiding Principles as drafted:**
  - **Equity:** *Technology should be designed to reduce disparities and barriers that may exist based on factors such as race, income, language barriers or geography.*
  - **Accessibility:** *Technology should be designed to increase accessibility and reduce physical barriers, especially for people with disabilities or limited mobility.*

Do these address the equity and accessibility needs of **everyone** in SoCal?

Is there **anything missing** from these two principles?

Are there **other barriers** we need to consider?

Key Definitions

Environmental Justice

The fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Equity

As central to SCAG's work, racial equity describes the actions, policies, and practices that eliminate bias and barriers that have historically and systemically marginalized communities of color, to ensure all people can be healthy, prosperous, and participate fully in civic life.
