PUBLIC ADVISORY

If members of the public wish to review the attachments or have any questions on any of the agenda items, please contact Maggie Aguilar at (213) 630-1420 or via email at aguilarm@scag.ca.gov. Agendas & Minutes are also available at: www.scag.ca.gov/committees.

SCAG, in accordance with the Americans with Disabilities Act (ADA), will accommodate persons who require a modification of accommodation to participate in this meeting. SCAG is also committed to helping people with limited proficiency in the English language access the agency's essential public information and services. You can request such assistance by calling (213) 630-1410. We request at least 72 hours (three days) notice to provide reasonable accommodations and will make every effort to arrange for assistance as soon as possible.

Instructions for Attending the Meeting

To Attend In-Person and Provide Verbal Comments: Go to the SCAG Main Office located at 900 Wilshire Blvd., Ste. 1700, Los Angeles, CA 90017 or any of the remote locations noticed in the agenda. The meeting will take place in the Policy B Meeting Room on the 17th floor starting at 8:30 a.m.

To Attend by Computer: Click the following link: <https://scag.zoom.us/j/88500340669>. If Zoom is not already installed on your computer, click “Download & Run Zoom” on the launch page and press “Run” when prompted by your browser. If Zoom has previously been installed on your computer, please allow a few moments for the application to launch automatically. Select “Join Audio via Computer.” The virtual conference room will open. If you receive a message reading, “Please wait for the host to start this meeting,” simply remain in the room until the meeting begins.

To Attend by Phone: Call (669) 900-6833 to access the conference room. Given high call volumes recently experienced by Zoom, please continue dialing until you connect successfully. Enter the **Meeting ID: 885 0034 0669**, followed by #. Indicate that you are a participant by pressing # to continue. You will hear audio of the meeting in progress. Remain on the line if the meeting has not yet started.

Instructions for Participating and Public Comments

Members of the public can participate in the meeting via written or verbal comments.

- In Writing:** Written comments can be emailed to: ePublicComment@scag.ca.gov. Written comments received **by 5pm on Monday, August 19, 2024** will be transmitted to members of the legislative body and posted on SCAG’s website prior to the meeting. You are **not** required to submit public comments in writing or in advance of the meeting; this option is offered as a convenience should you desire not to provide comments in real time as described below. Written comments received after 5pm on Monday, August 19, 2024, will be announced and included as part of the official record of the meeting. Any writings or documents provided to a majority of this committee regarding any item on this agenda (other than writings legally exempt from public disclosure) are available at the Office of the Clerk, at 900 Wilshire Blvd., Suite 1700, Los Angeles, CA 90017 or by phone at (213) 630-1420, or email to aguilarm@scag.ca.gov.
- Remotely:** If participating in real time via Zoom or phone, please wait for the presiding officer to call the item for which you wish to speak and use the “raise hand” function on your computer or *9 by phone and wait for SCAG staff to announce your name/phone number.
- In-Person:** If participating in-person, you are invited but not required, to fill out and present a Public Comment Card to the Clerk of the Board or other SCAG staff prior to speaking. It is helpful to indicate whether you wish to speak during the Public Comment Period (Matters Not on the Agenda) and/or on an item listed on the agenda.

General Information for Public Comments

Verbal comments can be presented in real time during the meeting. Members of the public are allowed a total of 3 minutes for verbal comments. The presiding officer retains discretion to adjust time limits as necessary to ensure efficient and orderly conduct of the meeting, including equally reducing the time of all comments.

For purpose of providing public comment for items listed on the Consent Calendar, please indicate that you wish to speak when the Consent Calendar is called. Items listed on the Consent Calendar will be acted on with one motion and there will be no separate discussion of these items unless a member of the legislative body so requests, in which event, the item will be considered separately.

In accordance with SCAG’s Regional Council Policy, Article VI, Section H and California Government Code Section 54957.9, if a SCAG meeting is “willfully interrupted” and the “orderly conduct of the meeting” becomes unfeasible, the presiding officer or the Chair of the legislative body may order the removal of the individuals who are disrupting the meeting.

CALL TO ORDER

Chair Patricia Lock Dawson called the meeting to order at 8:32 a.m. and called upon Jenny Crosswhite, Santa Paula, District 47, to lead the Pledge of Allegiance. Staff confirmed that a quorum was present.

PRESENTATION

(Nick Romo, Cruz Strategies; Assemblymember Sharon Quirk-Silva, Chair, Budget Sub Committee No.5)

There were no public comments for the presentation.

Chair Lock Dawson introduced Nick Romo from Cruz Strategies who provided the committee with an update on the Joint Legislative Budget. The presentation also covered the restoration and cuts to various programs, ongoing negotiations between the legislature and the governor, and the importance of their efforts to prioritize these programs in the budget discussions.

Assemblymember Sharon Quirk Silva was not yet available for her presentation, so Chair Lock Dawson proceeded with the meeting until she was able to join.

PUBLIC COMMENT PERIOD ON NON-AGENDA ITEMS

Chair Patricia Lock Dawson opened the Public Comment Period for items not listed on the agenda and outlined the instructions for public comments. She noted that this was the time for persons to comment on any matter pertinent to SCAG's jurisdiction not listed on the agenda.

SCAG staff confirmed that no public comments were submitted via email to ePublicComment@scag.ca.gov or any raised hands. Seeing and hearing no public comment speakers, Chair Patricia Lock Dawson closed the Public Comment Period.

REVIEW AND PRIORITIZE AGENDA ITEM

There were no prioritized agenda items.

INFORMATION ITEMS

4. Housing & Transportation Bills of Interest

There were no public comments for Item No. 4.

Mr. Francisco Barajas, Senior Legislative Affairs Analyst, began his presentation by sharing a legislative outlook of important dates for the committee’s awareness, highlighting that the last day for each house to pass bills is August 31, 2024. Mr. Barajas continued his presentation by providing the committee an update on three (3) bills of interest which included AB 6 (Friedman), AB 1335 (Zbur), AB 2485 (J. Carrillo). Mr. Barajas also provided an in-depth review on AB 3093 (Ward) and SB 7 (Blakespear), requesting feedback from the committee as staff continues to analyze these bills.

During Mr. Barajas’s presentation, Assemblymember Quirk-Silva joined the meeting. Chair Lock Dawson paused the presentation and introduced Assemblymember Quirk Silva. Below are highlights from her discussion with the LCMC.

The Assemblymember outlined the ongoing efforts to secure funding for various housing programs in the face of budget cuts while highlighting the importance of addressing housing production and reducing homelessness in the budget. She concluded her remarks by emphasizing the significance of advocacy in shaping the budget, citing examples of how public presence and activism influenced funding decisions.

Following her presentation, Mr. Barajas continued his presentation on Item 4.

Chair Patricia Lock Dawson opened the floor to the committee members for questions or comments.

Committee members engaged in a robust discussion. During the discussion, the committee raised several questions and provided comments. Mr. Barajas addressed the committee's comments and questions.

POLICY AND PUBLIC AFFAIRS DIVISION UPDATE

There were no public comments on division updates.

Mr. Kevin Gilhooley, Legislative Affairs Manager, provided an update on legislative sponsor bill AB 2485 by Assemblymember Juan Carrillo and urged the committee to provide support letters before the June 26th deadline.

Chair Patricia Lock Dawson opened the floor to the committee members for questions or comments.

There were no comments for division updates.

AGENDA ITEM 2
REPORT

Southern California Association of Governments
August 20, 2024

To: Legislative/Communications and Membership Committee (LCMC)

**EXECUTIVE DIRECTOR'S
APPROVAL**

From: David Angel, Legislative Affairs Analyst
(213) 630-1422, angel@scag.ca.gov

Subject: SCAG Memberships and Sponsorships

RECOMMENDED ACTION:

Approve up to \$80,020 for memberships and sponsorships with 1) the California Association of Councils of Governments (\$50,520), 2) CoMotion (\$10,000), 3) UCLA Lake Arrowhead Symposium (\$7,500), 4) Mileage-Based User Free Alliance (\$5,000), and 5) LA County Business Federation (\$7,000).

STRATEGIC PRIORITIES:

This item supports the following Strategic Priority 2: Be a cohesive and influential voice for the region.

EXECUTIVE SUMMARY:

The Legislative/Communications and Membership Committee (LCMC) is asked to approve up to \$80,020 for memberships and sponsorships with 1) the California Association of Councils of Governments (\$50,520), 2) CoMotion (\$10,000), 3) UCLA Lake Arrowhead Symposium (\$7,500), 4) Mileage-Based User Free Alliance (\$5,000), and 5) LA County Business Federation (\$7,000).

BACKGROUND:

Item 1: California Association of Councils of Governments (CALCOG)

Type: Membership **Amount:** \$50,520

Established in 1977, the California Association of Councils of Governments (CALCOG) is a statewide association representing 47 regional planning agencies to serve its members' needs for regional coordination and policy development. CALCOG works with and through its members to:

- Review plans and policies on subjects agreed upon by members;
- Coordinate policy development as appropriate to the League of California Cities, the California State Association of Counties, the National Association of Regional Councils, and the Association of Metropolitan Planning Organizations;
- Promote more effective planning at the regional level;

- Conduct statewide workshops and conferences that provide members with an ideal opportunity to discuss key issues and learn from recognized experts in various fields; and
- Provide an informational clearinghouse on issues of concern to the regions and state.

The Fiscal Year (FY) 2024-2025 annual dues are \$50,520, which is \$4,320 higher than the FY 2023-2024 dues of \$46,200. Given the vast quantity of legislation and policies related to regional issues and sustainable communities, CALCOG membership remains invaluable to SCAG.

CALCOG provides a strong voice for regional organizations in Sacramento. Three years ago, CALCOG was instrumental in including the first Regional Early Action Planning (REAP) Housing Grant 2019 program with a \$125 million allocation in Governor Newsom’s Housing Budget. SCAG received \$47 million to help local communities promote and increase the housing supply. CALCOG sought to expand the program this past year and secured \$600 million for MPO regions for the REAP 2.0 program. These funds will support the Sustainable Communities Strategy, infill housing development, reduce Vehicle Miles Traveled (VMT), and support Affirmatively Furthering Fair Housing (AFFH).

CALCOG Board Members include one of SCAG’s Past Presidents, Jan Harnik, and Regional Council Members Margaret Finlay and Alan Wapner.

Item 2: CoMotion

Type: Sponsorship **Amount:** \$10,000

The CoMotion LA '24 Conference will be held from November 13-14, 2024, in the heart of the Arts District at the Japanese American National Museum. The event will bring together key public and private stakeholders shaping the future of mobility to emerge with new policy and innovation mandates for a more connected, innovative, and sustainable urban future. CoMotion will offer a curated three-day conference full of immersive and interactive talks, pitches, demos, and workshops to find a path forward for cities and mobility systems.

CoMotion LA is the leading global conference and expo focused on New Mobility. It is an initiative of the NewCities Foundation, the Montreal-based nonprofit institution dedicated to improving the quality of life and work in 21st-century cities worldwide. Over a thousand international leaders, including mayors, policymakers, CEOs, leading researchers, innovators, nonprofit, and civil society leaders will gather to discuss key themes, including reimagining infrastructure, designing seamless journeys, connecting communities, and powering sustainable mobility. Speakers for this year’s conference include LA Metro CEO Stephanie Wiggins, LADOT General Manager Laura Rubio Cornejo, and other top officials across the public, private, and nonprofit sectors.

SCAG sponsored this event in 2017, 2018, 2019, 2022, and 2023. The feedback was very positive due to the integration of the agency's various programs and projects. SCAG staff recommends sponsorship of this event in the amount of \$10,000, which will provide SCAG with the following:

- SCAG to be branded as a CoMotion LA '24 Partner, which includes branding on websites, print, marketing materials, social media channels, and on-site signage;
- SCAG Executive Director or President invited to speak on a CoMotion Panel at the conference (whether virtual or in-person);
- Ten (10) admission passes for senior SCAG executives and leadership team and/or clients to the event;
- List of CoMotion LA '24 participants;
- Opportunity to share SCAG content on the CoMotion LA newsletter; and
- Exhibitor Space

Item 3: 2024 UCLA Lake Arrowhead Symposium

Type: Sponsorship **Amount:** \$7,500

The University of California, Los Angeles (UCLA) Lewis Center and Institute of Transportation Studies Program holds a symposium dealing with regional and public policy issues each year. This year's Symposium – *Mega Events: Major Opportunities* – will convene from October 13-15, 2024, at the UCLA Lake Arrowhead Conference Center and will bring together a diverse and intimate group of influential policymakers, private sector stakeholders, public sector analysts, consultants, advocates, and researchers to delve into the pressing public policy challenges at the nexus of transportation, land use, and the environment. SCAG has been a sustaining co-sponsor for this program, enabling SCAG to maintain membership on the 2023-2024 Arrowhead Steering Committee and directly help plan and evaluate the event, including suggesting topics and speakers, nominating experts to attend the Symposium consistent with SCAG goals.

SCAG staff recommends that the agency sponsor the event at the "Gold Sponsor" level in the amount of \$7,500, which provides SCAG with the following:

- Two (2) complimentary registrations;
- Two (2) registrations at 50% off (Registration costs \$1,400);
- Three (3) registration reservations;
- Breakfast or Lunch recognition as a sponsor of a portion of the Symposium;
- Small logo recognition in online program and printed materials;
- Opportunity to exhibit printed materials for attendees;
- Small logo recognition in two annual UCLA ITS Online Symposia;
- Two (2) complimentary full registrations to the 2024 UCLA ITS Downtown LA Event;
- Two (2) 50 percent off registrations to the 2025 UCLA ITS Downtown LA Event; and

-
- Two (2) Complimentary invitations to the UCLA ITS Reception at the Annual Meeting of the Transportation Research Board.

Item 4: Mileage-Based User Free Alliance (MBUFA)**Type:** Membership **Amount:** \$5,000

The Mileage-Based User Fee Alliance (MBUFA) is a national non-profit organization that brings together government, business, academic, and transportation policy leaders to conduct education and outreach on the potential for mileage-based user fees as an alternative for future funding and improved performance of the U.S. transportation system. Formed in 2010, MBUFA is comprised of 40 public and private sector entities from across the United States, including AAA, California Department of Transportation (Caltrans), the American Public Transportation Association (APTA), the California Transportation Commission (CTC), CDM Smith, WSP (formerly Parsons Brinckerhoff), and ten other state departments of transportation. Staff is recommending continued membership in this group. MBUFA provides members with up-to-date information on all mileage-based use fee activities worldwide through news updates, access to MBUFA workshops, reduced costs to MBUFA conferences, and invitations to attend briefings at quarterly meetings and input towards MBUFA's educational efforts.

Item 5: LA County Business Federation (BizFED)**Type:** Membership **Amount:** \$7,000

The LA County BizFed is made up of more than 180 business organizations representing over 400,000 employers with 3.5 million employees throughout Los Angeles County, along with Southern California's leading civic-minded corporations and public agencies. The organization advocates for policies and projects that strengthen the regional economy. This membership will allow SCAG access to continue to utilize BizFed's massive business networks to actively promote SCAG's initiatives such as the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS), Southern California Economic Summit, and other planning activities.

The Bronze Level membership would provide SCAG with the following benefits:

- One (1) voting seat on the BizFed Board of Directors;
- One (1) voting seat on the BizFed Advocacy Committee;
- SCAG's website link on the BizFed website – BizFed.org; and
- Access for up to five (5) representatives from SCAG to all BizFed intelligence sharing and events.

FISCAL IMPACT:

\$57,520 for the membership with CALCOG and Los Angeles County Business Federation is included in the approved FY 24-25 General Fund Budget.

\$22,500 for the membership with MBUFA and sponsorships for the UCLA Lake Arrowhead Symposium and CoMotion LA '24 is included in the approved FY 24-25 Indirect Cost Budget.

STRATEGIC PRIORITIES:

This item supports the following Strategic Priority 2: Be a cohesive and influential voice for the region.

EXECUTIVE SUMMARY:

This report summarizes the Federal Fiscal Year 2025 appropriations bills moving through Congress. At the time of writing this report, the House of Representatives passed five of 12 appropriations bills and the Senate had not passed any. Congress has until September 30, 2024 to pass all twelve appropriations bills but will be in recess until September 9, leaving only 13 working days when both chambers will be in session to pass all 12 appropriations bills.

BACKGROUND:

August recess began for both chambers of Congress on August 5, 2024. The House concluded its proceedings after passing only five of 12 appropriations bills, while the Senate concluded its proceedings without having passed any. The House passed Appropriations bills for Military Construction-Veterans Affairs, State-Foreign Operations, Homeland Security, Defense, and Interior-Environment. While the House took an additional vote to consider passage of the Legislative Branch Appropriations Bill, it failed by a margin of 205 to 215. Once Congress reconvenes on September 9, the House and Senate will have only three weeks to pass all twelve appropriations bills before the end of the federal fiscal year on September 30, 2024, or agree to a continuing resolution (CR), to avoid a government shutdown. An overview and status of House and Senate FY 25 appropriations bills, provided by SCAG's federal lobbyist Holland & Knight, has been attached to this report.

Subject: Legislative Tracking Report

RECOMMENDED ACTION:

Receive and File.

STRATEGIC PRIORITIES:

This item supports the following Strategic Priority 2: Be a cohesive and influential voice for the region.

EXECUTIVE SUMMARY:

The Legislative Tracking Report is provided to keep the Legislative/Communications and Membership Committee (LCMC) apprised of the bills in Sacramento that have a nexus to the Regional Council's adopted Legislative Platform. This report also contains an update on key legislative deadlines.

BACKGROUND:

SCAG's Legislative Tracking Report serves as a resource for the Committee to remain informed on bills moving through the legislative process in Sacramento. The report tracks 569 measures with a nexus to the Regional Council's adopted 2024 State and Federal Legislative Platform.

Various important legislative deadlines are coming up now that the legislature has reconvened from summer recess. Legislators continue to move through the legislative process as we reach the end of the session, including the last day to amend bills on the floor (August 23, 2024) and the deadline for each house to pass bills (August 31, 2024). At this point, fiscal committees have until August 16, 2024, to meet and report bills, after which the Legislature will only be holding floor sessions from August 19-31, 2024. The final recess, ending the legislative session for the year, begins on August 31, 2024. However, the deadline for Governor Newsom to sign or veto bills passed by the Legislature is September 30, 2024, and non-urgency bills signed into law by that deadline will go into effect on January 1, 2025. Staff will provide an End of Session update with more information on the final status of SCAG priority bills.

The table below highlights recent and upcoming legislative deadlines:

Date	Deadline
August 16, 2024	Last day for fiscal committees to meet and report bills.
August 19-31, 2024	Floor session only.
August 23, 2024	Last day to amend bills on the floor.
August 31, 2024	Last day for each house to pass bills.
August 31, 2024	Final Recess begins upon adjournment.
September 30, 2024	Last day for the Governor to sign or veto bills.
October 2, 2024	Bills enacted on or before this date take effect January 1, 2025.
November 5, 2024	General Election
December 2, 2024	2025-26 Regular Session convenes for Organizational Session at 12 noon

FISCAL IMPACT:

Work associated with the Legislative Tracking staff report is contained in the Indirect Cost budget, Legislation 810-0120.10.

SCAG All Bills Report 8/14/2024

AB 6 (**Friedman D**) **Transportation planning: regional transportation plans: reduction of greenhouse gas emissions.**

Current Text: Amended: 5/30/2024 [html](#) [pdf](#)

Status: 7/2/2024-Failed Deadline pursuant to Rule 61(b)(13). (Last location was TRANS. on 5/30/2024)

Location: 7/2/2024-S. DEAD

Summary: Current law requires certain transportation planning agencies to prepare and adopt regional transportation plans directed at achieving a coordinated and balanced regional transportation system. Current law requires that each regional transportation plan include a sustainable communities strategy prepared by each metropolitan planning organization in order to, among other things, achieve certain regional targets established by the State Air Resources Board for the reduction of greenhouse gas emissions from automobiles and light trucks in the region for 2020 and 2035, respectively. Current law requires the state board to update the regional targets every 8 years until 2050. Current law requires a metropolitan planning organization, before adopting a sustainable communities strategy, to quantify the reduction in the emissions of greenhouse gases projected to be achieved by the sustainable communities strategy and set forth the difference, if any, between the amount of that reduction and the regional targets. This bill would require the state board to update the regional targets indefinitely, rather than only until 2050, and authorize the state board to update the years to which those targets apply, as specified.

Summary: The Transportation Agency is under the supervision of the Secretary of Transportation, who has the power of general supervision over each department within the agency. The secretary, among other duties, is charged with developing and reporting to the Governor on legislative, budgetary, and administrative programs to accomplish coordinated planning and policy formulation in matters of public interest, including transportation projects. On and after January 1, 2025, and to the extent applicable, feasible, and cost effective, this bill would require the agency, the Department of Transportation, and the California Transportation Commission to incorporate specified goals into program funding guidelines and processes.

Board to include the use of market-based compliance mechanisms in regulating greenhouse gas emissions. The act requires the state board to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas emissions and to update the scoping plan at least once every 5 years. This bill would require the state board to initiate a regulatory process to evaluate potential updates to the market-based compliance mechanism, and would require regulatory changes to take effect no later than January 1, 2025. The bill would require the evaluation to focus on specified items, including whether the supply of emission allowances and carbon offsets are consistent with a linear trajectory toward the statewide greenhouse gas emissions reduction goal established in the state board's most recent scoping plan, rules for banking allowances to use for future compliance, and recommendations made by the Independent Emissions Market Advisory Committee and the state board's environmental justice advisory committee. The bill would require the state board, beginning January 1, 2028, and subsequently on a triennial basis, as specified, and in consultation with the Independent Emissions Market Advisory Committee and the environmental justice advisory committee, to conduct an evaluation of the market-based compliance mechanism, as provided.

Location: 1/18/2024-A. DEAD

Summary: Current law establishes the Milton Marks "Little Hoover" Commission on California State Government Organization and Economy (the commission) for the purpose of securing assistance for the Governor and itself in promoting economy, efficiency, and improved service in the transaction of the public business, as specified, and in making the operation of all state departments, agencies, and instrumentalities, and all expenditures of public funds, more directly responsive to the wishes of the people as expressed by their elected representatives through various means. Existing law declares that the availability of housing is of vital statewide importance. Current law declares that the provision of housing affordable to low- and moderate-income households requires the cooperation of all levels of government. Current law declares that housing prices in California have risen dramatically in all parts of the state in the past decade, while the wealth gap, especially the racial wealth gap, continues to be a growing problem in California. This bill would require the commission to study the causes and effects of the rising cost of living in California and develop solutions toward making California a more affordable place to live, as specified. The bill would require the commission to meet quarterly, as specified. The bill would require the commission to complete 2 reports describing the commission's findings and recommendations, as specified. The bill would repeal these provisions as of January 1, 2027.

Summary: Would authorize the Governor to suspend an adjustment to the motor vehicle fuel tax, as specified, scheduled on or after July 1, 2025, upon making a determination that increasing the rate would impose an undue burden on low-income and middle-class families. The bill would require the Governor to notify the Legislature of an intent to suspend the rate adjustment on or before January 1 of that year, and would require the Department of Finance to submit to the Legislature a proposal by January 10 that would maintain the same level of funding for transportation purposes as would have been generated had the scheduled adjustment not been suspended.

Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.

Location: 1/31/2024-A. DEAD

Summary: The Personal Income Tax Law authorizes various credits against the taxes imposed by that law, including a credit for qualified renters in the amount of \$120 for spouses filing joint returns, heads of household, and surviving spouses if adjusted gross income is \$50,000, as adjusted, or less, and in the amount of \$60 for other individuals if adjusted gross income is \$25,000, as adjusted, or less. Current law requires the Franchise Tax Board to annually adjust for inflation these adjusted gross income amounts. For 2021, the adjusted gross income limit is \$87,066 and \$43,533, respectively. Current law establishes the continuously appropriated Tax Relief and Refund Account in the General Fund and provides that payments required to be made to taxpayers or other persons from the Personal Income Tax Fund are to be paid from that account. This bill, for taxable years beginning on or after January 1 of the taxable year that includes the date on which funding is first authorized for purposes of this bill and for the succeeding 4 taxable years, and only when specified in a bill relating to the Budget Act, would increase the credit amount to \$2,000 for spouses filing joint returns, heads of households, and surviving spouses and \$1,000 for other individuals. In the event the increased credit amount is not specified in a bill relating to the Budget Act, the existing credit amounts, as described above, would be the credit amounts for that taxable year.

Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.

Location: 1/12/2024-A. DEAD

Summary: The State Air Resources Board is required to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020 and to ensure that statewide greenhouse gas emissions are reduced to at least 40% below the 1990 level by 2030, and to adopt rules and regulations in an open public process to achieve the maximum, technologically feasible, and cost-effective greenhouse gas emissions reductions. The act authorizes the state board to include the use of market-based compliance mechanisms. Existing law requires all moneys, except for fines and penalties, collected by the state board from the auction or sale of allowances as part of a market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund and to be available upon appropriation. Current law requires the Department of Finance, in consultation with the state board and any other relevant state agency, to develop, as specified, a 3-year investment plan for the moneys deposited in the Greenhouse Gas Reduction Fund. Current law authorizes moneys in the fund to be allocated, as specified, for an investment in a traffic signal synchronization component that is part of a sustainable infrastructure project if the component is designed and implemented to achieve cost-effective reductions in greenhouse gas emissions and includes specific emissions reduction targets and metrics to evaluate the project's effect. This bill would additionally authorize moneys in the fund to be allocated for an investment in a traffic signal synchronization component that is part of a roadway improvement project requiring multiple signals, including, but not limited to, multimodal redevelopment projects, rail trail projects, urban renewal projects, or a project near transit facilities, if the component is designed and implemented to achieve cost-effective reductions in greenhouse gas emissions and includes specific emissions reduction targets and metrics to evaluate the project's effect.

Summary: Current law requires the driver of any vehicle, including a person riding a bicycle, when approaching a stop sign at the entrance of an intersection, to stop before entering the intersection. A violation of this requirement is an infraction. This bill would require a person who is 18 years of age or older riding a bicycle upon a two-lane highway when approaching a stop sign at the entrance of an

intersection with another roadway with two or fewer lanes, where stop signs are erected upon all approaches, to yield the right-of-way to any vehicles that have either stopped at or entered the intersection, or that are approaching on the intersecting highway close enough to constitute an immediate hazard, and to pedestrians, as specified, and continue to yield the right-of-way to those vehicles and pedestrians until reasonably safe to proceed. The bill would require other vehicles to yield the right-of-way to a bicycle that, having yielded as prescribed, has entered the intersection. The bill would state that these provisions do not affect the liability of a driver of a motor vehicle as a result of the driver's negligent or wrongful act or omission in the operation of a motor vehicle.

Summary: Current law authorizes the Department of Transportation to do any act necessary, convenient, or proper for the construction, improvement, maintenance, or use of all highways that are under its jurisdiction, possession, or control. This bill would require the department to develop guidelines for data sharing, documentation, public access, quality control, and promotion of open-source and accessible platforms and decision support tools related to street furniture data, as provided. The bill would define "street furniture" as objects and pieces of equipment installed along a street or road to provide amenities for pedestrians, including, but not limited to, bus shelters, trash receptacles, benches, or public toilets. The bill would require the department to develop the guidelines in collaboration with specified state and local agencies, and submit a report to the Legislature by January 1, 2025, and every 3 years thereafter, describing those guidelines. To the extent this imposes duties on local agencies, the bill would impose a state-mandated local program. Summary: Current law authorizes a regional transportation agency, in cooperation with the Department of Transportation, to apply to the California Transportation Commission to develop and operate high-occupancy toll (HOT) lanes, including administration and operation of a value pricing program and exclusive or preferential lane facilities for public transit. Current law authorizes a value pricing and transit program involving HOT lanes to be developed and operated on State Highway Route 15 in the County of Riverside by the Riverside County Transportation Commission. Current law requires the Department of Transportation to report to the transportation policy committees of the Legislature, on or before January 1, 2020, on the feasibility and appropriateness of limiting the use of high-occupancy vehicle lanes to high-occupancy vehicles and eligible vehicles, as defined, only during the hours of heavy commuter traffic on both State Route 91 between Interstate 15 and Interstate 215 in the County of Riverside, and State Route 60 in the County of Riverside. Separate from that report, this bill would require the Transportation Agency, on or before January 1, 2025, to report to the transportation policy committees of the Legislature on that same topic and on the feasibility and appropriateness of removing from high-occupancy vehicle lanes in the County of Riverside, except for certain high-occupancy toll lanes, any double parallel solid lines to restrict the entrance into or exit from those lanes, including the use of the appropriate markings and signage.

Summary: (1)Current property tax law, pursuant to constitutional authorization, provides for a "welfare exemption" for property used exclusively for religious, hospital, scientific, or charitable purposes and that is owned or operated by certain types of nonprofit entities, if certain qualifying criteria are met. For the 2022-23 fiscal year through the 2027-28 fiscal year, in the case of an owner of property that is a community land trust, as defined, existing property tax law requires that a unit

continue to be treated as occupied by a lower income household for these purposes if the occupants were lower income households on the lien date in the fiscal year in which their occupancy of the unit commenced and the unit continues to be rent restricted, notwithstanding an increase in the income of the occupants of the unit to 140% of area median income, adjusted for family size. Current law requires that a lease between a community land trust and a lower income household satisfy specified requirements in order for these provisions to apply, including being a renewable 99-year ground lease and a public agency or official must make a finding that the contract serves the public interest of creating or preserving affordable housing, as provided. This bill would eliminate specified requirements of a lease agreement between a lower income household and a community land trust in order for the unit to continue to be treated as occupied by a lower income household, as described above.

Summary: Current law requires the Public Utilities Commission to establish priorities among the types or categories of customers of every electrical corporation and every gas corporation, and among the uses of electricity or gas by those customers, to determine which of those customers and uses provide the most important public benefits and serve the greatest public need, and to categorize all other customers and uses in order of descending priority based on these standards. Current law requires the commission, in establishing those priorities, to consider, among other things, the economic, social, and other effects of a temporary discontinuance in electrical or gas service to certain customers or for certain uses, as specified. If an electrical or gas corporation experiences a shortage of capacity or capability and is unable to meet all demands by its customers, existing law requires the commission to order that service be temporarily reduced by an amount that reflects the established priorities for the duration of the shortage. This bill would require the commission, in establishing those priorities, to also consider the economic, social equity, and mobility impacts of a temporary discontinuance in electrical service to the customers that rely on electrical service to operate public transit vehicles.

Location: 9/1/2023-S. 2 YEAR

Summary: Current law establishes the Department of Housing and Community Development and requires it to administer various programs intended to promote the development of housing and to provide housing assistance and home loans. Current law sets forth various general powers of the department in implementing these programs, including authorizing the department to enter into long-term contracts or agreements of up to 30 years for the purpose of servicing loans or grants or enforcing regulatory agreements or other security documents. Current law authorizes the Department of Housing and Community Development to approve an extension of a department loan, the reinstatement of a qualifying unpaid matured loan, the subordination of a department loan to new debt, or an investment of tax credit equity pursuant to specified rental housing finance programs, as specified, unless it would result in a rent increase for tenants of a development. Current law authorizes the department to charge a monitoring fee to cover the aggregate monitoring costs in years the loan is extended and a transaction fee to cover its costs for processing restructuring transactions, and requires developer fee limitations to be consistent with specified laws and regulations, including regulations by the California Tax Credit Allocation Committee. This bill would revise and recast these provisions, including additionally authorizing the department to approve the payoff of a department loan in whole or part prior to the end of its term and the extraction of equity from a development for purposes approved by the department. The bill would prohibit the extension, reinstatement, subordination, payoff, extraction, or investment, as described above, if it would result in a rent increase for tenants of a development over and above the annual adjustment to the tenants' rents under the department's regulatory agreement. The bill would authorize the department to waive specified requirements in the regulatory agreement if the loan is paid off, including requiring occupancy and financial reports and governing the use of operating income and reserves for the development.

Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.

Location: 1/31/2024-A. DEAD

Summary: The Social Service Transportation Improvement Act requires transportation planning agencies and county transportation commissions to prepare and adopt plans detailing required steps to consolidate social service transportation services, including the designation of consolidated transportation service agencies. The act requires funding for implementation to be provided from specified local transportation funds. This bill would require the coordination, rather than the consolidation, of social service transportation services under the act and would recharacterize consolidated transportation service agencies in the act as coordinated transportation service agencies

Location: 1/18/2024-A. DEAD

Summary: The Planning and Zoning Law requires each city, county, and city and county to prepare an adopt a general plan that contains certain mandatory elements, including a housing element. Current law requires the housing element to identify the existing and projected housing needs of all economic segments of the community. Current federal law requires a continuum of care, a group organized under the federal McKinney-Vento Homeless Assistance Act, to develop a plan that includes planning for and conducting, at least biennially, a point-in-time count of homeless persons within the geographical area. Current law requires that information from the point-in-time count be used to, among other things, allocate funding for the Homeless Emergency Aid program and Homeless Housing, Assistance, and Prevention program. This bill would require a city, county, and city and county, within 60 days after the local continuum of care releases the results of a point-in-time count for a city, county, or city and county's jurisdiction, to, among other things, agendaize the point-in-time count results at a meeting of the city, county, or city and county and present the steps the city, county, or city and county is taking to prevent and end homelessness, including, but not limited to, consideration of specified actions.

Location: 7/2/2024-S. DEAD

Summary: Current law establishes the State Air Resources Board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases. The state board, in this capacity, administers the California Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project under which the agency issues a limited number of vouchers to incentivize the purchase and use of zero-emission commercial vehicles. The Budget Act of 2023 appropriated funds from the Greenhouse Gas Reduction Fund to the state board for zero-emission drayage trucks to be administered through the project and, in expending those funds, requires the state board, before January 1, 2025, to limit the number and award amount levels under the project based on fleet size. This bill would require the state board to ensure that a voucher provided under the project for the purchase of a new, or the retrofit of a used, drayage truck is provided to an operator in an amount determined pursuant to a sliding scale established by the state board, based on the number of drayage trucks the operator owns. In administering the project, the bill would require the state board to prioritize the award of those vouchers to operators meeting certain criteria.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases. Current law also generally designates the State Air Resources Board as the state agency with the primary responsibility for the control of vehicular air pollution. Current law requires the state board to adopt and implement motor vehicle emission standards, in-use performance standards, and motor vehicle fuel specifications for the control of air contaminants and sources of air pollution the state board has found to be necessary, cost effective, and technologically feasible, to carry out specified purposes, unless preempted by federal law. This bill would, if the state board requires a fleet owner to acquire zero-emission vehicles as part of its fleet, require the state board to authorize the rental of a zero-emission vehicle or vehicles for a cumulative total of 260 days in a calendar year to be deemed ownership of one zero-emission vehicle for purposes of meeting that obligation.

Status: 8/12/2024-In committee: Referred to APPR suspense file.

Location: 8/12/2024-S. APPR. SUSPENSE FILE

Summary: Under current law, the Department of Housing and Community Development is responsible for administering various housing programs throughout the state, including, among others, the California Emergency Solutions and Housing Program, which, among other things, provides rental assistance and housing relocation and stabilization services to ensure housing affordability for people who are experiencing homelessness or who are at risk of homelessness. This bill would establish the Federal Housing Voucher Acceleration Program, and would require the department to establish, administer, and fund a grant application process and award grants to public housing authorities in geographically diverse communities, as determined by the department, on or before July 1, 2025. The bill would authorize applicants to use grant funds to provide specified services to the eligible population, as defined, including providing holding fees, signing bonuses, and other landlord incentives. The bill would require the department to allocate grant funds to applicants based upon the number of public housing and Section 8 vouchers maintained by the housing authority and by a housing authority's success rate, defined as the percentage of new voucher families that successfully lease a qualifying unit.

Location: 9/1/2023-S. 2 YEAR

Summary: Current law requires the Public Utilities Commission to establish specified accounts within the California Advanced Services Fund (CASF), including, among other accounts, the Broadband Infrastructure Grant Account and the Federal Funding Account. Existing federal law, the Infrastructure Investment and Jobs Act of 2021, establishes the federal Broadband Equity, Access, and Deployment Program (BEAD Program). Under that act, Congress appropriated \$42,450,000,000 to the Assistant Secretary of Commerce for Communications and Information to carry out the BEAD Program, under which the Assistant Secretary makes grants to states, as provided. This bill would require the commission, in administering federal BEAD Program funds pursuant to the federal Infrastructure Investment and Jobs Act of 2021, to follow federal guidelines, as defined. Except as provided, the bill would prohibit the commission from imposing any additional rules, processes, procedures, prohibitions funding prioritizations, or eligibility criteria on any applicant, as defined, that are not explicitly required by the federal guidelines. The bill would require the commission, in exercising any discretion in adopting rules, processes, and procedures to administer BEAD Program funds, to adopt rules, processes, and procedures that, among other things, use the most robust, granular, and accurate broadband availability data.

Status: 5/30/2024-Read second time. Ordered to third reading.

Location: 5/30/2024-S. THIRD READING

Summary: Current law authorizes the legislative body of a city or a county to designate a proposed enhanced infrastructure financing district by adopting a resolution of intention to establish the proposed district which, among other things, is required to state that an enhanced infrastructure financing district is proposed and describe the boundaries of the proposed district. Current law requires the public financing authority to direct the preparation of and adopt an infrastructure financing plan consistent with the general plan and any relevant specific plan, and consisting of, among other things, a financing section. Current law requires that the financing section include a plan for financing the public facilities, a limit on the total number of dollars of taxes that may be allocated to the district pursuant to the plan, and a date, either not more than 45 years from the date on which the issuance of the bonds is approved for the plan on which the district will cease to exist, by which time all tax allocation to the district will end, or, where the district is divided into project areas, a date on which the infrastructure financing plan will cease to be in effect and all tax allocations to the district will end and a date on which the district's authority to repay indebtedness with incremental tax revenues will end, as specified. This bill, for plans proposed on or after January 1, 2025, would specify that for the purpose of development and construction of passenger rail projects in the County of Los Angeles where at least 75% of the revenue from the district is used for debt service on a federal Transportation Infrastructure Finance and Innovation Act (TIFIA) loan, the date on which the district will cease to exist shall not be more than 75 years from the date of the approval of a TIFIA loan, as specified.

Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.

Location: 1/18/2024-A. DEAD

Summary: The California Residential Care Facilities for the Elderly Act (act) requires the State Department of Social Services to license, inspect, and regulate residential care facilities for the elderly and imposes criminal penalties on a person who violates the act or who willfully or repeatedly violates any rule or regulation adopted under the act. Under current law, whether or not unrelated persons are living together, a residential care facility for the elderly that serves 6 or fewer persons is considered a residential use of property, as specified. Current law makes certain violations of the act a crime. This bill would revise those provisions by deleting the restriction to facilities that serve 6 or fewer and instead referring to residential care facilities for the elderly that are licensed by the State Department of Social Services and provide onsite services.

Location: 7/2/2024-S. THIRD READING

Summary: The California Child Day Care Facilities Act provides for the licensure and regulation of daycare centers by the State Department of Social Services. Current regulation generally requires child daycare facilities that are licensed by the State Department of Social Services to require proof of each child's immunizations, including tuberculosis testing, and to maintain files of this proof on the premises

Current law exempts from these requirements any child daycare center that exclusively offers a program of services for which there is no contract or agreement between the parent and the center for the regular care of the child, and there is no prearranged schedule of care for any child. Current law requires parents using these exempt child daycare centers to sign a form acknowledging that they understand the center is not required to verify immunizations and tuberculosis testing for any children accepted for care. Current law makes a willful or repeated violation of the act a crime. This bill would define the child daycare facilities subject to the above exemption as "drop-in childcare centers" and would make conforming changes.

Summary: Current law requires the Governor to create an Interagency Council on Homelessness, consisting of specified members. Among other goals, current law requires the council to coordinate existing funding and applications for competitive funding. Current law requires the council to create a statewide data system, which is known as the Homeless Data Integration System, that collects local data through the Homeless Management Information System, with a goal of matching data on homelessness to programs impacting homeless recipients of state programs. Current law also requires the council to collect, compile, and make available to the public financial data provided to the council from all state-funded homelessness programs. Current law defines state programs as any programs a California state agency or department funds, implements, or administers for the purpose of providing housing or housing-based services to people experiencing homelessness or at risk of homelessness, except as specified. This bill would additionally require the council to include the Governor's Tribal Advisor. The bill would remove the above-mentioned reference to competitive funding and would instead require the council to coordinate applications for funding. The bill would require council staff to develop and regularly maintain a strategic funding guide and a calendar of new or existing funding opportunities. The bill would require agencies and departments administering state programs to provide the council updated information on new or existing funding opportunities on a quarterly basis.

Location: 7/2/2024-S. DEAD

Summary: The Ralph M. Brown Act, requires, with specified exceptions, each legislative body of a local agency to provide notice of the time and place for its regular meetings and an agenda containing a brief general description of each item of business to be transacted. Current law authorizes the legislative body of a local agency to use alternate teleconferencing provisions during a proclaimed state of emergency (emergency provisions) and, until January 1, 2026, in certain circumstances related to the particular member if at least a quorum of its members participate from a singular physical location that is open to the public and situated within the agency's jurisdiction and other requirements are met (nonemergency provisions). Current law imposes different requirements for notice, agenda, and public participation, as prescribed, when a legislative body is using alternate teleconferencing provisions. The nonemergency provisions impose restrictions on remote participation by a member of the legislative body and require the legislative body to provide specific means by which the public may remotely hear and visually observe the meeting. This bill, until January 1, 2026, would authorize a subsidiary body, as defined, to use similar alternative teleconferencing provisions and would impose

requirements for notice, agenda, and public participation, as prescribed. The bill would require at least one staff member of the local agency to be present at a designated primary physical meeting location during the meeting. The bill would require the local agency to post the agenda at the primary physical meeting location. The bill would require the members of the subsidiary body to visibly appear on camera during the open portion of a meeting that is publicly accessible via the internet or other online platform, as specified. The bill would also require the subsidiary body to list a member of the subsidiary body who participates in a teleconference meeting from a remote location in the minutes of the meeting. In order to use teleconferencing pursuant to this act, the bill would require the legislative body that established the subsidiary body by charter, ordinance, resolution, or other formal action to make specified findings by majority vote, before the subsidiary body uses teleconferencing for the first time and every 12 months thereafter.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would require a person seeking judicial review of the decision of a lead agency made pursuant to CEQA to carry out or approve a housing project to post a bond of \$1,000,000 to cover the costs and damages to the housing project incurred by the respondent or real party in interest. Summary: Current law establishes the Active Transportation Program in the Department of Transportation for the purpose of encouraging increased use of active modes of transportation, such as biking and walking. Current law requires the California Transportation Commission to develop guidelines and project selection criteria for the program and authorizes the commission to amend the adopted guidelines after conducting at least one public hearing. This bill would require an applicant that receives funding under the program for a project to, within one year of completing the project, submit a report to the commission describing how the project met active transportation goals.

Summary: Under current law, the State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with the federal National Pollutant Discharge Elimination System (NPDES) permit program established by the federal Clean Water Act and the act. This bill would require the regional water board, defined to mean the regional water board with geographic boundaries for the San Francisco Bay region, to, by July 1, 2025, initiate modifications to its waste discharge requirements, as specified. The bill would require these modifications to be completed within 6 months of initiation. Before finalizing the modifications, the bill would require the regional water board to make specified findings, including, among other things, that concerns regarding the potential impacts of the draft NPDES permit requirements on the development of housing on infill sites have been adequately addressed. The bill would make these provisions inoperative on July 1, 2028, and would repeal them on January 1, 2029.

Location: 7/2/2024-S. DEAD

Summary: The Planning and Zoning Law requires a city or county to adopt a comprehensive general plan for the city's or county's physical development that includes various elements, including, among others, a land use element that designates the proposed general distribution and general location an

extent of the uses of the land in specified categories, and a circulation element that identifies the location and extent of existing and proposed major thoroughfares, transportation routes, terminals, any military airports and ports, and other local public utilities and facilities, as specified. This bill, the Local Electrification Planning Act, would require a city, county, or city and county to prepare and adopt a specified plan, or otherwise integrate a plan into the general plan, that, among other things, identifies opportunities to expand electric vehicle charging to meet the needs of the city's, county's, or city and county's current and future visitors, residents, and businesses, and includes policies and implementation measures that address the needs of disadvantaged communities, low-income households, and small businesses for investments in zero-emission technologies that directly benefit these groups, as specified. Location: 7/2/2024-S. DEAD

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would expand the exemption by increasing the size of a residential project that would qualify for the exemption to include a project of not more than 5 acres in total area. The bill would require a lead agency approving an exempt residential project on an urbanized infill site to file a notice of exemption with the Office of Planning and Research, as specified. Location: 9/1/2023-S. 2 YEAR

Summary: Current law requires specified designated transportation planning agencies to prepare and adopt a regional transportation plan directed at achieving a coordinated and balanced regional transportation system, as described. Current law requires the plan to include specified information, including a sustainable communities strategy prepared by each metropolitan planning organization, and requires each transportation planning agency to adopt and submit, every 4 years, an updated plan to the California Transportation Commission and the Department of Transportation. Current law requires the sustainable communities strategy to include specified information, including an identification of areas within the region sufficient to house all the population of the region over the course of the planning period of the regional transportation plan, as specified, and an identification of areas within the region sufficient to house an 8-year projection of the regional housing need for the region, as specified. This bill would additionally require each metropolitan planning organization to include in the sustainable communities strategy the total number of new housing units necessary to house all the population of the region over the course of the planning period of the regional transportation plan, as specified, and the total number of new housing units necessary to house the above-described 8-year projection, as specified.

Location: 9/1/2023-S. 2 YEAR

Summary: Existing law, the Government Claims Act, generally requires the presentation of all claims for money or damages against local public entities and the state. Existing law provides for the presentation of a claim for which appropriations have been made, or for which state funds are available, under that act to the Controller, in the form and manner prescribed by the general rules and regulations adopted by the Department of General Services. Existing law, with specified exceptions, prohibits the Controller from drawing a warrant for any claim until it has been audited in conformity with law and the general rules and regulations adopted by the Department of General Services governing the presentation and audit of claims. This bill would authorize the Controller to conduct, unless prohibited by the provisions of a state ballot proposition passed by the electorate, financial and compliance audits as the Controller's office deems as necessary for purposes of ensuring that any expenditures, regardless of the source or fund from which the warrants for claims are drawn, are expended in a manner consistent with the law and the voters' intent. The bill would also authorize the Controller to conduct any audits necessary to carry out their constitutional and statutory duties and responsibilities under the law. The bill would require, if an audit is conducted as specified, the Controller to provide a report with specified information from these audits to the Legislature by June 30 following the completion of the audit and would require the Controller to allow all auditees in the report a reasonable period of time to review and comment on the section of the report relating to the auditee, as described. Summary: Current law requires the State Energy Resources Conservation and Development Commission, in consultation with the State Air Resources Board, as part of the development of the

investment plan for the Clean Transportation Program, to assess whether charging station infrastructure is disproportionately deployed, as specified, and, upon finding disproportionate deployment, to use moneys from the Alternative and Renewable Fuel and Vehicle Technology Fund, as well as other mechanisms, including incentives, to more proportionately deploy new charging station infrastructure, except as specified. This bill would require, on and after June 1, 2024, owners, operators, and infrastructure developers of electric vehicle charging stations, except for charging stations located at residential dwellings, as defined, for which those parties are awarded a state grant to support the electric vehicle charging stations, including related infrastructure, on or after January 1, 2024, to ensure that specified data fields for the owner's or operator's entire network of electric vehicle charging stations in California are made available, free of charge, to third-party software developers through an application programming interface, as specified. The bill would authorize other owners, operators, and infrastructure developers of electric vehicle charging stations not located at residential dwellings to ensure that those data fields are available to third-party software developers under the same conditions.

Location: 1/12/2024-A. DEAD

Summary: The Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body be open and public, and that all persons be permitted to attend unless a closed session is authorized. The act generally requires for teleconferencing that the legislative body of a local agency that elects to use teleconferencing post agendas at all teleconference locations, identify each teleconference location in the notice and agenda of the meeting or proceeding, and have each teleconference location be accessible to the public. Current law also requires that, during the teleconference, at least a quorum of the members of the legislative body participate from locations within the boundaries of the territory over which the local agency exercises jurisdiction. This bill, with respect to those general provisions on teleconferencing, would require a legislative body electing to use teleconferencing to instead post agendas at a singular designated physical meeting location, as defined, rather than at all teleconference locations. The bill would remove the requirements for the legislative body of the local agency to identify each teleconference location in the notice and agenda, that each teleconference location be accessible to the public, and that at least a quorum of the members participate from locations within the boundaries of the territory over which the local agency exercises jurisdiction.

Summary: Existing law requires the Public Utilities Commission, upon the deposit of state or federal infrastructure moneys into the Federal Funding Account, to implement a program using those moneys to expeditiously connect unserved and underserved communities by applicable federal deadlines. Under existing law, of the \$2,000,000,000 appropriated to the commission to fund last-mile broadband infrastructure in the Budget Act of 2021, the commission is required to allocate \$1,000,000,000 for projects in rural counties and \$1,000,000,000 for projects in urban counties, except that any of those moneys that are not encumbered on or before June 30, 2023, will be available to the commission to allocate for the construction of last-mile broadband infrastructure anywhere in the state. This bill would revise those provisions related to the account to also require the commission to implement the program upon the allocation of moneys for purposes of the account, expand the requirement that the commission separately allocate \$1,000,000,000 to projects in rural and urban counties to apply to the \$2,000,000,000 appropriated or otherwise committed to the commission to fund last-mile broadband infrastructure in the Budget Act of 2021, and delete the provision that would make those moneys that have not been encumbered on or before June 30, 2023, available for projects anywhere in the state.

Summary: The Jobs and Economic Improvement Through Environmental Leadership Act of 2021 authorizes the Governor, until January 1, 2024, to certify environmental leadership development projects that meet specified requirements for certain streamlining benefits related to CEQA. The act, among other things, requires a lead agency to prepare the record of proceedings for an environmental leadership development project, as provided, and to include a specified notice in the draft EIR and final EIR. The act is repealed by its own term on January 1, 2026. This bill would extend the application of the act to water storage projects, water conveyance projects, and groundwater recharge projects that provide public benefits and drought preparedness. The bill would authorize the Governor, until January 1, 2025, to certify water storage projects, water conveyance projects, and groundwater recharge projects as environmental leadership development projects. Current Text: Amended: 4/11/2023 [html](#) [pdf](#)

Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.

Location: 1/18/2024-A. DEAD

Summary: Current law requires every city, county, and city and county to administratively approve an application to install electric vehicle charging stations and hydrogen-fueling stations through the issuance of a building permit or similar nondiscretionary permit and requires the review of an application to install an electric vehicle charging station or a hydrogen-fueling station to be limited to the building official's review of whether it meets all health and safety requirements of local, state, and federal law. Current law prohibits a city, county, or city and county from denying an application for a use permit to install an electric vehicle charging station or a hydrogen-fueling station unless it makes written findings that the proposed installation would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact. Current law requires that any conditions imposed on an application to install an electric vehicle charging station or a hydrogen-fueling station be designed to mitigate the specific, adverse impact upon the public health or safety at the lowest cost possible. Current law defines "electric vehicle charging station" or "charging station" for these purposes. Existing law repeals these provisions as they pertain to hydrogen-fueling stations on January 1, 2030. This bill would provide that the provisions described above do not apply to applications to install an electric vehicle charging station or hydrogen-fueling station in a public right-of-way.

Current Text: Introduced: 2/17/2023 [html](#) [pdf](#)

Status: 2/1/2024-Died at Desk.

Location: 1/18/2024-A. DEAD

Summary: The Planning and Zoning Law makes declarations of state policy and legislative intent, including finding and declaring that California's land is an exhaustible resource, not just a commodity, and is essential to the economy, environment, and general well-being of the people of California. Current law further declares it is the policy of the state and the intent of the Legislature to protect California's land resource, to ensure its preservation and use in ways that are economically and socially desirable in an attempt to improve the quality of life in California. This bill would make

nonsubstantive changes to those provisions.

Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.

Location: 1/18/2024-A. DEAD

Summary: Would require the agency, the Department of Transportation, and the California Transportation Commission, on or before July 1, 2025, to jointly develop and adopt criteria and an evaluation process for purposes of jointly evaluating each agency, Department of Transportation, or California Transportation Commission project, as defined, to, among other things, determine if the project would be located in a priority population, address an important need of a priority population, and provide a direct, meaningful, and assured benefit to a priority population, as specified. The bill would require the agency, the Department of Transportation, and the California Transportation Commission, on and after July 1, 2025, to jointly evaluate all new proposed projects by the criteria, and, on or before July 1, 2026, and annually thereafter, to jointly submit a report to the Legislature that evaluates how projects funded during the prior year impacted priority populations, as specified.

Location: 1/12/2024-A. DEAD

Summary: This bill would expressly exempt from CEQA a project reduction of fuels in areas within moderate, high, and very high fire hazard severity zones, as provided. Because a lead agency would be required to determine whether a project qualifies for this exemption, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Current law vests the Public Utilities Commission (PUC) with regulatory authority over public utilities, including telephone corporations. The Moore Universal Telephone Service Act establishes the state lifeline telephone service program to provide low-income households with access to affordable basic residential telephone service. Federal law requires a common carrier designated as an eligible telecommunications carrier to be eligible to receive universal service support, which includes support provided by the federal lifeline program, as specified. Federal law provides various pathways for designation as an eligible telecommunications carrier, including, among other pathways, designation by a state commission. This bill would require the PUC, as part of a new or existing proceeding, to establish an expedited process by which a telephone corporation that offers broadband service may become an eligible telecommunications carrier for the purpose of providing stand-alone broadband service as part of the state or federal lifeline program, or both.

Location: 1/18/2024-A. DEAD

Summary: Current law requires the State Energy Resources Conservation and Development Commission (Energy Commission), in collaboration with the State Air Resources Board, the Public Utilities Commission, and other relevant stakeholders, to annually gather from state agencies, as provided, specified entities' fleet data for on-road and off-road vehicles in the medium- and heavy-duty sectors, including information that would allow an electrical corporation or local publicly owned electric utility to estimate the total anticipated charging capacity at each fleet location, and share that data with electrical corporations and local publicly owned electric utilities to help inform electrical grid planning efforts, as specified. Current law prohibits electrical corporations and local publicly owned electric utilities from disclosing that data to third parties. This bill would require the Energy Commission to also gather information that would allow relevant state agencies to estimate the total anticipated

hydrogen fueling demand at each fleet location.

Location: 1/12/2024-A. DEAD

Summary: Would enact The Student Housing Crisis Act of 2023. The bill would require a city, county, or city and county to classify student and faculty and staff housing as a permitted use on all real property within 1,000 feet of a university campus, as defined, for zoning purposes. The bill would require a proposed student or faculty and staff housing project, as defined, to be considered ministerially, without discretionary review or a hearing, if specified requirements are met, including that a minimum of 20% of the units in the project be rented by students or faculty and staff of the university. The bill would prohibit a local agency from imposing or enforcing on a student or faculty and staff housing project subject to ministerial consideration certain restrictions, including a minimum automobile parking requirement. The bill would require student or faculty and staff housing to have certain recorded deed restrictions, except as provided, that ensure for at least 55 years that, among other things, at least 20% of the units are affordable to lower income households, as defined, except as provided. In connection with an application submitted pursuant to these provisions, the bill would require a city, county, or city and county to take specified actions, including, upon the request of the applicant, provide a list of permits and fees that are required by the city, county, or city and county. By imposing new duties on local jurisdictions, this bill would impose a state-mandated local program.

Summary: Current law authorizes a city or county to impose a roof overhang requirement on manufactured homes not to exceed 16 inches whenever there are no size requirements for roof overhangs for manufactured homes and conventional single-family dwellings. This bill would additionally prohibit a city or county from imposing requirements for a roof overhang on a nonconventional single-family residential dwelling unless the same size requirements also would be imposed on a conventional single-family residential dwelling constructed on the same lot. The bill would authorize a city or county to impose a roof overhang requirement on manufactured homes not to exceed 16 inches whenever there are no size requirements for roof overhangs for manufactured homes, conventional single-family dwellings, and nonconventional single-family dwellings. The bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities.

Summary: Current law authorizes the issuance of bonds in specified amounts pursuant to the State General Obligation Bond Law and requires that proceeds from the sale of these bonds be used to finance various existing housing programs, capital outlay related to infill development, brownfield cleanup that promotes infill development, and housing-related parks. This bill would enact the Affordable Housing Bond Act of 2024, which, if adopted, would authorize the issuance of bonds in the

amount of \$10,000,000,000 pursuant to the State General Obligation Bond Law. Proceeds from the sale of these bonds would be used to finance programs to fund affordable rental housing and homeownership programs, including, among others, the Multifamily Housing Program, the CalHome Program, and the Joe Serna, Jr. Farmworker Housing Grant Program. This bill would provide for submission of the bond act to the voters at the March 5, 2024, statewide general election in accordance with specified law.

Summary: The Public Utilities Act imposes requirements, including a requirement that rates charged by a public utility are to be just and reasonable, over public utilities. Under existing law a violation of the act by a public utility is a crime. This bill would define "public utility" to include a corporation providing broadband service to the public or a portion of the public. By including corporations providing broadband service as a public utility, the bill would expand the application of requirements imposed on public utilities by the Public Utilities Act to those corporations and would, therefore, expand the scope of a crime, thereby imposing a state-mandated local program. Location: 1/12/2024-A. DEAD

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA does not apply to the approval of ministerial projects. This bill would authorize an entity to submit an application for a health facility that will provide reproductive health services if the proposed health facility meets certain requirements, including, among others, that the proposed health facility is located on a legal parcel or group of parcels that is more than 50 miles from the nearest health facility that provides reproductive health services. The bill would make the licensed health facility subject to a streamlined ministerial review process and a use by right, thereby exempting the approval of development project subject to that approval process from CEQA.

Summary: Current law prohibits the use of a motorized bicycle on a bicycle path or trail, bikeway, bicycle lane, equestrian trail, or hiking or recreational trail, as specified, unless the governing body of a local public agency, which has jurisdiction over the path or trail, permits the operation. Current law authorizes a governing body of a local public agency, which has jurisdiction over the path or trail, to prohibit the use of an electric bicycle on an equestrian trail, or hiking or recreational trail. A violation of the Vehicle Code is a crime and a person convicted of an infraction for a violation of either the Vehicle Code or a local ordinance adopted pursuant to the code is subject to a specified fine schedule, except as otherwise provided. This bill would clarify that a recreational trail for these purposes includes a boardwalk, as defined, regardless of whether the facility also provides bicycle access. Notwithstanding specified law, the bill would impose a fine, not to exceed \$35, against a person convicted of an infraction for a violation of an ordinance prohibiting or regulating electric bicycles on recreational trails.

Summary: Would establish the Marin Electric Bicycle Safety Pilot Program that would, until January 1, 2029, authorize a local authority within the County of Marin, or the County of Marin in unincorporated areas, to adopt an ordinance or resolution that would prohibit a person under 16 years of age from operating a class 2 electric bicycle or require a person operating a class 2 electric bicycle to wear a bicycle helmet, as specified. The bill would require an ordinance or resolution that is adopted for this purpose to make a violation punishable by warning notices for the first 60 days after the prohibition comes into effect. After the 60-day period, the bill would require a violation to be an infraction punishable by a fine of \$25. The bill would prohibit a record of the action from being transmitted to the court and a fee from being imposed if the person who violates the ordinance or resolution delivers proof to the issuing agency within 120 days after the citation was issued that the person has completed specified requirements. The bill would, if an ordinance or resolution is adopted, require the county to, by January 1, 2028, submit a report to the Legislature that includes, among other things, the total number of traffic stops initiated for violations, the results of the traffic stops, and the actions taken by peace officers during the traffic stops, as specified. This bill would also authorize the department to make those loans and grants to rehabilitate, capitalize operating subsidy reserves for, and extend the long-term affordability of housing projects that qualify as a challenged development. The bill would define "challenged development" for these purposes to mean a development that meets a specified criteria including that the development is at least 15 year old, serves households of very low income or extremely low income, and has insufficient access to private or other public resources to complete substantial rehabilitation, as determined by the

department.

Location: 8/6/2024-S. THIRD READING

Summary: The Child Abuse and Neglect Reporting Act requires certain professionals, including specified health practitioners and social workers, known as "mandated reporters," to report known or reasonably suspected child abuse or neglect to a local law enforcement agency or a county welfare or probation department, as specified. Failure by a mandated reporter to report an incident of known or reasonably suspected child abuse or neglect is a misdemeanor. Current law defines "neglect" for these purposes as the negligent treatment or the maltreatment of a child by a person responsible for the child's welfare under circumstances indicating harm or threatened harm to the child's welfare. Current law defines "general neglect" as the negligent failure of a person having the care or custody of a child to provide adequate food, clothing, shelter, medical care, or supervision where no physical injury to the child has occurred. The bill would specify that a mandated reporter is not required, but is permitted, to report a case of general neglect under the Act.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Under current law, supportive housing is a use by right in zones where multifamily and mixed uses are permitted if the developer satisfies certain requirements. Current law defines "supportive housing" as housing with no limit on length of stay, that is occupied by the target population, and that is linked to onsite or offsite services that assist the supportive housing resident in specified activities. Current law requires a supportive housing development to include nonresidential floor area used for onsite services in specified amounts. In this regard, current law requires a supportive housing development with more than 20 units to provide at least 3% of the total nonresidential floor area for onsite supportive services. This bill would revise the above-described requirement for a supportive housing development with more than 20 units to, instead, require the supportive housing development provide at least 3% of the total floor area for onsite supportive services. The bill would authorize a supportive housing development to include administrative office space in its nonresidential floor area, provided that the total floor area dedicated to administrative office space does not exceed 25% of the total floor area. The bill would define "administrative office space" as an organizational headquarters or auxiliary office space utilized by a nonprofit organization for the purpose of providing onsite supportive services at a supportive housing development and other nonprofit operations. The bill would specify that "administrative office space" includes parking necessary to serve the office space. By expanding the use by right provisions to include administrative office space, the bill would expand the exemption for approval of ministerial projects under the California Environmental Quality Act (CEQA).

Summary: Current law requires a city or county to deem an applicant for a housing development project to have submitted a preliminary application upon providing specified information about the proposed project to the city or county from which approval for the project is being sought. Current law requires a housing development project be subject only to the ordinances, policies, and standards adopted and in effect when the preliminary application was submitted. This bill would authorize a development proponent that submits a preliminary application for a housing development project to request a preliminary fee and exaction estimate, as defined, and would require a city, county, or city and county to provide the estimate within 30 business days of the submission of the preliminary application. For development fees imposed by an agency other than a city, county, or city and county, the bill would require the development proponent to request the fee schedule from the agency that imposes the fee without delay.

Summary: The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency, including requiring that the local agency provide public notice and a majority protest procedure in the case of assessments and submit property-related fees and charges for approval by property owners subject to the fee or charge or the electorate residing in the affected area following a public hearing. Current law, known as the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with these requirements and, among other things, authorizes an agency providing water, wastewater, sewer, or refuse collection services to adopt a schedule of fees or charges authorizing automatic adjustments that pass through increases in wholesale charges for water, sewage treatment, or wastewater treatment or adjustments for inflation under certain circumstances. Current law defines, among other terms, the term "water" for these purposes to mean any system of public improvements intended to provide for the production, storage, supply, treatment, or distribution of water from any source. This bill would provide that the fees or charges for property-related water service imposed or increased, as specified, may include the incrementally higher costs of water service due to specified factors, including the higher water usage demand of parcels.

Summary: The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan for its physical development, and the development of certain lands outside its boundaries, that includes, among other mandatory elements, a housing element. Current law deems a housing development project located on any real property owned by a local educational agency an allowable use if the project meets specified criteria, including, among other things, that the development consists of at least 10 housing units and all of the units are rented by local educational agency employees, local public employees, and general members of the public pursuant to specified procedures. Current law requires a housing development subject to these provisions to have a recorded deed restriction that ensures, for a period of at least 55 years, that the majority of the units of the housing development are set at an affordable rent to lower income or moderate-income households, provided that at least 30% of the units are affordable to lower income households. This bill would instead require all of the units of a housing development subject to these provisions that are rented to general members of the public to be affordable to lower income households. The bill would require the housing development to have a recorded deed restriction that ensures, for a period of at least 55 years, that any unit that is rented to general members of the public is set at an affordable rent to lower income households.

Summary: Current law creates the Metropolitan Transportation Commission as a local area planning agency for the 9-county San Francisco Bay area with comprehensive regional transportation planning and other related responsibilities. Current law creates various transit districts located in the San Francisco Bay area, with specified powers and duties relating to providing public transit services. Current law requires the commission to adopt rules and regulations to promote the coordination of fares and schedules for all public transit systems within its jurisdiction, as specified. This bill would create the Regional Network Management Council as an 11-member council to represent the interests of its stakeholders, to provide leadership and critical input on regional transit policies, and to provide executive guidance on regional transit policies and actionable implementation plans in pursuit of transformative improvements in the customer experience San Francisco Bay area transit. The bill would require the commission to facilitate the creation of the council.

Summary: Current law establishes the California Dream for All Program to provide shared appreciation loans to qualified first-time homebuyers, as specified. Current law establishes the California Dream for All Fund, which is continuously appropriated for expenditure pursuant to the program and defraying the administrative costs for the agency. Current law authorizes moneys deposited into the fund to include, among other moneys, appropriations from the Legislature from the General Fund or other state fund. This bill would specify that an applicant under the program who meets all other requirements for a loan under the program, including, but not limited to, any requirements imposed by the Federal National Mortgage Association or other loan servicer, shall not be disqualified solely based on the applicant's immigration status. By expanding the persons eligible to receive moneys from a continuously appropriated fund, this bill would make an appropriation. The bill would recast the fund so that appropriations from the Legislature from the General Fund or other state fund are deposited into the California Dream for All Subaccount, which the bill would create and make available upon appropriation by the Legislature for specified purposes.

Summary: Current law requires the county assessor to consider, when valuing real property for property taxation purposes, the effect of any enforceable restrictions to which the use of the land may be subjected. Under current law, these restrictions include, among other enumerated items, a recorded contract with a nonprofit corporation that meets prescribed requirements, including requirements that the nonprofit corporation has received a welfare exemption for properties intended to be sold to low-income families who participate in a special no-interest loan program, and that the contract includes a deed of trust on the property in favor of the nonprofit corporation to ensure compliance with the terms of the program, as described. Summary: Current law sets forth the general responsibilities and roles of the Business, Consumer Services, and Housing Agency, the Department of Housing and Community Development (department) and the California Housing Finance Agency in carrying out state housing policies and programs. Current law, the G. David Singleton California Indian Assistance Program, requires the department to provide comprehensive technical assistance to tribal housing authorities, housing sponsors, and governmental agencies on reservations, rancherias, and on public domain to facilitate the planning and orderly development of suitable, decent, safe, and sanitary housing for American Indians residing in these areas. Upon request of the governing body of a reservation or rancheria, current law authorizes the department to act on behalf of the tribal housing authority and perform the functions thereof. This bill would remove the authority for the department to act on behalf of the tribal housing authority. The bill would also require the department to provide comprehensive technical assistance to tribes, designated tribal housing entities, and tribal housing departments on reservations, rancherias, and on public domain, and tribes that want to participate in tribal housing grant programs on fee simple land. The bill would additionally require the department to provide comprehensive technical assistance to facilitate the planning and orderly development of suitable, decent, safe, and sanitary housing for American Indians residing within a tribe's designated service area, as defined by the tribe.

Summary: Current law regulates home protection companies, which issue contracts for the repair or replacement of a component, system, or appliance of a home. Current law prohibits a person from issuing or offering a home protection contract unless the person holds a home protection company license issued by the Department of Insurance, as specified. This bill would, notwithstanding the above-described provisions, prohibit a person or entity from selling or offering any form of a home protection contract unless the person is licensed as an insurance agent or broker, falls under a specified exemption, or has been issued a license under the provisions described below. The bill would provide for the licensure of an applicant and require specified information be submitted to the Insurance Commissioner along with a written application, including an application fee, as specified, and a certificate by a home protection company or insurer stating that it is satisfied that the named applicant is trustworthy and competent to act as an agent on its behalf. The bill would authorize an endorsee, as defined, to act on behalf of, or under the supervision of, a licensee, as defined, in matter relating to selling or offering home protection contracts, if specified conditions are met. The bill would require the licensee to provide specified training to an endorsee prior to allowing the endorsee to sell or offer home protection contracts.

Summary: The Planning and Zoning Law requires a city or county to adopt a general plan for land use development within its boundaries that includes, among other things, a housing element. The Housing Element Law prescribes requirements for a city's or county's preparation of, and compliance with, its housing element, and requires the Department of Housing and Community Development to review and determine whether the housing element substantially complies with the Housing Element Law, as specified. If the department finds that a draft housing element or amendment does not substantially comply with the Housing Element Law, current law requires the legislative body of the city or county to either (A) change the draft element or amendment to substantially comply with the Housing Element Law or (B) adopt the draft housing element or amendment without changes and make specified findings as to why the draft element or amendment substantially complies with the Housing Element Law despite the findings of the department. Current law requires a planning agency to promptly submit an adopted housing element or amendment to the department and requires the department to review the adopted housing element or amendment and report its findings to the planning agency within 60 days. This bill would require a planning agency that makes the above-described findings as to why a draft housing element or amendment substantially complies with the Housing Element Law despite the findings of the department to submit those findings to the department. The bill would require the department to review those finding in its review of an adopted housing element or amendment. The bill would create a rebuttable presumption of validity for the department's findings as to whether the adopted element or amendment substantially complies with the Housing Element Law.

Summary: The Planning and Zoning Law requires the legislative body of a city or county to adopt a comprehensive general plan that includes various elements, including land use, housing, and conservation elements, as specified. Current law requires the conservation element to consider the effect of development within the jurisdiction on natural resources located on public lands. This bill would additionally require the conservation element to consider the effect of development within the jurisdiction on the movement of wildlife and habitat connectivity. The bill would require the conservation element, upon the next update of one or more elements on or after January 1, 2028, to, among other things, identify and analyze connectivity areas, permeability, and natural landscape area within the jurisdiction, identify and analyze existing or planned wildlife passage features, and consider the impacts of development and the barriers caused by development to wildlife and habitat connectivity. The bill would authorize a city, county, or city and county to incorporate by reference into its general plan an existing plan that meets these requirements. The bill would authorize a city, county or city and county preparing to update its conservation element to consider incorporating appropriate standards, policies, and implementation programs, consult with specified entities, and consider relevant best available science.

Summary: The Housing Element Law prescribes requirements for a city's or county's preparation of, and compliance with, its housing element, and requires the Department of Housing and Community Development to review and determine whether the housing element substantially complies with the Housing Element Law, as specified. The Housing Accountability Act, among other things, prohibits a local agency from disapproving, or conditioning approval in a manner that renders infeasible, a housing development project for very low, low-, or moderate-income households unless the local agency make written findings as to one of certain sets of conditions, as specified. Among these conditions, the act allows a local agency to disapprove a housing development project that is inconsistent with the jurisdiction's zoning ordinances and general plan land use designation as it existed on the date the application was deemed complete, if the jurisdiction has adopted a revised housing element that is in substantial compliance with the Housing Element Law, as specified. This bill would make various changes to that condition. The bill would specify that a local agency may disapprove or condition approval of a housing development project or emergency shelter, as described above, if the local agency makes written findings that on the date the application for the housing development project or emergency shelter was deemed complete the jurisdiction did not have an adopted revised housing element that was in substantial compliance with the Housing Element Law and the housing development project is not a builder's remedy project, as defined.

Summary: Current law establishes the State Air Resources Board as the state agency with primary jurisdiction over the regulation of air pollution. Existing law generally designates air pollution control districts and air quality management districts with the primary responsibility for the control of air pollution from all sources other than vehicular sources. Current law subjects violators of specified air pollution laws or any rule, regulation, permit, or order of a district or of the state board to specified civil penalties. Summary: Current law authorizes the State Energy Resources Conservation and Development Commission (Energy Commission) to prescribe, by regulation, energy efficiency standards, including appliance efficiency standards. Under this authority, the Energy Commission has established building standards for the installation of photovoltaic systems meeting certain requirements for certain residential and commercial buildings. Current law requires any standard that has been adopted by the

Energy Commission pursuant to these provisions to be submitted to the California Building Standards Commission for approval. This bill would exempt a building that is constructed in the service territory of a public utility district, as specified, and that receives all of its electricity pursuant to a preference right adopted and authorized by the United States Congress, if that electricity is carbon free, from the building standards adopted by the Energy Commission, as provided, that require new residential and commercial buildings to be solar ready or to have photovoltaic and battery storage systems installed.

Summary: Current law defines a "renewable electrical generation facility" as a facility that uses biomass, solar thermal, photovoltaic, wind, geothermal, fuel cells using renewable fuels, small hydroelectric generation of 30 megawatts or less, digester gas, municipal solid waste conversion, landfill gas, ocean wave, ocean thermal, or tidal current, and that meets other specified requirements. Current law incorporates that definition into various programs, including the California Renewables Portfolio Standard Program, which requires the Public Utilities Commission to establish a renewables portfolio standard requiring all retail sellers, as defined, to procure a minimum quantity of electricity products from electrical generating facilities that meet the definition of "renewable electrical generation facility," and the net energy metering program, in which residential customers, small commercial customers, and commercial, industrial, or agricultural customers of an electrical utility, who use a renewable electrical generation facility, are eligible to participate, as specified. Summary: The Personal Income Tax Law allows various deductions in computing the income that is subject to the taxes imposed by that law, including, in modified conformity with federal income tax laws, a deduction for a limited amount of interest paid on acquisition indebtedness, as defined, with respect to a qualified residence of the taxpayer. Current law limits the aggregate amount treated as acquisition indebtedness for these purposes to \$1,000,000, or \$500,000 in the case of a married individual filing a separate return. Current law specifies for these purposes that a qualified residence includes the taxpayer's principal residence and one other residence selected by the taxpayer, as provided. This bill, for taxable years beginning on or after January 1, 2025, would disallow the deduction of acquisition indebtedness with respect to a qualified residence of a taxpayer other than the principal residence. This bill would require the Franchise Tax Board, in consultation with the Department of Finance, to estimate the amount of additional revenue resulting from the above-described modifications made with respect to the calculation of taxable income under the Personal Income Tax Law by this bill and to notify the Controller of that amount, as provided.

Summary: Under current law, the policy of the state is that every human being has the right to access sufficient, affordable, and healthy food. Current law establishes various food assistance programs, including, among others, the federal Supplemental Nutrition Assistance Program (SNAP), known in California as CalFresh, under which supplemental nutrition assistance benefits allocated to the state by the federal government are distributed to eligible individuals by each county. This bill would require the Strategic Growth Council, in consultation with specified entities, to appoint and convene the End Hunger in California Master Plan Task Force to make recommendations for future comprehensive strategies aimed at addressing access to healthy and culturally relevant food for all Californians. The bill would require the task force to meet at least quarterly and to be composed of up to 30 members, from specified agencies and with specified knowledge and expertise in various food-related subject matters. The bill would authorize the council to use privately donated funds to provide non-state-employed members with a reasonable per diem allowance for each day of attendance and reimbursement for actual and necessary travel expenses incurred in connection with their official duties involving the task force. The bill would also authorize the task force to form ad hoc advisory committees to learn more about specific issues regarding recommending future comprehensive strategies aimed at addressing access to healthy and culturally relevant food.

Summary: The Teacher Housing Act of 2016 authorizes a school district to establish and implement programs that address the housing needs of teachers and school district employees who face challenges in securing affordable housing, as specified. The act provides that the purpose of the act is to facilitate the acquisition, construction, rehabilitation and preservation of affordable rental housing for teachers and school district employees to allow teachers or school district employees to access and maintain housing stability. The act provides that it specifically creates a state policy supporting housing for teachers and school district employees as described by specified federal law and permits school districts and developers in receipt of local or state funds or tax credits designated for affordable rental housing to restrict occupancy to teachers and school district employees on land owned by school districts, so long as that housing does not violate any other applicable laws. The act defines various terms for these purposes. This bill would authorize the California State University to establish and implement programs that address the housing needs of faculty or California State University employees who face challenges in securing affordable housing, as specified. The bill would provide that the purpose of its provisions are to facilitate the acquisition, construction, rehabilitation and preservation of affordable rental housing for faculty or California State University employees to allow them to access and maintain housing stability.

Summary: Would, until January 1, 2029, and upon appropriation by the Legislature for these purposes, require the Department of Housing and Community Development to establish the Unicorn Homes Transitional Housing for Homeless LGBTQ+ Youth Program, to be administered by local community-based organizations that provide a majority of its services to the LGBTQ+ community. The

bill would require the department to fund community-based organizations in up to 5 selected counties that provide transitional housing for LGBTQ+ youth, 18 to 24 years of age, inclusive, experiencing homelessness due to family rejection, with the ultimate goal of reunification with the youth's original family. The bill would require the community-based organization to place eligible youth with volunteer host families who meet specified criteria, pursuant to the results of a background check, and who are able to provide crisis intervention with a trauma-informed approach, as defined, to their care. The bill would also require the program to comply with the existing core components of Housing First.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: The Mobilehome Parks Act generally regulates various classifications of mobilehome and related vehicle parks, and imposes enforcement duties on the Department of Housing and Community Development (department) and local enforcement agencies. Current law requires every park with 50 or more units to have a person who is responsible for, and will respond in a timely manner to, emergencies concerning the operation and maintenance of the park that resides in the park and has knowledge of emergency procedures relative to utility systems and common facilities under the ownership and control of the owner of the park, and familiarity with the emergency preparedness plans for the park. This bill would, starting June 1, 2025, require that person who is responsible for emergencies concerning the operation and maintenance of the park to have knowledge of emergency procedures relative to access to park entrances and exits.

Status: 8/13/2024-Read second time. Ordered to third reading.

Location: 8/13/2024-S. THIRD READING

Summary: The Housing Element Law prescribes requirements for a city's or county's preparation of, and compliance with, its housing element, and requires the Department of Housing and Community Development to review and determine whether the housing element substantially complies with the Housing Element Law, as specified. Current law requires the housing element to include an inventory of land suitable and available for residential development. If that inventory of sites does not identify adequate sites to accommodate the need for groups of all household income levels, as provided, current law requires that the local government rezone sites within 3 years after the date the housing element is adopted or within one year if the local government fails to adopt a housing element that the department finds to be in substantial compliance with the Housing Element Law within 120 days of the statutory deadline to adopt the housing element. This bill, for the 7th and each subsequent revision of the housing element, would require a local government to complete the rezoning of sites within one year of the statutory deadline for the adoption of the housing element or the earlier of 3 years after the date the housing element is adopted or 90 days after receipt of comments from the department, as specified, if the local government satisfies certain requirements, including submitting a draft element or draft amendment to the department for review within specified timeframes and adopting a draft element or draft amendment that the department finds to be insubstantial compliance with the Housing Element Law, as specified.

Summary: The Small Business Procurement and Contract Act authorizes a state agency to award a contract for goods, services, or information technology with an estimated value of greater than \$5,000 but less than \$250,000 to a certified small business, including a microbusiness and a disabled veteran business enterprise, without complying with certain competitive bidding requirements, if the agency obtains price quotations from 2 or more of those businesses, as specified. Current law requires a state agency to consider a responsive offer timely received from a responsible certified small business, including a microbusiness, or from a disabled veteran business enterprise. This bill would expand the above-described authorization to permit a state agency to award a contract for goods, services, or information technology with an estimated value of greater than \$5,000 but less than \$250,000 to an LGBT business enterprise, a minority business enterprise, or a women business enterprise, as defined

Summary: Current law requires all law enforcement agencies to maintain a use of force policy, as specified, and requires the Commission on Peace Officer Standards and Training to implement courses of instruction for the training of law enforcement officers in the use of force. This bill would require the commission, on or before July 1, 2026, to develop guidelines, as specified, for the use of canines by law enforcement. The bill would authorize the commission to periodically update these guidelines. The bill would require law enforcement agencies with a canine unit, on or before July 1, 2027, to adopt a policy for the use of canines that, at a minimum, complies with the guidelines developed by the commission.

Summary: The California Constitution establishes the Public Utilities Commission (PUC), with jurisdiction over all public utilities, and provides for the composition and appointment of the PUC. Current law prohibits an executive of a public utility from serving as a commissioner on the PUC within 2 years after leaving the employment of the utility. This bill would prohibit a PUC commissioner from being employed by an entity subject to regulation by the PUC for a period of one year after the end of the commissioner's term of office. The bill would prohibit a PUC commissioner from accepting a gift from an entity subject to regulation by the PUC.

Status: 5/2/2024-Failed Deadline pursuant to Rule 61(b)(6). (Last location was JUD. on 2/12/2024)

Location: 5/2/2024-A. DEAD

Summary: Current law regulates the terms and conditions of residential tenancies. Current law requires the lessor of a building intended for human occupation to repair dilapidations, as specified, that render it untenable. Current law, with certain exceptions, does not impose this duty upon the landlord if the tenant is in substantial violation of specified affirmative obligations, or with regard to dilapidations relating to the presence of mold, as specified. This bill would prohibit a landlord from being liable for dilapidations rendering the premises untenable, unless the landlord receives written or oral notice of the dilapidations and the landlord is given a reasonable time to repair the dilapidations.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Current law prohibits a person, a state or local governmental agency, or a public utility from substantially diverting or obstructing the natural flow of, or substantially changing or using any material from the bed, channel, or bank of, any river, stream, or lake, or depositing or disposing of debris, waste, or other material containing crumbled, flaked, or ground pavement where it may pass into any river, stream, or lake, unless prescribed requirements are met, including written notification to the Department of Fish and Wildlife regarding the activity. Current law requires the department to determine whether the activity may substantially adversely affect an existing fish and wildlife resource and, if so, to provide a draft lake or streambed alteration agreement to the person, agency, or utility. Current law prescribes various requirements for lake and streambed alteration agreements. Current law also establishes various exemptions from these provisions, including, until January 1, 2029, an exemption for the diversion of floodflows for groundwater recharge, as provided. This bill would, until January 1, 2029, exempt from these provisions the temporary operation of existing infrastructure or temporary pumps being used to divert water to groundwater recharge as long as certain conditions are met, including the use of protective screens on temporary pump intakes, as provided, for diversions directly from rivers or streams.

Summary: Current law establishes the California Violence Intervention and Prevention Grant Program

administered by the Board of State and Community Corrections, to award competitive grants for the purpose of violence intervention and prevention. Current law establishes the Youth Reinvestment Grant Program within the Board of State and Community Corrections to grant funds, upon appropriation, to local jurisdictions and Indian tribes for the purpose of implementing trauma-informed diversion programs for minors, as specified. Current law requires the governing board of a school district to give diligent care to the health and physical development of pupils and authorizes the governing board of a school district to employ properly certified persons for the work. Existing law requires a school of a school district or county office of education and a charter school to notify pupils and parents or guardians of pupils no less than twice during the school year on how to initiate access to available pupil mental health services on campus or in the community, or both, as provided. Current law requires the State Department of Public Health, in cooperation with the State Department of Education, to establish a Public School Health Center Support Program, upon appropriation by the Legislature, to assist school health centers, which are defined as centers or programs, located at or near local educational agencies, that provide age-appropriate health care services at the program site or through referrals, as specified. This bill would create the Community Violence Interdiction Grant Program to be administered by the California Health and Human Services Agency to provide funding to local community programs for community-driven solutions to decrease violence in neighborhoods and schools. The bill would specify the types of programs the grant funds may be used for, including, but not limited to, programs that create and enhance recreation- and health-based interventions for youth during peak times of violence and the creation and operation of school-based health centers. The bill would require the agency to develop an application process and criteria for funding and would require the agency to administer the grant program, as specified.

Location: 7/2/2024-S. DEAD

Summary: The Sustainable Groundwater Management Act requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans, except as specified. Current law authorizes any local agency or combination of local agencies overlying a groundwater basin to decide to become a groundwater sustainability agency for that basin and imposes specified duties upon that agency or combination of agencies, as provided. Current law requires the State Water Resources Control Board to adopt a model water well, cathodic protection well, and monitoring well drilling and abandonment ordinance implementing certain standards for water well construction, maintenance, and abandonment and requires each county, city, or water agency, where appropriate, to adopt a water well, cathodic protection well, and monitoring well drilling and abandonment ordinance that meets or exceeds certain standards. Under current law, if a county, city, or water agency, where appropriate, fails to adopt an ordinance establishing water well, cathodic protection well, and monitoring well drilling and abandonment standards, the model ordinance adopted by the state board is required to take effect, and is required to be enforced by the county or city and have the same force and effect as if adopted as a county or city ordinance. This bill would require a local enforcement agency, as defined, to perform specified activities at least 30 days before determining whether to approve a permit for a new large-diameter, high-capacity well, as defined. By imposing additional requirements on a local enforcement agency, the bill would impose a state-mandated local program.

Summary: Current law grants the State Department of Health Care Services the sole authority in state government to license adult alcoholism or drug abuse recovery or treatment facilities. The department is authorized to issue a license to specified types of facilities if certain criteria are met. Current law requires licensees to report specified events and incidents to the department, including, among others, the death of a resident at a licensed facility. Current law authorizes the department to investigate allegations of violations of governing law and take action upon a finding of a violation, as specified. This bill would require an operator of a licensed alcoholism or drug abuse recovery or treatment facility or certified alcohol or other drug program to include on its internet website and intake form paperwork a disclosure that an individual may check the internet website of the State Department of Health Care Services to confirm whether the facility's license or program's certification has been placed in probationary status, been subject to a temporary suspension order, been revoked, or the operator has been given a notice of operation in violation of law.

Summary: The Warren-Alquist State Energy Resources Conservation and Development Act requires the State Energy Resources Conservation and Development Commission to adopt building design and construction standards and energy and water conservation standards for new residential and nonresidential buildings to reduce the wasteful, uneconomic, inefficient, or unnecessary consumption of energy, including energy associated with the use of water. The act requires those standards to be cost effective when taken in their entirety and when amortized over the economic life of the structure compared with historic practice. The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas emissions and to update the scoping plan at least once every 5 years. This bill would require the commission, on or before July 1, 2026, to evaluate opportunities to increase electrification of industrial heat processes to meet the state's industrial emissions reduction goals, as provided. The bill would, as part of the state board's next update to the scoping plan occurring on or after January 1, 2025, require the state board to assess the potential for the state to reduce the emissions of greenhouse gases from the state's industrial facilities' heat application equipment and processes, as specified.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA does not apply to the approval of ministerial projects. This bill would make a development that meets specified objective planning standards, including that, among other things, it is on a parcel that is within a zone where office, retail, health care, or parking are a principally permitted use, a permitted use and would require a local agency to review an application for that development on an administrative, nondiscretionary basis. The bill would require a local agency, within 60 calendar days of receiving an application pursuant to these provisions, to approve or deny the application subject to specified requirements, including that, among other things, if the local agency determines that the development is in conflict with any of the above-described standards, the local agency is required to provide the development proponent written documentation of which standard or standards the development conflicts with, as specified. The bill would provide that a development eligible for approval pursuant to this process is not a "project" for purposes of CEQA, thereby expanding the exemption for ministerial approval of projects under CEQA.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires the courts to give an action or proceeding alleging noncompliance with CEQA preference over all other civil actions. CEQA requires superior courts in counties with a population of more than 200,000 people to designate one or more judges to develop expertise in CEQA and certain related laws so that those judges will be available to hear and quickly resolve actions or proceedings alleging noncompliance with CEQA. This bill would require, in all actions or proceedings brought pursuant to the provisions of CEQA that a filing party include with the filing a disclosure of the identity and interests of the party, as provided. The bill would authorize a court to request more information as needed, including, but not limited to, financial statements and testimony, in the event a filing party that has previously brought a action or proceeding concerning a project makes a subsequent filing in an action or proceeding concerning the same project. Because the bill would impose additional duties on a lead agency that is a filing party to an action or proceeding, the bill would impose a state-mandated local program.

Summary: Would exempt from the California Environmental Quality Act (CEQA) a change in use approved by a lead agency that is a park district to allow public access to preexisting paved and natural surface roads, preexisting trails, preexisting pathways, and preexisting disturbed areas for vehicle parking, as specified, in areas used exclusively for nonmotorized recreation, if certain conditions are met. The bill would require the lead agency to post notice of, and hold, a public meeting to consider and solicit public input on the change in use under consideration before making a determination to approve or carry out the change in use, as specified. The bill would require the lead agency, if the lead agency determines that a change in use is not subject to CEQA pursuant to this provision and determines to approve or carry out the activity, to file a notice with the State Clearinghouse in the Office of Planning and Research and with the county clerk of the county in which the land is located, as provided. By imposing duties on public agencies related to the exemption, this bill would create a state-mandated local program. The bill would repeal these provisions on January 1, 2030.

Location: 5/16/2024-A. DEAD

Summary: Current law creates the Road Maintenance and Rehabilitation Program to address deferred maintenance on the state highway system and the local street and road system. Current law provides for the deposit of various moneys, including revenues from certain fuel taxes and vehicle fees, for the program into the Road Maintenance and Rehabilitation Account. Current law, after deducting certain appropriations and allocations, authorizes annual appropriations of \$5,000,000 of the moneys available for the program to the University of California to conduct transportation research and of \$2,000,000 of the available moneys to the California State University to conduct transportation research and transportation-related workforce education, training, and development, as specified. This bill would require the University of California and the California State University, on or before January 1 of each year, to each submit a report to the Transportation Agency and specified legislative committee detailing its expenditures of those moneys for the previous fiscal year, including, but not limited to, research activities and administration.

Summary: The Planning and Zoning law generally requires that an action or proceeding challenging a public agency's decision on a variance, conditional use permit, or any other permit, among other decisions, be commenced, and service made on the legislative body of the agency, within 90 days after the legislative body's decision. This bill, for purposes of determining the period of time before a variance, conditional use permit, or any other development permit or project approval issued by a city, county, or state agency expires, would exclude the period of time during which an action or proceeding involving the approval or conditional approval of the permit or project approval is or was pending, except as specified.

Location: 8/12/2024-A. ENROLLMENT

Summary: Current law requires a specified administrative hearing process in the enforcement and processing of parking violations and penalties, and requires the issuing agency to conduct an initial administrative review of the notice of parking violation at the request of the contestant to whom the notice was mailed. Current law provides that if the contestant is dissatisfied with the results of the initial review, the contestant may request by telephone, in writing, or in person, an administrative hearing by an examiner of the violation no later than 21 calendar days following the mailing of the results of the issuing agency's initial review. Current law requires that the person requesting the hearing have a choice of a hearing by mail or in person. This bill would require the person requesting the hearing to have a choice of a hearing by mail, in person, or, if offered by the issuing agency, by telephone or electronic means.

Status: 8/5/2024-In committee: Referred to APPR suspense file.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Current law requires the Labor Commissioner to issue a civil wage and penalty assessment to a contractor or subcontractor, or both, if, after an investigation, the commissioner determines there has been a violation of the laws regulating public works contracts, including the payment of prevailing wages. Current law requires the assessment to be served not later than 18 months after the filing of valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 18 months after acceptance of the public work, whichever occurs last. This bill would extend the above-described time period to 24 months and would authorize an extension of an additional 18 months for good cause, including ongoing investigation and assessment.

Location: 6/17/2024-S. APPR. SUSPENSE FILE

Summary: Current law establishes the Foster Youth Services Coordinating Program, under the administration of the Superintendent of Public Instruction. The program authorizes a county office of education, or a consortium of county offices of education, to apply to the Superintendent for grant funding to operate an education-based foster youth services coordinating program. If sufficient funds are available, current law requires each foster youth services coordinating program to identify at least one person as the foster youth educational services coordinator, who is responsible for facilitating educational support, as specified, to any pupil in foster care residing or attending school in the county or consortium of counties. As a condition of receiving funds, current law requires a foster youth services coordinating program to develop and implement a foster youth services plan that includes, among other things, authorization of a school district, when specified conditions apply, to enter into a temporary agreement with the foster youth services coordinating program to provide tutoring, mentoring, and counseling services to pupils, as provided. This bill instead would authorize a foster youth services coordinating program to provide tutoring, mentoring, and counseling services to a foster youth pupil, if a foster youth educational services coordinator determines, as specified, that the foster youth services coordinator is unable to secure those services provided by the foster youth pupil's school district and if those services are established as needed and identified by the foster youth educational services coordinator.

Location: 7/1/2024-S. APPR. SUSPENSE FILE

Summary: The Planning and Zoning Law requires a city or county to adopt a general plan for land use development within its boundaries that includes, among other things, a housing element. Current law requires the planning agency of a city or county to provide by April 1 of each year an annual report to, among other entities, the Department of Housing and Community Development. Current law requires that the annual report include, among other specified information, the progress in complying with specified laws. Current law requires a city or county to provide an option for an applicant to apply for and retrieve a postentitlement phase permit on the city's or county's internet website. The Permit Streamlining Act requires a city, county, or special district to maintain on its internet website, as applicable, a current schedule of fees, exactions, and affordability requirements imposed by the city, county, or special district, including any dependent special district, applicable to a proposed housing development project, all zoning ordinances and development standards, and annual fee reports or annual financial reports, as specified. Current law requires a city, county, or special district to provide on its internet website an archive of impact fee nexus studies, cost of service studies, or equivalent, as specified. This bill would require the planning agency to include in the annual report evidence of compliance with the above-described internet website requirements.

Location: 5/16/2024-A. DEAD

Summary: Current law requires a person's privilege to operate a motor vehicle to be suspended upon notification by a bank or financial institution that a check has been dishonored when that check was presented to the Department of Motor Vehicles for payment of specified fines or fees. Current law authorizes the department to cancel a driver's license certificate or endorsement under specified circumstances, including when the holder has failed to meet any requirements for issuance or retention of the certificate or endorsement. With respect to a driver's license, existing law defines "cancellation" as the termination of a driver's license certificate without prejudice and requires the holder to surrender the certificate. Prior to canceling the privilege for a dishonored check, this bill would require the department to provide a 30-day notice to a person that their privilege to operate a motor vehicle will be canceled because of the dishonored check. The bill would require the notice to include the date on which the privilege will be suspended if the fees are unpaid. The bill would authorize the person to pay any fees due within the 30-day period to avoid the cancellation or surrender the driver's license.

Summary: Current law requires the State Energy Resources Conservation and Development Commission and the State Air Resources Board to annually jointly review and report on progress toward establishing a hydrogen-fueling network that provides the coverage and capacity to fuel vehicles requiring hydrogen fuel that are being placed into operation in the state. Current law requires the commission and the state board to consider several things, including, but not limited to, the available plans of automobile manufacturers to deploy hydrogen-fueled vehicles in California and their progress toward achieving those plans in their report. This bill would require the commission and state board's joint review and report to also include information on the progress made on job creation and workforce development in support of hydrogen fueling, limited to the construction, operation, and

Status: 4/25/2024-Failed Deadline pursuant to Rule 61(b)(5). (Last location was JUD. on 2/20/2024)

Location: 4/25/2024-A. DEAD

Summary: The California Public Records Act requires public records to be open to inspection at all times during the office hours of the state or local agency that retains those records, and provides that every person has a right to inspect any public record, except as provided. Current law requires each agency, upon a request for records, to determine within 10 days whether that request, in whole or in part, seeks copies of disclosable public records in the agency's possession and to promptly notify the person making the request of its determination and reasons for that determination. Under current law the act generally does not require disclosure of personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy. Current law requires an agency, if it determines a request seeks disclosable public records, to state the estimated date and time when the records will be made available. Current law permits the prescribed time limits of the act to be extended in unusual circumstances. In this connection, "unusual circumstances" include, among other reasons, the need to search for and collect the requested records from field facilities or other establishments separate from the office processing the request. This bill would require each agency, upon receipt of a request for a copy of, or the inspection of, any personnel, medical, or similar records of a public agency employee or any record that would disclose a public agency employee's personal identity in connection with the performance of that employee's work duties, to promptly and prior to the release of the records, provide written notice of the request to that public agency employee.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Current law requires that, except as specified, not less than the general prevailing rate of per diem wages, determined by the Director of Industrial Relations, be paid to workers employed on public works projects. Current law requires the body awarding a contract for a public work to obtain from the director the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is to be performed, and the general prevailing rate of per diem wages for holiday and overtime work, for each craft, classification, or type of worker needed to execute the contract. Under current law, if the director determines during any quarterly period that there has been

a change in any prevailing rate of per diem wages in a locality, the director is required to make that change available to the awarding body and their determination is final. This bill would instead require the director, if the director determines during any semiannual period that there has been a change in any prevailing rate of per diem wages in a locality, to make that change available to the awarding body and that decision would have exceptions to its finality, including authorizing a contractor, awarding body, or representative to file a petition to review the director's determination.

Summary: Current law provides that there is in state government, in the Business, Consumer Services, and Housing Agency, the Civil Rights Department under the direction of an executive officer known as the Director of Civil Rights, who is appointed by the Governor. Among other responsibilities, the department is required to issue publications that in its judgment will tend to promote goodwill and minimize or eliminate discrimination in housing, as specified. This bill would, upon appropriation by the Legislature, establish the Office of Tenants' Rights and Protections in the Business, Consumer Services and Housing Agency, administered by a director appointed by the Governor, and would require that office to create and maintain an up-to-date, digestible, and language-inclusive list of statewide tenants' rights and protections.

2/26/2024)

Location: 4/25/2024-A. DEAD

Summary: Current law authorizes the Governor to certify certain projects, including energy infrastructure projects that meet specified requirements, for streamlining benefits related to the California Environmental Quality Act (CEQA), such as the requirement that judicial actions, including an potential appeals, challenging the certification of an EIR or the granting of approval by a lead agency for certified projects be resolved, to the extent feasible, within 270 days after the filing of the certified record of proceedings with the court. Current law excludes from the definition of "energy infrastructure project" for these purposes any project using hydrogen as a fuel. This bill would delete that exclusion, thereby authorizing the Governor to certify energy infrastructure projects that use hydrogen as a fuel for streamlining benefits related to CEQA, as described above. Because the bill would impose additional duties on lead agencies in conducting the environmental review of energy infrastructure projects using hydrogen as a fuel that are certified by the Governor, including the concurrent preparation of the record of proceedings, this bill would impose a state-mandated local program.

Status: 8/6/2024-Read second time. Ordered to third reading.

Location: 8/6/2024-S. THIRD READING

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. Current law, until January 1, 2025, exempts from CEQA residential or mixed-use housing projects, as defined, located in unincorporated areas of a county meeting certain requirements, except for residential or mixed-use housing projects if certain conditions exist, as specified. Current law requires a lead agency, if the lead agency determines that a residential or mixed-use housing project qualifies for this exemption from CEQA and determines to approve or carry out the project, to file a notice of exemption with the Office of Planning and Research and the county clerk in the county in which the project is located. This bill would extend the operation of that exemption until January 1, 2035. 2032.

This bill would require a place of short-term lodging, an internet website, application, or other similar centralized platform, or any other person to also disclose any additional fees or charges that will be added to the total price to be paid, or other penalty that will be imposed, if the consumer fails to perform certain cleaning tasks at the end of the stay, and to explicitly describe the cleaning tasks in a written or electronic notice that is affirmatively acknowledged by the consumer before the consumer reserves the stay. Summary: This bill would require an electric utility, defined as an electrical corporation or a local publicly owned electric utility, to adopt, publish, and make easily accessible to the public rules, requirements, and standards applicable to its applications for approval of an electric power design related to the construction and operation of a broadband project, as defined. The bill would require an electric utility to approve or deny a complete application within 60 or 90 days, and, if the application is incomplete, would require the electric utility to provide written notice to the applicant that the application is incomplete and would establish a timeline and process by which the application could be made complete, as specified. If an application is approved, the bill would require the electric utility, within 30 days, to provide the applicant with a cost estimate, if applicable, for any necessary work required to accommodate the electric power design described in the application. If the applicant accepts the cost estimate within 30 days, the bill would require the electric utility to complete energization to the broadband project location within a commission-determined time period, as specified. The bill would prohibit an application from being subject to any rule, requirement, or standard that has not been published and made easily accessible to the public before the date of the application's submittal to an electric utility for review.

Summary: The Cartwright Act makes every trust unlawful, against public policy, and void, subject to specified exemptions. A "trust" is defined for these purposes as a combination of capital, skill, or acts by 2 or more persons for certain designated purposes. A violation of the act is punishable as a crime. This bill would expand the definition of "trust" under the act to specifically include the capital, skill, or acts of all affiliated persons, as defined. For purposes of the act, the bill would define an "affiliated person" to include, among others, a natural person related within the 3rd degree of consanguinity or affinity to any other person, together with other specified persons with certain ownership interests. The bill would expand the purposes for a trust under the act to include creating or carrying out restrictions in residential housing, preventing or limiting competition in development or redevelopment construction, leasing, rental, or purchase of residential housing, among other specified acts.

Status: 6/18/2024-Read second time. Ordered to third reading.

Location: 6/18/2024-S. THIRD READING

Summary: Current law defines an electric bicycle and classifies electric bicycles into 3 classes with different restrictions. Under existing law, a "class 1 electric bicycle" is a bicycle equipped with a motor that provides assistance only when the rider is pedaling and ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour. Under current law, a "class 2 electric bicycle" is a bicycle equipped with a motor that may be used exclusively to propel the bicycle and is not capable of providing assistance when the bicycle reaches the speed of 20 miles per hour. Under current law, a "class 3 electric bicycle" is a bicycle equipped with a speedometer and a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 28 miles per hour. Current law prohibits a person under 16 years of age from operating a class 3 electric bicycle. This bill, the San Diego Electric Bicycle Safety Pilot Program, would, until January 1, 2029, authorize a local authority within the County of San Diego, or the County of San Diego in unincorporated areas, to adopt an ordinance or resolution that would prohibit a person under 12 years of age from operating a class 1 or 2 electric bicycle. For the first 60 days following the adoption of an ordinance or resolution for this purpose, the bill would make a violation of the ordinance or resolution punishable by a warning notice. After 60 days, the bill would make a violation of the ordinance or resolution punishable by a fine of \$25, except as specified. This bill would make a parent or legal guardian with control or custody of an emancipated minor who violates the ordinance or resolution jointly and severally liable with the minor for the amount of the fine imposed.

Summary: Current law generally requires public contracts to be awarded by competitive bidding pursuant to procedures set forth in the Public Contract Code, subject to various exceptions. Current law authorizes certain local government agencies to use alternative contracting methods, including best value procurement and progressive design-build contracting for particular types of public projects including, among others, certain construction projects and regional communications and related infrastructure projects. Current law establishes requirements that apply when a public entity is required by statute or regulation to obtain an enforceable commitment that a bidder, contractor, or other entity will use a skilled and trained workforce to complete a contract or project, and imposes various duties on the Labor Commissioner with respect to those requirements. This bill would authorize the City of Long Beach to procure contracts relating to the terminal development project at the Port of Long Beach, known as Pier Wind, and to enter into an alternative project delivery method contract for that purpose, as provided.

Status: 8/12/2024-In committee: Referred to APPR suspense file.

Location: 8/12/2024-S. APPR. SUSPENSE FILE

Summary: The Farm Labor Center Law authorizes a housing authority to acquire, own, operate, construct, reconstruct, repair, replace, maintain, and dispose of a farm labor center, as defined, due to the need to assemble, domicile, and house persons and families engaged in agricultural work. Current law also authorizes a housing authority to arrange and contract for the furnishing of services, privileges, works, or facilities for or in connection with its farm labor center, as specified. Current law prohibits a housing authority that operates a farm labor center from limiting an agricultural worker's housing unit occupancy period to less than 270 days if the Director of Agriculture certifies that there are seasonal crops that would keep those workers in the immediate area for that period of time.

Current law requires the Department of Housing and Community Development, through its Office of Migrant Services, to assist in the development, construction, reconstruction, rehabilitation, or operation of migrant farm labor centers, as provided. Current law authorizes the Director of Housing and Community Development to contract with specified local public and private entities, including school districts and housing authorities, for the procurement or construction of housing or shelter and to obtain specified services, including education, for migratory agricultural workers. Current law authorizes a migrant farm labor center subject to these contracts to be operated for an extended period prior to or beyond the standard 180-day period, but not to exceed 275 days in any calendar year, if certain conditions are satisfied. This bill instead would require all housing units at farm labor centers operated by a housing authority to be made available year round for occupancy by migratory agricultural workers by January 1, 2031, and would require migrant farm labor centers subject to the above-described contracts with the department to be operated year round by January 1, 2031. In this regard, the bill would require the department to develop and implement a 6-year transition plan based on reports that the bill would require migrant farm labor centers to send to the department by July 1, 2025.

Location: 8/12/2024-S. APPR. SUSPENSE FILE

Summary: The Affordable Housing and High Road Jobs Act of 2022, until January 1, 2033, authorizes a development proponent to submit an application for an affordable housing development or a mixed-income housing development that meets specified objective standards and affordability and site criteria, including being located within a zone where office, retail, or parking are a principally permitted use. The act makes a development that meets those objective standards and affordability and site criteria a use by right and subject to one of 2 streamlined, ministerial review processes depending on, among other things, the affordability requirements applicable to the project. This bill would make various changes to the objective standards and affordability and site criteria applicable to an affordable housing development or mixed-income housing development subject to the streamlined, ministerial review process under the act.

Summary: The Mobilehome Parks Act, establishes requirements for the construction, maintenance, occupancy, use, and design of mobilehome parks. Current law requires the Department of Housing and Community Development to enforce the act, unless a city, county, or city and county has assumed responsibility for enforcement. A violation of these provisions is a misdemeanor. Current law requires an enforcement agency to enter and inspect mobilehome parks to ensure enforcement of the act, as specified. Current law requires an enforcement agency in developing its mobilehome park maintenance inspection program to inspect the mobilehome parks that the enforcement agency determines have complaints that have been made to the enforcement agency regarding serious health and safety violations in the park. Current law requires enforcement agencies, not less than 30 days before an inspection, to provide individual written notice of the inspection to the registered owners of the manufactured homes or mobilehomes, the occupants thereof, and the owner or operator of the mobilehome park, as specified. Existing law repeals these provisions on January 1, 2025. This bill would extend that repeal date to January 1, 2030.

Summary: Current law requires health care service plans and health insurers to include coverage for screening for various conditions and circumstances, including adverse childhood experiences. Current law provides for the Medi-Cal program, administered by the State Department of Health Care Services and under which qualified low-income individuals receive health care services. The Medi-Cal program is in part, governed and funded by federal Medicaid program provisions. This bill would require a health care service plan contract or health insurance policy issued, amended, or renewed on or after January

1, 2027, to include coverage for screenings for social determinants of health, as defined. The bill would require providers to use specified tools or protocols when documenting patient responses to questions asked in these screenings. The bill would require a health care service plan or health insurer to provide physicians who provide primary care services with adequate access to peer support specialists, lay health workers, social workers, or community health workers in counties where the plan or insurer has enrollees or insureds, as specified. The bill would authorize the respective departments to adopt guidance to implement its provisions until regulations are adopted, and would require the department to coordinate in the development of guidance and regulations.

Location: 5/16/2024-A. DEAD

Summary: Current law requires every electric utility, defined to include electrical corporations, local publicly owned electric utilities, and electrical cooperatives, to develop a standard contract or tariff for net energy metering, as defined, for generation by a renewable electrical generation facility, as defined, and to make this contract or tariff available to eligible customer-generators, as defined, upon request on a first-come-first-served basis until the time that the total rated generating capacity used by eligible customer-generators exceeds 5% of the electric utility's aggregate customer peak demand. Current law requires the Public Utilities Commission to have developed a 2nd standard contract or tariff for each large electrical corporation, as defined, to provide net energy metering to additional eligible customer-generators in the electrical corporation's service territory and imposes no limitation on the number of new eligible customer-generators entitled to receive service pursuant to this 2nd standard contract or tariff. Current law authorizes the commission to revise the 2nd standard contract or tariff as appropriate. Pursuant to that authorization, the commission has instituted rulemakings and issued decisions relating to the 2nd standard contract or tariff. This bill would require the commission to conduct an independent cost-of-service analysis evaluating the standard contract or tariff developed by the commission in a specified decision.

Location: 8/5/2024-S. THIRD READING

Summary: The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency, including notice, hearing, and protest procedures, depending on the character of the assessment, fee, or charge. Current law, known as the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with these requirements. This bill would prohibit, if a local agency complies with specified procedures, a person or entity from bringing a judicial action or proceeding alleging noncompliance with the constitutional provisions for any new, increased, or extended fee or assessment, as defined, unless that person or entity has timely submitted to the local agency a written objection to that fee or assessment that specifies the grounds for alleging noncompliance, as specified. This bill would provide that local agency responses to the timely submitted written objections shall go to the weight of the evidence supporting the agency's compliance with the substantive limitations on fees and assessments imposed by the constitutional provisions. The bill would also prohibit an independent cause of action as to the adequacy of the local agency's responses.

Summary: Current law creates within the Governor’s Office of Business and Economic Development the Office of Small Business Advocate, which is led by the Small Business Advocate, to advocate the causes of small business and to provide small businesses with the information they need to survive in the marketplace. Current law requires the advocate to, among other duties, collaborate with the Office of Small Business and Disabled Veteran Business Enterprise Services in their activities under the Small Business Procurement and Contract Act, including promoting small business certification. This bill would also require the advocate to collaborate with local agencies on the development and implementation of local strategies to increase small business participation in local procurement opportunities, as specified. In this connection, the bill would authorize a local agency, as defined, to establish a Small Business Utilization Program (SBUP) to increase small businesses’ participation in local agency procurement opportunities. The bill would require an SBUP, to facilitate the participation of small businesses in the provision of goods, information technology, and services to the local agency, to establish a small business certification process. As part of this process, the bill would require the SBUP to the extent feasible, to include all of specified criteria, including, among other things, a minimum goal of 25% procurement participation for small businesses certification.

Status: 6/27/2024-Read second time and amended. Ordered to third reading.

Location: 6/27/2024-S. THIRD READING

Summary: The California Public Employees' Pension Reform Act of 2013 (PEPRA) generally requires a public retirement system, as defined, to modify its plan or plans to comply with the act. PEPRA, among other things, establishes new defined benefit formulas and caps on pensionable compensation. The County Employees Retirement Law of 1937 (CERL) authorizes counties to establish retirement system pursuant to its provisions in order to provide pension benefits to their employees. CERL generally vests management of each retirement system in a board of retirement. CERL defines "compensation earnable" by a member, for the purpose of calculating benefits, to mean the average compensation, as determined by the board, for the period under consideration upon the basis of the average number of days ordinarily worked by persons in the same grade or class of positions during the period, and the same rate of pay, subject to certain exceptions. This bill would authorize a retirement system, to the extent it has not defined "grade" in the above-described circumstances, to define "grade" to mean a number of employees considered together because they share similarities in job duties, schedules, unit recruitment requirements, work location, collective bargaining unit, or other logical work-related group or class, as specified.

Location: 6/24/2024-S. APPR. SUSPENSE FILE

Summary: By Executive Order No. N-82-20, Governor Gavin Newsom directed the Natural Resources Agency to combat the biodiversity and climate crises by, among other things, establishing the California Biodiversity Collaborative and conserving at least 30% of the state's lands and coastal waters by 2030. Current law requires the Secretary of the Natural Resources Agency to prepare and submit, on or before March 31, 2024, and annually thereafter, a report to the Legislature on the progress made in the prior calendar year toward achieving the goal to conserve 30% of California's lands and coastal waters by 2030. Current law provides that it is the goal of the state to conserve at least 30% of California's lands and coastal waters by 2030, known as the 30x30 goal. This bill would provide that, to advance and promote environmental, conservation, and public access policies and budget actions, the Governor's office, state agencies, and the Legislature, when distributing resources, shall aspire to recognize the coequal goals and benefits of the 30x30 goal and Outdoors for All, and, to the extent practical, maximize investment in historically underserved urban communities consistent with those

initiatives. The bill would encourage decisionmakers, when distributing resources to achieve the goals and benefits of the 30x30 goal and Outdoors for All, to consider factors that are unique to urban settings, including, among other things, higher land value acquisition and development costs per acre, the acute health needs of a local population due to historic lack of greenspace access and development externalities, local park needs assessment plans, current or impending loss of parks or greenspace as a result of state or federal infrastructure projects, and the availability of mobility options near a proposed land conservation site.

Summary: Current law authorizes the Department of Motor Vehicles to issue a distinguishing placard to a qualified disabled veteran or person with a disability, upon application, to be displayed upon a parked vehicle for the purpose of identifying eligibility for certain parking privileges. Current law also authorizes the department to issue a special license plate to a disabled veteran or person with a disability, upon application. Current law authorizes the department to issue a temporary distinguishing placard bearing a specified symbol to a disabled veteran or person with a disability, as specified. Prior to issuing a placard or license plate, current law requires the submission of a certificate signed by a physician and surgeon, nurse practitioner, certified nurse-midwife, or physician assistant, substantiating the disability, as specified, unless the applicant's disability is readily observable and uncontested. Prior to issuing a temporary distinguishing placard, current law requires the submission of a certificate substantiating the temporary disability and stating the date upon which the disability is expected to terminate. For the disability of a person who has lost, or has lost use of, one or more lower extremities or one hand, for a disabled veteran, or both hands, for a person with a disability, or who has significant limitation in the use of lower extremities, existing law additionally authorizes a licensed chiropractor to certify these disabilities. This bill, beginning on January 1, 2026, would additionally authorize a licensed physical therapist to certify the loss, or loss of use, of the lower extremities or hands, as described above.

Summary: The Ralph M. Brown Act generally requires for teleconferencing that the legislative body of local agency that elects to use teleconferencing post agendas at all teleconference locations, identify each teleconference location in the notice and agenda of the meeting or proceeding, and have each teleconference location be accessible to the public. Current law also requires that, during the teleconference, at least a quorum of the members of the legislative body participate from locations within the boundaries of the territory over which the local agency exercises jurisdiction. The act provides an exemption to the jurisdictional requirement for health authorities, as defined. Current law, until January 1, 2026, authorizes the legislative body of a local agency to use alternative teleconferencing in specified circumstances if, during the teleconference meeting, at least a quorum of the members of the legislative body participates in person from a singular physical location clearly identified on the agenda that is open to the public and situated within the boundaries of the territory over which the local agency exercises jurisdiction, and the legislative body complies with prescribed requirements. Current law imposes prescribed restrictions on remote participation by a member under these alternative teleconferencing provisions, including establishing limits on the number of meetings a member may participate in solely by teleconference from a remote location, prohibiting such participation for a period of more than 3 consecutive months or 20% of the regular meetings for the local agency within a calendar year, or more than 2 meetings if the legislative body regularly meets fewer than 10 times per calendar year. This bill would revise those limits, instead prohibiting such participation for more than a specified number of meetings per year, based on how frequently the legislative body regularly meets.

Summary: The California Global Warming Solutions Act of 2006 authorizes the State Air Resources Board to include the use of market-based compliance mechanisms. Current law requires all moneys, except for fines and penalties, collected by the state board as a part of the market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund. Current law requires the Department of Resources Recycling and Recovery, upon appropriation, to administer a grant program to provide financial assistance to promote the in-state development of infrastructure, food waste prevention, or other projects to reduce organic waste, sort and aggregate or process organic and other recyclable materials into new, value-added products, or divert items from disposal through enhanced reuse opportunities. Current law requires the grant program to provide eligible financial assistance for certain activities, including activities that expand and improve organic waste diversion and recycling, including, but not limited to, the recovery of food for human consumption and food waste prevention. Current law specifies eligible infrastructure projects for purposes of the program, including but not limited to, the construction of facilities to help develop, implement, or expand edible food waste recovery operations. This bill would expand the grant program to provide financial assistance for the recovery of edible food, as specified. The bill would specify that eligible infrastructure projects includes the construction or expansion of facilities to help develop, implement, or expand edible food waste recovery operations.

Location: 4/25/2024-A. DEAD

Summary: The Planning and Zoning Law authorizes a development proponent to submit an application for a multifamily housing development that is subject to a streamlined, ministerial approval process, as provided, and not subject to a conditional use permit, if the development satisfies specific objective planning standards, including, among others, that the development proponent has committed to record, prior to the issuance of the first building permit, a land use restriction or covenant providing that any lower or moderate-income housing units required remain available at affordable housing costs or rent to persons and families of lower or moderate income, as specified. This bill would deem a tribal housing development that is located on a site owned in fee simple by the tribe an allowable use if it satisfies specified requirements, including that it is located on an infill lot and it is not located on an environmentally sensitive site, as specified. The bill would define "allowable use" for purposes of these provisions to mean that the development project is a permitted use regardless of zoning designation, as specified.

Summary: Current law requires the Natural Resources Agency, in implementing actions to achieve the goal to conserve at least 30% of the state's lands and coastal waters by 2030 established by executive order, to prioritize specified actions. Current law requires the Secretary of the Natural Resources Agency to prepare and submit an annual report to the Legislature on the progress made during the prior calendar year toward achieving that goal, as provided. Current law requires that annual report to include certain information, including, among other information, the progress made in the prior calendar year to address equity as part of the above-described goal. This bill, the Wildlife Connectivity and Climate Adaptation Act of 2024, would additionally require the agency, as part of that report, to include an update on the state's progress towards addressing the priority wildlife corridors, as defined, identified in the Restoring California's Wildlife Connectivity report by the Department of Fish and Wildlife, and goals for wildlife corridor protection in the next five years.

Summary: Would require the Public Utilities Commission (PUC) and State Energy Resources Conservation and Development Commission (Energy Commission) to jointly authorize the establishment of the California Affordable Decarbonization Authority as a nonprofit public benefit corporation and to take all necessary measures to create the authority. The bill would require the authority to be governed by an independent board of directors appointed by the Governor, Speaker of the Assembly, and Senate Committee on Rules, as specified. The bill would require the authority to maintain open meeting standards and meeting notice requirements consistent with the requirements of the Bagley-Keene Open Meeting Act and the California Public Records Act. The bill would establish the Climate Equity Trust Fund as a trust fund, separate and apart from all public moneys or funds of the state, and would, upon appropriation by the Legislature, require that the moneys in the trust fund be expended by the authority for the benefit of electricity customers and to promote affordable electricity rates, as specified. The bill would authorize disbursements from the trust fund to be made through direct credits on ratepayer bills, direct rebates or incentives to market participants, technology vendors, technology installers, and end-use customers, and reimbursement of eligible costs, including costs for building electrification programs and incentives, incurred by an electrical corporation, electric service provider, community choice aggregator, or local publicly owned electric utility in the form of matching funds. The bill would require the authority to submit annual and multiyear spending plans for review and approval to the PUC and the Energy Commission before disbursing trust fund moneys.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: The California Endangered Species Act prohibits the taking of an endangered, threatened, or candidate species, except as specified. Under the act, the Department of Fish and Wildlife (department) may authorize the take of listed species by certain entities through permits or memorandums of understanding for specified purposes. Current law requires the State Fire Marshal to identify areas in the state as moderate, high, and very high fire hazard severity zones based on consistent statewide criteria and based on the severity of fire hazard that is expected to prevail in those areas. Current law requires a local agency to designate, by ordinance, moderate, high, and very high fire hazard severity zones in its jurisdiction within 120 days of receiving recommendations from the State Fire Marshal, as provided. This bill would authorize a city, county, city and county, special district, or other local agency to submit to the department a wildfire preparedness plan to conduct wildfire preparedness activities on land designated as a fire hazard severity zone, as defined, that minimizes impacts to wildlife and habitat for candidate, threatened, and endangered species. The bill would require the wildfire preparedness plan to include, among other things, a brief description of the planned wildfire preparedness activities, the approximate dates for the activities, and a description of the candidate, endangered, and threatened species within the plan area. The bill would require the department, if sufficient information is included in the wildfire preparedness plan for the department to determine if an incidental take permit is required, to notify the local agency within 90 days of receipt of the wildfire preparedness plan if an incidental take permit or other permit is needed, or if there are other considerations, exemptions, or streamlined pathways that the wildfire preparedness activities qualify for, including, but not limited to, the State Board of Forestry and Fire Protection's California Vegetation Treatment Program.

Summary: Current law imposes various limitations on emissions of air contaminants for the control of air pollution from vehicular and nonvehicular sources. Current law requires a business entity that is marketing or selling voluntary carbon offsets, as defined, within the state to disclose on the business entity's internet website specified information about the applicable carbon offset project. Current law also requires an entity that makes claims regarding the achievement of net zero emissions, claims regarding carbon neutrality, or other claims implying the entity, related or affiliated entity, or a product does not add net carbon dioxide or greenhouse gases to the climate or has made significant reductions to its carbon dioxide or greenhouse gas emissions, as described, to disclose on the entity's internet website specified information pertaining to all greenhouse gas emissions associated with its claims. Current law requires these disclosures to be updated no less than annually. Current law makes a person who violates these provisions subject to a civil penalty of not more than \$2,500 per day, as specified, for each violation, not to exceed a total amount of \$500,000, as provided. This bill would exclude from the definition of "voluntary carbon offset" a renewable energy certificate (REC) issued through an accounting system of a governmental regulatory body or virtual power purchase agreement of which the REC corresponds to one unit of electricity that was generated and delivered

by an eligible renewable energy resource, or a low-carbon fuel standard credit. The bill would expand, revise, and clarify the information that a business entity is required to disclose.

Summary: Current law requires the State Air Resources Board to complete, approve, and implement a comprehensive strategy to reduce emissions of short-lived climate pollutants in the state to reduce the statewide methane emissions by 40% below 2013 levels by 2030. Current law requires the Department of Resources Recycling and Recovery, in consultation with the state board, to adopt regulations that achieve specified targets for reducing organic waste in landfills, as provided. The department's organic waste regulations require local jurisdictions to annually procure a quantity of recovered organic waste products and to comply with their procurement targets by directly procuring recovered organic waste products for use or giveaway or by requiring, through a written agreement, that a direct service provider to the jurisdiction procure recovered organic waste products, or both. Those regulations specify the types of recovered organic waste products that a jurisdiction may procure, including compost that is produced at a compostable material handling operation or facility, or a specified digestion facility that composts onsite. Other regulations of the department require all compostable materials handling activities to obtain a facility permit from the department prior to commencing operations and meet other specified requirements, but exclude from those requirements certain activities that the regulations state do not constitute a compostable material handling operation or facility, including the composting of green material, agricultural material, food material, and vegetative food material, and the handling of compostable materials under certain conditions, as provided. This bill would authorize local jurisdictions to be credited for the procurement of recovered organic waste products through an agreement with a direct service provider, as defined, and would allow the direct service provider agreement to include the procurement of recovered organic waste products on a prospective basis as long as the purchase of those products occurs during the year for which the local jurisdiction seeks credit, and under other specified circumstances.

Status: 8/5/2024-In committee: Referred to APPR suspense file.

Summary: Except as provided, the California Constitution requires that all property be taxed in proportion to its full value and assessed at the same percentage of fair market value. The tax imposed pursuant to these provisions is commonly referred to as an ad valorem property tax. Current property tax law, in accordance with the California Constitution, provides for a "welfare exemption" for property used exclusively for religious, hospital, scientific, or charitable purposes and that is owned or operated by certain types of nonprofit entities, if certain qualifying criteria are met. Under current property tax law, property that meets these requirements that is used exclusively for rental housing and related facilities is entitled to a partial exemption, equal to that percentage of the value of the property that is equal to the percentage that the number of units serving lower income households represents of the total number of residential units, in any year that any of certain criteria apply. Current law imposes various penalties and costs for delinquent payment of real property taxes. Current law, however, requires the cancellation of any delinquent penalty, cost, redemption penalty, interest, or redemption fee upon satisfactory proof, as described, that the penalty, cost, interest, or fee attached due to an error of the tax collector, the auditor, or the assessor or due to their inability to complete valid procedures initiated prior to the delinquency date, as specified. This bill would provide that a property owner is not liable for interest or penalties, and would prohibit the tax collector from taking or continuing any collection action, with respect to ad valorem property taxes levied upon a property if the property owner has submitted to the county assessor an application for an exemption pursuant to the above-described partial welfare exemption, except as provided, the property owner supplies evidence the property received a specified reservation of tax credits or award of funds, and facilities are in the course of construction, as defined. The bill would require an assessor to provide specified notice to a taxpayer if the assessor deems an application ineligible for exemption.

Summary: The Lanterman Developmental Disabilities Services Act requires the State Department of Developmental Services to contract with regional centers to provide services and supports to individuals with developmental disabilities and their families. In order to provide opportunities for children to live with their families, current law requires the department and regional centers to give a very high priority to the development and expansion of services and supports designed to assist families that are caring for their children at home, including respite for parents, homemaker services, counseling, and mental health services. This bill would require the department to establish a Family Wellness Pilot Program under which regional centers shall provide counseling and peer support group

services to families of regional center consumers who are 3 years of age or younger.

Summary: The Planning and Zoning Law requires the legislative body of each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city that includes, among other specified mandatory elements, a housing element. That law, for the 4th and subsequent revisions of the housing element, requires the Department of Housing and Community Development to determine the existing and projected need for housing for each region. That law further requires the appropriate council of governments, or, for cities and counties without a council of governments, the department, to adopt a final regional housing plan that allocates a share of the regional housing need to each city, county, or city and county in accordance with certain requirements. This bill would establish a pilot program for the Counties of Orange and San Diego, and the cities therein. The bill would authorize a city or county within the pilot program, by agreement, to transfer all or a portion of its allocation of regional housing need to another city or county within the pilot program.

Summary: The Brady-Jared Teen Driver Safety Act of 1997 establishes a provisional licensing program and generally requires that a driver's license issued to a person at least 16 years of age, but under 18 years of age be issued pursuant to that provisional licensing program. Current law requires a person to hold an instruction permit for not less than 6 months prior to applying for a provisional license. During the first 12 months after issuance of a provisional license, existing law prohibits the licensee from driving between the hours of 11 p.m. and 5 a.m. and transporting passengers who are under 20 years of age, as specified. Current law provides limited exceptions to these restrictions under which a licensee is authorized to drive under specified circumstances. A violation of these provisions is punishable as an infraction. This bill would, commencing January 1, 2027, expand the scope of the provisional licensing program by expanding the applicable age range for the program to persons at least 16 years of age, but under 21 years of age. The restrictions on provisional licensees described above would apply during the first 6 months after issuance of a provisional license to a licensee who is 18, 19, or 20 years of age, subject to specified exemptions.

Summary: The Mobilehome Parks Act (act) generally regulates various classifications of mobilehome and related vehicle parks, and imposes enforcement duties on the Department of Housing and Community Development and local enforcement agencies. The act authorizes any person to file an application with the governing body of a city or county for a conditional use permit for a mobilehome park. The act requires a person, before operating a mobilehome park, and each year thereafter, to obtain a valid permit from the enforcement agency in order to operate the park. The act also requires the owner of a mobilehome park to obtain a permit to create, move, shift, or alter park lot lines. This bill would, subject to specified exceptions, authorize an owner of an existing mobilehome park that is subject to, or intends to qualify for, a valid permit to operate the park, to apply to the enforcement agency to add additional specified lots to the mobilehome park not to exceed 10% of the previously approved number of lots in the mobilehome park, if the owner has not had their permit to operate suspended. The bill would require the owner to apply to the enforcement agency for, and obtain from the enforcement agency, all required permits pursuant to the act before adding additional lots. The bill would exempt the additional lots from any business tax, local registration fee, use permit fee, or other fee, except those fees that apply to the existing lots in the park, and would prohibit the owner from reducing the size of, or interfering with, certain existing facilities without first complying with specified requirements for creating, moving, shifting, or altering lot lines.

other consumption in this state. The California Alternative Energy and Advanced Transportation Financing Authority Act establishes the California Alternative Energy and Advanced Transportation Financing Authority. The act authorizes, until January 1, 2026, the authority to provide financial assistance to a participating party in the form of specified sales and use tax exclusions for projects, including those that promote California-based manufacturing, California-based jobs, advanced manufacturing, reduction of greenhouse gases, or reduction in air and water pollution or energy consumption. The act prohibits the sales and use tax exclusions from exceeding \$100,000,000 for each calendar year, except as provided. The Sales and Use Tax Law, for the purposes of the taxes imposed pursuant to that law, until January 1, 2026, excludes the lease or transfer of title of tangible personal property constituting a project to any contractor for use in the performance of a construction contract for a participating party that will use that property as an integral part of the approved project. This bill would extend the authorization to provide financial assistance in the form of a sales and use tax exclusion for qualifying projects to January 1, 2031, and would extend the sales and use tax exclusion to January 1, 2031. The bill would make other conforming changes.

Status: 8/12/2024-In committee: Referred to APPR suspense file.

Location: 8/12/2024-S. APPR. SUSPENSE FILE

Summary: Current law establishes the Clean Cars 4 All Program, which is administered by the State Air Resources Board, to focus on achieving reductions in the emissions of greenhouse gases, improvements in air quality, and benefits to low-income state residents through the replacement of high-polluter motor vehicles with cleaner and more efficient motor vehicles or a mobility option. Current law requires the implementing regulations to ensure that the program complies with certain requirements. This bill would require the implementing regulations for the Clean Cars 4 All Program to additionally ensure that, among other things, incentives provided under the program are available in all areas of the state and that, in those areas where a local air district has not elected to participate in the program, to manage the distribution of incentives within its jurisdiction, the state board manages the distribution of incentives to eligible residents of those areas. The bill would make certain conforming changes in that regard.

Summary: Current law establishes the Student Equity and Achievement Program and requires a community college district, as a condition of the receipt of funds under the program, to comply with specified requirements, including the maintenance of a student equity plan to ensure equal educational opportunities and promote student success for all students, regardless of race, gender, age, disability, or economic circumstances. Current law requires a student equity plan to be developed with the active involvement of all groups on campus as required by law, including, but not limited to, the academic senate, academic faculty and staff, student services, and students, and with the involvement of appropriate people from the community. This bill would require a student equity plan to also include a description of the active involvement of all groups on campus in developing the student equity plan for each community college in the community college district.

Location: 5/16/2024-A. DEAD

Summary: The Meyers-Milias-Brown Act and the Ralph C. Dills Act regulate the labor relations of employees and employers of local public agencies and the state, respectively. The acts grant specified employees of local public agencies and the state the right to form, join, and participate in the activities of employee organizations of their choosing. This bill would provide, except as specified, that it is not unlawful or a cause for discipline or other adverse action against a public employee for that public employee to refuse to enter property that is the site of a primary strike, perform work for a public employer involved in a primary strike, or go through or work behind a primary strike line. The bill would prohibit a public employer from directing a public employee to take those actions. The bill would authorize a recognized employee organization to inform employees of these rights and encourage them to exercise those rights.

Summary: Current law generally regulates classes of insurance, including property and fire insurance. Current Department of Insurance regulations prohibit an insurer from using a rating plan that does not take into account and reflect specified wildfire risk mitigation, including property-level building hardening measures. This bill would require the department, on or before January 1, 2030, and every 5 years thereafter, to consider whether or not to update its regulations to include additional building hardening measures for property-level mitigation efforts and communitywide wildfire mitigation programs. As part of this consideration, the bill would require the department to consult with specified agencies to identify additional building hardening measures to consider, as well as to develop and implement a public participation process during the evaluation.

Summary: Current law that governs the labor relations of public employees and employers, including the Meyers-Milias-Brown Act, the Ralph C. Dills Act, and provisions relating to judicial employees, public schools, higher education, the San Francisco Bay Area Rapid Transit District, the Santa Cruz Metropolitan Transit District, the Sacramento Regional Transit District, and other public transit employees, prohibits employers from taking certain actions relating to employee organizations. This includes imposing or threatening to impose reprisals on employees, discriminating or threatening to discriminate against employees, or otherwise interfering with, restraining, or coercing employees because of their exercise of their guaranteed rights. Those provisions further prohibit denying to employee organizations the rights guaranteed to them by existing law. This bill would also prohibit a local public agency employer, a state employer, a judicial employer, a public school employer, a higher education employer, or the district from questioning any employee or employee representative regarding communications made in confidence between an employee and an employee representative in connection with representation relating to any matter within the scope of the recognized employee organization's representation.

Summary: The California Safe Drinking Water Act provides for the operation of public water systems and imposes on the State Water Resources Control Board various duties and responsibilities for the regulation and control of drinking water in the State of California. The act requires the state board to adopt primary drinking water standards for contaminants in drinking water based upon specified criteria. Current law makes certain violations of the act a crime. This bill would require an owner of a domestic well that serves a rental property who is provided written notice of a free domestic well testing program, as defined, to participate in the program and its related requirements, as specified. The bill would require an owner of the rental property to provide testing results to all current residents of the rental property, as specified. The bill would require, if the testing demonstrates a violation of any primary drinking water standards, the domestic well owner to ensure that, within 14 days of receiving test results, tenants of rental properties served solely by that domestic well have access to an adequate supply of safe drinking water. The bill would prohibit an owner of a domestic well from imposing any charge, or increasing any fee, rent, or other charge imposed, on any tenant solely as a result of the requirements of these provisions.

Summary: Current law authorizes a city, county, or city and county auditor or controller to maintain a whistleblower hotline to receive calls from persons who have information regarding fraud, waste, or abuse by local government employees, as specified. Current law authorizes the county auditor to refer calls received on the whistleblower hotline to the appropriate government authority for review and possible investigation. During the initial review of a call, existing law requires the auditor, controller, or other appropriate governmental agency to hold in confidence information disclosed through the whistleblower hotline, as specified. Upon receiving specific information that an employee or local government has engaged in an improper government activity, current law authorizes a city or county auditor to conduct an investigative audit of the matter, as specified. Current law requires the identity

of the individual or individuals reporting the improper government activity, and the subject employee or employees to be kept confidential. Current law defines "fraud, waste, or abuse" to mean any activity by a local agency or employee that is undertaken in the performance of the employee's official duties, as described, that is in violation of any local, state, or federal law or regulation relating to, among other things, corruption. This bill would also authorize a city, county, or city and county auditor or controller to maintain a whistleblower hotline to receive calls from persons who have information regarding improper governmental activity, and would recast information regarding fraud, waste, or abuse by local government employees as improper governmental activity.

Summary: Current law authorizes the Director of Health Care Services to terminate a contract or impose sanctions if the director finds that a Medi-Cal managed care plan fails to comply with contract requirements, state or federal law or regulations, or the state plan or approved waivers, or for other good cause. Current law establishes, until January 1, 2026, certain time and distance and appointment time standards for specified Medi-Cal managed care covered services, consistent with federal regulations relating to network adequacy standards, to ensure that those services are available and accessible to enrollees of Medi-Cal managed care plans in a timely manner, as specified. Under this bill, a Medi-Cal managed care plan would be deemed to be not in compliance with the appointment time standards if either (1) fewer than 85% of the network providers had an appointment available within the standards or (2) the department receives information establishing that the plan was unable to deliver timely, available, or accessible health care services to enrollees, as specified. Under the bill, failure to comply with the appointment time standard may result in contract termination or the issuance of sanctions as described above.

Status: 7/2/2024-Failed Deadline pursuant to Rule 61(b)(13). (Last location was HOUSING on 6/5/2024)

Location: 7/2/2024-S. DEAD

Summary: Current law requires agencies and departments administering state programs related to homelessness to adopt guidelines and regulations to incorporate core components of Housing First, as defined. Under current law, Housing First includes time-limited rental or services assistance, so long as the housing and service provider assists the recipient, among other things, in accessing permanent housing. Current law defines "state programs" for this purpose as any program a California state agency or department funds, implements, or administers for the purpose of providing housing or housing-based services to people experiencing homelessness or at risk of homelessness, except as provided. Under existing law, the core components of Housing First include, among others, services that are informed by a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of tenants' lives, where tenants are engaged in nonjudgmental communication regarding drug and alcohol use, and where tenants are offered education regarding how to avoid risky behavior and engage in safer practices, as well as connected to evidence-based treatment if the tenant so chooses. This bill would clarify, pursuant to that core component, that state departments or agencies may allow programs to fund recovery housing, as defined, that use substance use-specific services, peer support, and physical design features supporting individuals and families on a path to recovery from addiction that emphasizes abstinence, so long as the state program meets specified requirements.

Summary: The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city, which includes, among other mandatory elements, a housing element. That law requires, for the 4th and subsequent revisions of the housing element, the Department of Housing and Community Development (department), in consultation with each council of governments, where applicable, to determine the existing and projected need for housing for each region, at least 2 years prior to the scheduled revision of the housing element, as specified. That law requires the department's determination to be based upon population projections produced by the Department of Finance and regional population forecasts developed by the council of governments and used for the preparation of the regional transportation

plan, as specified. That law also requires the department to meet and consult with the council of governments regarding the assumptions and methodologies to be used to determine a region's housing need and requires the council of governments to provide data assumptions from the council of governments' projections, as specified. That law authorizes the department to accept or reject the information provided by the council of governments and, requires the department, after consultation with the council of governments, to make determinations on the data assumptions and the methodology the department will use to determine the region's housing need, as specified. That law requires the department to provide its determinations to the council of governments, as specified. This bill would for the 8th and subsequent revisions of the housing element require the department to convene and engage stakeholders to consider improvements to the process of determining the existing and projected housing need for each region before determining any region's existing projected housing need. The bill would require the department, prior to finalization of the regional determination, as specified, to publish on the department's internet website a summary of the information the department considered and determinations made by the department to improve the process of determining the existing and projected housing need for each region.

Summary: Current law, upon appropriation by the Legislature, establishes the position of Deputy Secretary for Climate within the Labor and Workforce Development Agency, to be appointed by the Governor and subject to confirmation by the Senate, for the purpose of assisting in the oversight of California's workforce transition to a sustainable and equitable carbon-neutral economy. Current law requires the deputy secretary to perform specified duties, including creating or coordinating programs with other state agencies to retrain and upskill workers for, among other jobs, clean energy jobs, as specified. On or before January 1, 2025, and annually thereafter, current law requires the deputy secretary to submit a report to the Legislature on key findings and recommendations regarding the development and implementation of the workforce transition to a sustainable and equitable clean energy economy. This bill would also require the deputy secretary to create and maintain a green jobs website that serves as the central hub for employment opportunities related to the transition to carbon-neutral jobs.

Status: 8/5/2024-Read second time and amended. Ordered to third reading.

Location: 8/5/2024-S. THIRD READING

Summary: Current law authorizes the legislative body of a city or a county to establish an enhanced infrastructure financing district to finance public capital facilities or other specified projects of communitywide significance, including the acquisition, construction, or rehabilitation of housing for persons of very low, low, and moderate income. Current law requires the legislative body to establish a public financing authority, defined as the governing board of the enhanced infrastructure financing district, at the same time the resolution to form an enhanced infrastructure financing district is adopted. Current law requires the public financing authority to adopt an infrastructure financing plan that includes specified information, including a finding that the development and financial assistance are of communitywide significance and provide significant benefits to an area larger than the area of the district. This bill would authorize the City and County of San Francisco to designate one downtown revitalization and economic recovery financing district for the purpose of financing office-to-residential conversion projects with incremental tax revenues generated by office-to-residential conversion projects within the district. The bill would require the boundaries of the district to be limited to downtown San Francisco, as defined. The bill would establish a criteria for the composition of the district board. The bill would require the City and County of San Francisco to establish the board for the district at the same time that it adopts the resolution of intention. The bill would require the district to prepare and adopt a downtown revitalization financing plan that includes specified information and requirements. In this regard, the bill would require a downtown revitalization financing plan to include a requirement that incremental tax revenues be allocated back to the respective project for the purpose of financing the debt service of the project for 30 years or until the district ceases to exist. The bill would also require the downtown revitalization financing plan to identify each existing commercial office building within the district that may opt in to receive incremental tax revenue from the district.

Location: 5/16/2024-A. DEAD

Summary: Current law relating to the government of counties authorizes a county board of supervisors to contract for certain types of special services on behalf of the county, any county officer or department, or any district or court in the county. Current law requires those special services contracts to be with persons who are specially trained, experienced, expert, and competent to perform those services. This bill would require the board or a representative, at least 10 months before beginning a procurement process to contract with persons for special services that are currently, or were in the previous 10 years, performed by employees of the county represented by an employee organization, to notify, in writing, the exclusive employee representative of the workforce affected by the contract of its determination to begin that process. The bill would provide that this 10-month notice requirement does not apply in the event of an emergency, as defined. The bill would require persons with whom the board of supervisors enter into a contract for special services to perform functions that are currently, or were in the previous 10 years, performed by employees of the county, any county officer or department, or any district or court in the county represented by an employee organization to use employees who meet or exceed the minimum qualifications and standards required of bargaining unit civil service employees who perform or performed the same job functions, as specified.

Summary: Current law establishes a state policy that eligible renewable energy resources and zero-carbon resources supply 90% of all retail sales of electricity to California end-use customers by December 31, 2035, 95% of all retail sales of electricity to California end-use customers by December 31, 2040, 100% of all retail sales of electricity to California end-use customers by December 31, 2045, and 100% of electricity procured to serve all state agencies by December 31, 2035, as provided. Current law requires the PUC, the State Energy Resources Conservation and Development Commission (Energy Commission), and the State Air Resources Board, in consultation with all California balancing authorities, as defined, as part of a public process, to issue, on or before January 1, 2021, and at least every 4 years thereafter, a joint report to the Legislature containing certain information, including, among other information, the barriers to, and benefits of, achieving the state policy, as specified. This bill would additionally require the Public Utilities Commission (PUC), the Energy Commission, and the State Air Resources Board, in each joint report issued on or after January 1, 2026, to additionally include an evaluation identifying the geographic locations for development of certain renewable energy resources and zero-carbon resources, a review of certain decarbonization needs from the building, heavy industry, and transportation sectors, and a statewide transmission plan, as specified.

Summary: Current law establishes various programs, including, among others, the Emergency Housing and Assistance Program and the homeless youth emergency service pilot projects to provide assistance to homeless persons. This bill would, upon appropriation of the Legislature, establish the California Housing Security Program to provide counties with funding to administer a housing subsidy to eligible persons, as specified, to reduce housing insecurity and help Californians meet their basic housing needs. To create the program, the bill would require the Department of Housing and Community Development, by January 1, 2026, to establish a 2-year pilot program, as specified, and to issue suggested guidelines to establish the program that include, among other things, criteria for program eligibility. The bill would specify that the subsidy would not be considered income for purpose of determining eligibility or benefits for any other public assistance program, nor would participation in other benefits exclude a person from eligibility for the subsidy. Under the bill, an undocumented person, as specified, who otherwise qualifies for the subsidy would be eligible for the subsidy.

Location: 8/6/2024-S. THIRD READING

Summary: The California Environmental Quality Act (CEQA), until January 1, 2030, exempts from its requirements certain transportation-related projects if specified requirements are met, including that a local agency, as defined, is carrying out the project and that the project will be completed by a skilled and trained workforce, as provided. CEQA includes within these exempt transportation-related projects a public project for the institution or increase of bus rapid transit, bus, or light rail service, which will be exclusively used by low-emission or zero-emission vehicles, on existing public rights-of-way or existing highway rights-of-way. Current law requires the lead agency, if it determines that a transportation-related project is exempt from CEQA and determines to carry out the project, to file a notice of exemption with the Office of Planning and Research and the county clerk in which the project is located. This bill would expand that exemption from CEQA to include a public project for the institution or increase of other passenger rail service, which will be exclusively used by zero-emission trains, located entirely within existing rail rights-of-way or existing highway rights-of-way. Because the bill would increase the duties of the county clerk, this bill would impose a state-mandated local program.

Location: 4/24/2024-A. REV. & TAX

Summary: Would authorize a county board of supervisors to exempt from property taxation any possessory interest held by a tenant of publicly owned housing, as defined, with a value so low that the total taxes and applicable subventions on the property would amount to less than the cost of assessing and collecting them, except as provided. The bill would provide that there is a rebuttable presumption that the property taxes and applicable subventions on a possessory interest held by a tenant in publicly owned housing are less than the costs of assessing and collecting those taxes and applicable subventions. The bill would set forth procedures for granting or denying those exemptions and for implementing the exemption. The bill would provide that the board shall be deemed to have agreed with the rebuttable presumption and the exemption shall be deemed granted if the board does not take any action, if the board agrees, by a majority vote, to grant the exemption at a public hearing, or if the board fails to reach a majority vote for or against the exemption at the public hearing. By imposing additional duties on county boards of supervisors and local tax officials, the bill would impose a state-mandated local program.

The bill would require the commission to enter into a contract with a nonprofit organization that has existed for more than 50 years and operates an interest-free loan program virtually in the state for the nonprofit organization to award loans to eligible students. The bill would create the Emergency Students Facing Housing Crisis and Homelessness Revolving Fund as the initial depository of all moneys appropriated, donated, or

otherwise received for the program, and upon appropriation by the Legislature, would require the commission to distribute moneys in the fund to the nonprofit organization to award loans to eligible students. The bill would require the nonprofit organization to annually report to the commission the number of students who qualified for a loan and the number of students awarded a loan. The bill would require the commission to submit an annual report to the Legislature that includes this information.

Summary: Current law establishes the Homeless Housing, Assistance, and Prevention Program, administered by the Business, Consumer Services, and Housing Agency, for the purpose of providing jurisdictions, as defined, with one-time grant funds to support regional coordination and expand or develop local capacity to address their immediate homelessness challenges, as specified. Current law requires the council, upon appropriation, to distribute certain amounts, as specified, for purposes of the program. Current law requires an applicant to submit an application containing specified information in order to apply for a program allocation. Current law requires an applicant to prioritize funds received to specific programs, including to create youth-specific coordinated entry systems and improve assessment tools. This bill would require a continuum of care, upon appropriation and beginning with the 2026–27 fiscal year, to create or maintain a youth-specific process with their respective coordinated entry system, as specified, implement a youth-specific assessment tool, create a body or identify an existing body composed of youth with lived experience of homelessness that the continuum of care and other Homeless Housing, Assistance, and Prevention Program grantees must consult with regularly, and create an array of youth-specific housing inventory. The bill would require the continuum of care to document in their application how the housing assessment is youth-specific and their prioritization policy if the continuum of care states they already maintain a youth-specific coordinated entry system.

Location: 5/16/2024-A. DEAD

Summary: The California Land Conservation Act of 1965, otherwise known as the Williamson Act, authorizes a city or county to enter into contracts with owners of agricultural land to preserve the land for agricultural use, as specified, in return for reduced property tax assessments. The act authorizes a landowner to petition the city council or board of supervisors, as applicable, for cancellation of the Williamson Act contract under specified circumstances and imposes a cancellation fee equal to 12.5% of the fair market value of the land without the restriction of the Williamson Act contract. The act also authorizes a landowner of specified agricultural land to petition the board to cancel the Williamson Act contract in order to designate the land as a farmland security zone, whereby the land is eligible for a specified property tax valuation and taxed at a reduced rate for specified special taxes. The act authorizes a landowner to petition the council or board, as applicable, to cancel a farmland security zone contract under specified circumstances and imposes a cancellation fee equal to 25% of the fair market value of the land without the restriction of the contract. This bill would authorize a landowner, if their land is located in the Counties of Fresno, Kern, Kings, Madera, Merced, San Joaquin, Stanislaus, or Tulare, with a water basin in condition of critical overdraft, to petition the board or council to cancel a Williamson Act contract or a farmland security zone contract if the land meets specified criteria, including, among other things, not having permanent access to sufficient water to support commercially viable irrigated agricultural use on the land, and the landowner would be subject to a land use entitlement for specified energy projects. The bill would authorize a board or council to approve the cancellation if the board or council finds that the land does not have permanent access to sufficient water to support commercially viable irrigated agricultural use and the landowner would be subject to a land use entitlement for the specified energy projects that would use less water than the agricultural use on the land. The bill would require special energy projects to provide a community benefits package, as specified.

Location: 5/16/2024-A. DEAD

Summary: Current law requires the California Transportation Commission, under a program commonly known as the Trade Corridor Enhancement Program, to allocate, upon appropriation by the Legislature, revenues from a specified portion of the state excise tax on diesel fuel and certain federal funds to infrastructure projects located on or along specified transportation corridors. Under current law, eligible projects under the program include, among others, highway improvements to more

efficiently accommodate the movement of freight and environmental and community mitigation or efforts to reduce environmental impacts of freight movement. Under the program, existing law requires the commission to adopt a program of projects from projects nominated by the Department of Transportation and local agencies. In adopting the program of projects, existing law requires the commission to evaluate the total potential economic and noneconomic benefits of the program of projects to California's economy, environment, and public health, and to specifically assess localized impacts in disadvantaged communities. Current law also requires the California Environmental Protection Agency to identify disadvantaged communities, and, pursuant to that requirement, the agency has developed a tool to identify those communities, commonly known as CalEnviroScreen. This bill would, commencing January 1, 2025, require the commission, the Department of Housing and Community Development, and the State Air Resources Board to create guidance for the programming of projects under the Trade Corridor Enhancement Program that expand the physical footprint of a highway in a community in the highest 10% of CalEnviroScreen communities. Commencing January 1, 2028, the bill would require this guidance to be incorporated into the programming cycle.

Summary: Current law creates, and continuously appropriates moneys in, the Voluntary Offshore Wind and Coastal Resources Protection Fund for purposes of the Voluntary Offshore Wind and Coastal Resources Protection Program and the Private Donations Account, which is created in the fund. Current law authorizes the State Energy Resources Conservation and Development Commission to accept federal and private sector moneys for purposes of the program and requires the private sector money to be deposited into the account and the federal moneys to be deposited into the fund. Current law requires the commission to post a report on its internet website, within 30 days of receiving a donation, about specified information regarding each donation received. Current law authorizes the commission to allocate moneys in the fund or account for specified purposes, including workforce development grants. This bill would additionally authorize the commission to allocate moneys in the fund or account for capacity funding activities and grants within local communities and tribal communities to engage in the process of offshore wind energy development. By expanding the purposes for which continuously appropriated moneys may be allocated, the bill would make an appropriation.

Summary: The Mobilehome Residency Law requires the owner of a mobilehome park who enters into a written listing agreement with a licensed real estate broker for the sale of the mobilehome park or who offers to sell the mobilehome park to any party to provide written notice of the owner's intention to sell to specified members of a resident organization formed by homeowners for purposes of converting the mobilehome park to condominium or stock cooperative ownership interests and for purchasing the mobilehome park. Current law requires the owner to provide this notice not less than 30 days nor more than one year before entering into the listing agreement or offering to sell the mobilehome park. Current law prohibits an offer to sell a park from being construed as an offer unless it is initiated by the park owner or their agent. Current law provides various exceptions to this notice requirement, including that no notice is required unless the resident organization has first furnished the park owner or park manager with a written notice of the name and address of the president, secretary, and treasurer of the resident organization, as specified. This bill would require the owner to provide the above-described notice if they accept an offer from any buyer. The bill would also require the owner to provide the above-described notice to all residents of the mobilehome park and the Department of Housing and Community Development not less than 120 days nor more than one year before entering into the listing agreement or offering to sell the mobilehome park. The bill would grant the resident organization a right of first refusal to the mobilehome park and give them 120 days from the time they receive the above-described notice to make an offer.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA exempts from its requirements residential projects on infill sites and transit priority projects that meet certain requirements, including a requirement that the projects are located within 1/2 mile of a major transit stop. This bill would revise the definition of "major transit stop" to increase the frequency of service interval to 20 minutes.

Summary: Existing law creates the Governor’s Office of Business and Economic Development (GO-Biz) and requires GO-Biz to serve the Governor as the lead entity for economic strategy and the marketing of California on issues relating to business development, private sector investment, and economic growth. Existing law requires every city, county, and city and county to administratively approve an application to install electric vehicle charging stations through the issuance of a building permit or similar nondiscretionary permit and requires the review of an application to install an electric vehicle charging station to be limited to the building official’s review of whether it meets all health and safety requirements of local, state, and federal law. Existing law requires an electric vehicle charging station to comply with, among other things, all applicable rules of the Public Utilities Commission regarding safety and reliability, as specified. This bill would require GO-Biz to create and maintain a publicly accessible internet website that contains a landing page with functionality to collect information and report delays and denials regarding all applicable forms of permitting for zero-emission vehicle infrastructure, as specified. The bill would prohibit GO-Biz from publicly displaying any submissions received under these provisions. Summary: The California Coastal Act of 1976, regulates development, as defined, in the coastal zone, as defined, and requires a new development to comply with specified requirements. The Density Bonus Law provides that its provisions do not supersede or in any way alter or lessen the effect or application of the act, and requires that any density bonus, concessions, incentives, waivers or reductions of development standards, and parking ratios to which an applicant is entitled under the Density Bonus Law be permitted in a manner consistent with the act. This bill would instead provide that, in the coastal zone, the Density Bonus Law does not relieve a project from the requirement to obtain a coastal development permit, as specified. The bill would require any density bonus, concessions, incentives, waivers or reductions of development standards, and parking ratios to which an applicant is entitled to be permitted in a manner that is consistent with the Density Bonus Law and does not result in significant adverse impacts to coastal resources and public coastal access, as specified.

Summary: The Meyers-Milias-Brown Act (act) authorizes local public employees, as defined, to form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on matters of labor relations. The act prohibits a public agency from, among other things, imposing or threatening to impose reprisals on employees, discriminating or threatening to discriminate against employees, or otherwise interfering with specified employee rights guaranteed by the act. This bill would require each public agency with high vacancy rates for more than 180 days, at the request of the recognized employee organization, to promptly meet and confer with the representative of the recognized employee organization within 21 days about substantive strategies to fill vacancies and to hold a public hearing within 90 days about high vacancy rates and specified related matters.

Location: 4/25/2024-A. DEAD

Summary: The bill would define, for these purposes, "school facilities" to mean buildings, facilities, structures, or real property improvements used or operated in conjunction with one or more public schools or community colleges, including, but not limited to, classrooms, academic buildings, auditoriums, libraries, laboratories, research or training facilities, administrative offices or buildings, health offices or facilities, dormitories, dining halls, student centers or unions, housing for students, faculty, or school or district employees, sports facilities, maintenance, storage, or utility facilities, other related buildings, facilities, structures, or real property improvements used for student instruction, conducting research, or training, or for operating a school facility, and all necessary, usual, or useful attendant and related buildings, facilities, structures, or real property improvements, including, but not limited to, streets, parking, and supportive services facilities or structures, required or useful for the operation of another school facility. The bill would declare that its provisions are severable and are to be liberally construed to effectuate its purposes. To the extent the bill creates additional duties for school districts, community college districts, and local elections officials, the bill would impose a state-mandated local program. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Summary: Current law establishes the Department of Technology, which is supervised by the Director of Technology, within the Government Operations Agency. Current law requires the department, in consultation with the public, the Public Utilities Commission (PUC), and the California Broadband Council, by January 1, 2024, to develop a state digital equity plan that includes specified elements, including the identification of barriers to digital equity faced by covered populations in this state. This bill would create the Broadband and Digital Equity Commission with specified membership, and would,

on July 1, 2027, repeal the California Broadband Council and establish the members of the council as a committee of the commission, as specified. The bill would provide that each member of the commission, excluding ex officio members, receive compensation of \$100 per day, but not to exceed \$400 for any commission business authorized by the commission during any month, and the necessary expenses incurred by the member in the performance of the member's duties. The bill would establish the Department of Broadband and Digital Equity in the Government Operations Agency for the purpose of promoting ubiquitous and universal broadband deployment in unserved and underserved areas of the state and to increase broadband adoption throughout the state for the benefit of all Californians.

Summary: Current law provides authority for an enforcement agency to enter and inspect any buildings or premises whenever necessary to secure compliance with or prevent a violation of the building standards published in the California Building Standards Code and other rules and regulations that the enforcement agency has the power to enforce. Current law requires an inspection, by January 1, 2025, and by January 1 every 6 years thereafter, of exterior elevated elements and associated waterproofing elements, as defined, including decks and balconies, for buildings with 3 or more multifamily dwelling units, as specified. Current law that provides that, if the property was inspected within 3 years prior to January 1, 2019, as specified, no new inspection is required until January 1, 2025. This bill would extend the deadline for initial inspection until January 1, 2026.

Summary: Current law establishes a prima facie speed limit of 25 miles per hour when approaching or passing a school building or grounds contiguous to a highway or when the school grounds are not separated from the highway, as specified. Current law authorizes a local authority, by ordinance or resolution, to reduce the prima facie speed limit based on an engineering and traffic survey, as specified. This bill would, until January 1, 2028, instead establish a prima facie speed limit of 25 miles per hour in a school zone, as defined, subject to specified conditions, including, among others, when a school speed limit sign states "when children are present" and children are present, as defined, and when a school speed limit sign states specific hours, as specified. The bill would, notwithstanding the above provision and until January 1, 2028, authorize a local authority, by ordinance or resolution, to determine and declare a prima facie speed limit of 20 miles per hour in a school zone. The bill would, beginning on January 1, 2028, establish a prima facie speed limit of 20 miles per hour in a school zone subject to conditions similar to those described above.

Summary: Would prohibit a business entity, as defined, that has an interest in more than 1,000 single-family residential properties from purchasing, acquiring, or otherwise obtaining an ownership interest in another single-family residential property and subsequently leasing the property, as specified. The bill would authorize the Attorney General to bring a civil action for a violation of these provisions, and would require a court in a civil action in which the Attorney General prevails to order specified relief, including that the business entity pay a civil penalty of \$100,000 for each violation and that the business entity sell the property to an independent third party within one year of the date that the court enters judgment. The bill would require that these provisions be the exclusive means of enforcement of these provisions.

Summary: Current law creates the San Bernardino County Transportation Authority with various powers and duties relative to transportation planning and funding in the County of San Bernardino. Current law requires the authority's contracts for the purchase of supplies, equipment, and materials, and the construction of all facilities and works, to be let to the lowest responsible bidder when the expenditure required exceeds \$25,000. Current law also requires the authority to obtain a minimum of 3 quotations, either written or oral, that permit prices and terms to be compared whenever the expected expenditure required exceeds \$1,000 but not \$25,000. This bill would authorize a contract for the purchase of supplies, equipment, or materials with a required expenditure that exceeds \$100,000 to be let to the lowest responsible bidder, or, in the authority's discretion, to the responsible bidder who submitted a proposal that provides the best value to the authority on the basis of the factors identified in the solicitation.

Summary: Current law requires the governing board of a school district maintaining one or more high schools to include within its membership one or more pupil members if pupils submit a petition for pupil representation to the governing board, as provided. Current law requires the pupil member to be chosen by the pupils enrolled in the high school or high schools of the school district in accordance with procedures prescribed by the governing board of the school district. Current law requires the pupil member to have preferential voting rights. Current law prohibits a pupil member from being included in determining the vote required to carry any measure before the governing board. This bill would require a city or county, as described, to establish a youth commission in response to petitions from youth 13 to 18 years of age, inclusive, residing in their jurisdiction, as specified. Because the bill would add to the duties of cities and counties to respond to petitions from youth, it would constitute a state-mandated local program. This bill would require the governing board of the city or county to prescribe the policies and procedures for the selection of members of the youth commissions and the rights and responsibilities of the youth commissions, subject to specified requirements.

Summary: The Planning and Zoning Law requires that the housing element adopted by the legislative body of the city, county, or city and county and any amendments made to that element be delivered to all public agencies or private entities that provide water or sewer services, as described, within the territory of the legislative body. Current law requires each public agency or private entity providing water or sewer services to grant a priority for the provision of these services to proposed developments that include housing units affordable to lower income households. Existing law also requires a public agency or private entity providing water or sewer services to adopt written policies and procedures not later than July 1, 2006, and at least once every 5 years thereafter, with specific objective standards for provision of services, as described. This bill would instead require each public agency or private entity providing water or sewer services to grant a priority for the provision of these services to proposed housing developments, which the bill would define for these purposes to include both housing developments that include units sold or rented to lower income households, as provided in existing law as described above, and housing developments constructed pursuant to specified laws providing for ministerial approval of certain housing developments or subdivision maps. The bill would also update the compliance date to adopt written policies and procedures to July 1, 2025, and continue to require the adoption of those written policies and procedures at least once every 5 years thereafter.

Summary: The Planning and Zoning Law requires each county and each city to adopt a comprehensive, long-term general plan for the physical development of the county or city, and specified land outside its boundaries, that includes, among other specified mandatory elements, a housing element. Current law requires, for the 4th and subsequent revisions of the housing element, the Department of Housing and Community Development, in consultation with the council of governments, to determine the existing and projected need for housing for each region, as specified. Current law requires the council of governments or delegate subregion, as applicable, to adopt a final regional housing needs plan that allocates a share of the regional housing need to each city, county, or city and county. Current law requires each council of governments and delegate subregion to distribute a draft allocation of regional housing needs to each local government in the region or subregion. Current law authorizes, within 45 days following receipt of the draft allocation, a local government within the region or the delegate subregion or the department to appeal to the council of governments or the delegate subregion for a revision of the share of the regional housing need proposed to be allocated to one or more local governments, as specified. Summary: Current law requires the State Department of Public Health, by regulation, to establish, maintain, and amend as necessary minimum standards for the sanitation of public beaches, as provided. Current law requires the regulations to do certain things, including requiring the testing of the waters adjacent to all public beaches for microbiological contaminants, as provided. Current law authorizes a local health officer to meet the testing requirements by utilizing test results from other parties conducting microbiological contamination testing of the waters under their jurisdiction. This bill would provide that the local health officer may only rely on data from test results from other parties if that data meets the same quality requirements that apply to local agencies pursuant to specified regulations and standards. The bill would also require that test results used by the local health officer be made available to the public.

Summary: The Public Utilities Act requires the Public Utilities Commission, by December 31, 2020, to ensure that all eligible low-income electricity and gas customers are given the opportunity to participate in low-income energy efficiency programs, including customers occupying apartments or similar multiunit residential structures. Current law requires these programs to be designed to provide long-term reductions in energy consumption at the dwelling unit based on an audit or assessment of the dwelling unit and authorizes these programs to include, among other things, energy-efficient appliances. This bill would require energy-efficient appliances provided pursuant to the Energy Saving Assistance Program to only replace natural gas appliances with electric appliances. The bill would also make various nonsubstantive changes.

Summary: Current law, until July 1, 2026, authorizes the Department of Alcoholic Beverage Control to permit licensees to exercise license privileges in an expanded license area authorized pursuant to a COVID-19 Temporary Catering Authorization, as specified. Current law includes duplicative provisions relating to COVID-19 Temporary Catering Authorizations. This bill would authorize an on-sale licensee located in an airport terminal to, under a COVID-19 Temporary Catering Authorization, sell alcoholic beverages for on-sale consumption in an expanded license area that includes the airside terminal space if certain requirements are complied with. Those requirements include, among others, the licensee receiving written approval from the airport operator, serving the alcoholic beverages in distinguishable and labeled containers, selling no more than 2 containers to each customer per transaction, and posting appropriate signage regarding open container laws, as specified. The bill would make all licensees holding a COVID-19 Temporary Catering Authorization within a shared common licensed area jointly liable for compliance with laws that may subject their license to discipline in that shared common licensed area. The above-described provisions of the bill would be repealed on July 1, 2026. The bill would repeal the duplicative COVID-19 Temporary Catering Authorization provisions.

Summary: Current law requires every electric utility, defined to include electrical corporations, local publicly owned electric utilities, and electrical cooperatives, to develop a standard contract or tariff for net energy metering, as defined, for generation by a renewable electrical generation facility, as defined, and to make this contract or tariff available to eligible customer-generators, as defined, upon request on a first-come-first-served basis until the time that the total rated generating capacity used by eligible customer generators exceeds 5% of the electric utility's aggregate customer peak demand. Current law requires the Public Utilities Commission to have developed a 2nd standard contract or tariff for each large electrical corporation, as defined, to provide net energy metering to additional eligible customer-generators in the electrical corporation's service territory and imposes no limitation on the number of new eligible customer-generators entitled to receive service pursuant to this 2nd standard contract or tariff. Current law requires the commission, in developing the 2nd standard contract or tariff, to ensure that customer-sited renewable distributed generation continues to grow sustainably and to include specific alternatives designed for growth among residential customers in disadvantaged communities. Current law authorizes the commission to revise the 2nd standard contract or tariff as appropriate. Pursuant to that authorization, the commission has instituted rulemakings and issued decisions relating to the 2nd standard contract or tariff. This bill would require all eligible customer-generators of large electrical corporations receiving service under the 2nd standard contract or tariff to be subject to a specified version of the tariff developed by the commission in a specified rulemaking. The bill would require the commission to develop a new standard contract or tariff providing for net energy metering for eligible customer-generators of large electrical corporations and would require every other electric utility to revise its standard contract or tariff providing for net energy metering.

Summary: Current law requires the State Air Resources Board to adopt and implement motor vehicle emission standards, in-use performance standards, and motor vehicle fuel specifications for the contro

of air contaminants and sources of air pollution that the state board has found necessary, cost effective, and technologically feasible. Pursuant to its authority, the state board has adopted the Advanced Clean Fleets Regulation, which imposes various requirements for transitioning local, state, and federal government fleets of medium- and heavy-duty trucks, other high-priority fleets of medium- and heavy-duty trucks, and drayage trucks to zero-emission vehicles. The Advanced Clean Fleets Regulation authorizes entities subject to the regulation to apply for exemptions from its requirements under certain circumstances. This bill would extend the compliance dates for local government set forth in the Advanced Clean Fleets Regulation by 10 years. The bill would prohibit the state board from taking enforcement action against a local government for violating the Advanced Clean Fleets Regulation if the alleged violation occurs before January 1, 2025.

Summary: The Zenovich-Moscone-Chacon Housing and Home Finance Act establishes the Department of Housing and Community Development and requires it to administer various programs intended to promote the development of housing and to provide housing assistance and home loans. Current law sets forth various general powers of the department in implementing these programs, including authorizing the department to enter into long-term contracts or agreements of up to 30 years for the purpose of servicing loans or grants or enforcing regulatory agreements or other security documents. Current law, unless an extension of a department loan, the reinstatement of a qualifying unpaid matured loan, the subordination of a department loan to new debt, or an investment of tax credit equity would result in a rent increase for tenants of a development, authorizes the Department of Housing and Community Development to approve an extension, reinstatement, subordination, payoff, extraction, or investment pursuant to specified rental housing finance programs, as specified, or if the

department determines that a project has, or will have after rehabilitation or repairs, a potential remaining useful life equal to or greater than the term of the restructured loan. Current law authorizes the department to charge a monitoring fee to cover the aggregate monitoring costs in years the loan is extended and a transaction fee to cover its costs for processing restructuring transactions, and requires developer fee limitations to be consistent with specified laws and regulations, including regulations by the California Tax Credit Allocation Committee. This bill would revise and recast these provisions, including additionally authorizing the department to approve the payoff of a department loan in whole or part before the end of its term and the extraction of equity from a development for purposes approved by the department. The bill would specify eligible uses of loan and equity sources, if the department determines that a project has, or will have after rehabilitation or repairs, a potential remaining useful life equal to or greater than the term of the department's regulatory agreement for purposes of approving an extension, reinstatement, subordination, payoff, extraction, or investment, as described above.

AB 2639 (Patterson, Joe R) Forestry: timber operations: maintenance of timberlands for fuels reduction.

Current Text: Amended: 4/11/2024 [html](#) [pdf](#)

Status: 5/16/2024-Failed Deadline pursuant to Rule 61(b)(8). (Last location was APPR. SUSPENSE FILE on 5/8/2024)

Location: 5/16/2024-A. DEAD

Summary: The Z'berg-Nejedly Forest Practice Act of 1973 prohibits a person from conducting timber operations unless a timber harvesting plan prepared by a registered professional forester has been submitted to, and approved by, the Department of Forestry and Fire Protection. Current law defines "timber operations" for purposes of the act. The act provides that any person who willfully violates any provision of the act or rule or regulation of the State Board of Forestry and Fire Protection is guilty of a misdemeanor. This bill would expand the definition of "timber operations" to include the maintenance of timberlands through fuels reduction paid in part or in whole with public funds. By expanding the scope of a crime, the bill would create a state-mandated local program. The bill would provide that timber operations for the maintenance of timberland, paid in part or in whole with public funds, may, as an alternative to obtaining an approved timber harvesting plan, comply with the requirements of the California Environmental Quality Act (CEQA).

Status: 8/5/2024-In committee: Referred to APPR suspense file.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Current law prohibits a transportation agency, as defined, from selling or otherwise providing to any other person or entity, with certain exceptions, personally identifiable information of a person who subscribes to an electronic toll collection system or who uses a toll bridge, toll lane, or toll highway that employs an electronic toll collection system. Current law authorizes a law enforcement agency to request the Department of the California Highway Patrol (CHP) to activate the Emergency Alert System within the appropriate area if that agency determines that a child 17 years of age or younger, or an individual with a proven mental or physical disability, has been abducted and is in imminent danger of serious bodily injury or death, and there is information available that, if disseminated to the general public, could assist in the safe recovery of that person. Current law also authorizes the CHP, upon the request of a law enforcement agency, to activate various other alerts for missing individuals meeting certain criteria and alerts following an attack upon a law enforcement officer or a hit-and-run fatality. This bill would authorize a transportation agency that employs an electronic toll collection system to provide the date, time, and location of a vehicle license plate read captured by the system to a peace officer in response to one of these alerts.

Location: 4/25/2024-A. DEAD

Summary: Current law requires the State Air Resources Board to implement a comprehensive short-lived climate pollutant strategy to achieve a reduction in statewide emissions of methane by 40% by 2030. Current law requires the methane emissions reduction goals to include a 75% reduction in the level of the statewide disposal of organic waste from the 2014 level by 2025. Current law requires the Department of Resources Recycling and Recovery, in consultation with the state board, to adopt regulations to achieve these organic waste reduction goals that include, among other things, requirements intended to meet the goal that not less than 20% of edible food that is currently disposed of be recovered for human consumption by 2025 and that may include penalties to be imposed by the department for noncompliance, as provided. This bill would exempt from the above-referenced organic waste reduction goal requirements and regulations, food processing establishments, as defined, that do not divert organic waste to landfills.

Location: 8/12/2024-S. APPR. SUSPENSE FILE

Summary: Current law establishes the Multifamily Housing Program administered by the Department of Housing and Community Development. Existing law requires that specified funds appropriated to provide housing for individuals and families who are experiencing homelessness or who are at risk of homelessness and who are inherently impacted by or at increased risk for medical diseases or conditions due to the COVID-19 pandemic or other communicable diseases be disbursed in accordance with the Multifamily Housing Program for specified uses. This disbursement scheme is referred to as Homekey. This bill would require that the CARE program include public housing authority owned or administered Homekey housing facilities where the residents of the facility substantially meet the CARE

program's income eligibility requirements, as determined by the commission, and the account is in the name of Homekey, a nonprofit funded by Homekey, or the public housing authority that owns or administers the facility. The bill would require the commission to authorize electrical corporations and gas corporations to offer discounts to those facilities and to establish a feasible process for certifying that the assistance is used for the direct benefit of the residents of those facilities.

Status: 5/7/2024-Re-referred to Com. on RLS.

Location: 5/6/2024-A. RLS.

Summary: The Planning and Zoning Law requires the legislative body of each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city that includes, among other specified mandatory elements, a housing element. That law, for the 4th and subsequent revisions of the housing element, requires the Department of Housing and Community Development to determine the existing and projected need for housing for each region. That law further requires the appropriate council of governments, or, for cities and counties without a council of governments, the department, to adopt a final regional housing plan that allocates a share of the regional housing need to each city, county, or city and county in accordance with certain requirements. This bill would authorize a city or county, by agreement, to transfer all or a portion of its allocation of regional housing need to another city or county. The bill would allow the transferring city to pay the transferee city or county an amount determined by that agreement, as well as a surcharge to offset the impacts and associated costs of the additional housing on the transferee city.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Current state law authorizes the Department of Transportation to designate certain lanes for the exclusive use of high-occupancy vehicles (HOVs). Current federal law authorizes, until September 30, 2025, a state to allow specified alternate fuel and plug-in electric or hybrid vehicles to

use lanes designated for HOVs. Current state law authorizes the Department of Motor Vehicles to issue decals or other identifiers to qualified vehicles, as specified. Current state law allows a vehicle displaying a valid decal or identifier issued pursuant to these provisions to be operated in a lane designated for the exclusive use of HOVs regardless of the occupancy of the vehicle. These existing state laws, by operation of their provisions, become inoperative on the date the federal authorization expires. Current state law also repeals these provisions on September 30, 2025. This bill would extend the repeal date of these provisions until January 1, 2027.

Summary: (1)Existing law requires the Secretary for Environmental Protection to implement a unified hazardous waste and hazardous materials management regulatory program, known as the unified program. Existing law requires every county to apply to the secretary to be certified to implement the unified program, and authorizes a city or local agency that meets specified requirements to apply to the secretary to be certified to implement the unified program, as a certified unified program agency. Existing law authorizes a state or local agency that has a written agreement with a certified unified program agency, and is approved by the secretary, to implement or enforce one or more of the unified program elements as a participating agency. Existing law defines "unified program agency" to mean a certified unified program agency or its participating agencies, as provided. This bill would require this reporting to be made to the California Environmental Protection Agency instead of the Office of Emergency Services. The bill would delete the requirement on the Office of Emergency Services to adopt regulations, and would instead require the California Environmental Protection Agency to be responsible for the adoption and revision of the regulations and for the oversight of the enforcement of the regulations. The bill would require the California Environmental Protection Agency, on or before January 1, 2028, to review and revise the regulations that implement the reporting requirements. Location: 8/5/2024-S. THIRD READING

Summary: Current law authorizes a local authority, by ordinance or resolution, to prohibit or restrict the stopping, parking, or standing of vehicles on certain streets or highways during all or certain hours of the day. Current law authorizes the ordinance or resolution to include a designation of certain streets upon which preferential parking privileges are given to residents and merchants adjacent to the streets for their use and the use of their guests, under which the residents and merchants may be issued permits that exempt them from the prohibition or restriction of the ordinance or resolution. Current law prohibits a public agency from imposing any minimum automobile parking requirement on any residential, commercial, or other development project that is located within 1/2 mile of public transit, as defined, unless the public agency makes written findings that not imposing or enforcing minimum automobile parking requirements on the development would have a substantially negative impact on, among other things, the city's, county's, or city and county's ability to meet its share of the regional housing need for low- and very low income households. This bill would, for purposes of its provisions, define "development project" to mean a residential, commercial, or other development project exempt from minimum automobile parking requirements, or subject to parking minimum reductions based on any other applicable law, located within the boundaries of the City of Los Angeles. This bill, for a development project that is located within a preferential parking area, would require the development project to be excluded from the boundaries of the preferential parking area and would prohibit the local authority, as defined, from issuing any permit to the residents or visitors of the development project that grants preferential parking privileges.

Summary: The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan that includes, among other mandatory elements, a housing element. That law requires the city's or county's planning agency, after the legislative body has adopted a general plan, to submit an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development. This bill would require a local government to include in the annual report specified information relating to housing development projects under the act, including the number of applications submitted and the total number of building permits issued under the act.

Status: 8/6/2024-Read second time. Ordered to third reading.

Location: 8/6/2024-S. THIRD READING

Summary: Current law prohibits classifying a private passenger motor vehicle as a commercial vehicle, for-hire vehicle, permissive use vehicle, or livery solely because its owner allows it to be shared, if specified criteria are met, including if the annual revenue received by the vehicle's owner generated by the personal vehicle sharing of the vehicle does not exceed the annual expenses of owning and operating the vehicle. Current law requires a personal vehicle sharing program, for each vehicle that it facilitates the use of, among other things, to provide insurance coverages for the vehicle and operator of the vehicle that are equal to or greater than the insurance coverages maintained by the vehicle owner, but no less than 3 times the minimum coverage amounts for private passenger vehicles. Current law requires an owner or operator of a motor vehicle, or an owner of a vehicle used to transport passengers for hire not regulated by the Public Utilities Commission, to maintain liability insurance coverage for the named insured and any other person using the vehicle with permission in the amount of \$15,000 for the bodily injury or death of any one person, \$30,000 for the bodily injury or death of all persons, and \$5,000 for damage to the property of others resulting from any one accident. Current law increases these minimum amounts to \$30,000, \$60,000, and \$15,000, respectively, on January 1, 2025. This bill would require a personal vehicle sharing program to provide, instead, insurance coverages for the vehicle and operator at a minimum of \$45,000 for bodily injury or death for one person, \$90,000 for bodily injury or death for all persons, and \$15,000 for property damage, and, on and after January 1, 2031, to provide liability coverage at least 3 times the minimum insurance requirements for private passenger vehicles. The bill would require a personal vehicle sharing program to disclose to a vehicle owner and any person that operates the vehicle specified information, including the minimum mandatory coverage and limits that the personal vehicle sharing program is required to provide and the coverages and limits provided.

Summary: Current law, until July 1, 2025, requires a landlord of an assisted housing development to offer tenants obligated on the lease of units in the development the option of having their rental payments reported to at least one consumer reporting agency, as specified. Current law authorizes a landlord to charge a tenant that elects to have rent reported a \$10 fee and prescribes requirements regarding how the offer of rent reporting is to be made. This bill would require a landlord of a dwelling unit of residential real property to offer any tenant obligated on a lease the option of having the tenant's positive rental payment information, as defined, reported to at least one nationwide consumer reporting agency, as specified. The bill would require, for leases entered into on and after April 1, 2025, the offer of positive rental payment information reporting to be made at the time of the lease agreement and at least once annually thereafter, and for leases outstanding as of January 1, 2025, the offer of positive rental payment information reporting to be made no later than April 1, 2025 and at least once annually thereafter. The bill would authorize a tenant to request, and would require a landlord to provide, additional copies of the written election of positive rental payment information reporting at any time. The bill would authorize a tenant who elects to have positive rental payment information reported as described in these provisions to subsequently file a written request to stop that reporting and would require the landlord to comply with that request.

Summary: This bill would require a public or private employer to establish a workplace policy that

provides employees the right to disconnect from communications from the employer during nonworking hours, except as specified. The bill would define the "right to disconnect" to mean that, except for an emergency or for scheduling, as defined, an employee has the right to ignore communications from the employer during nonworking hours. The bill would require nonworking hours to be established by written agreement between an employer and employee. The bill would authorize an employee to file a complaint of a pattern of violation of the bill's provisions with the Labor Commissioner, punishable by a specified civil penalty.

Summary: Would require, for certain beverage manufacturers, by January 1, 2031, that no less than 5% of the volume of beverages that a beverage manufacturer sells in beverage containers in California be sold in reusable beverage containers, and that by January 1, 2032, no less than 60% of that 5% be sold in reusable beverage containers that were returned for reuse. The bill would provide for periodic increases to those percentages. The bill would require, beginning January 1, 2030, and annually thereafter, a beverage manufacturer to report certain information to the Department of Resources Recycling and Recovery regarding the sale of beverages in beverage containers and reusable beverage containers, as specified. The bill would require a beverage manufacturer to make those reports publicly available on the beverage manufacturer's internet website. The bill would require, beginning in 2031, the department to aggregate the information provided by beverage manufacturers into an annual report, as specified. The bill would authorize one or more beverage manufacturers to form a reusable beverage container management system and to submit a plan to the department regarding their plan to comply with the requirements of this bill, as specified.

Summary: Current law prohibits a landlord from asserting a claim against the tenant or the security for damages to the premises or any defective conditions that preexisted the tenancy, for ordinary wear and tear or the effects thereof, or for the cumulative effects of ordinary wear and tear occurring during any one or more tenancies. This bill would limit claims against the tenant or the security for materials or supplies and for work performed by a contractor, the landlord, or the landlord's employee to the amount necessary to restore the premises back to the condition it was in at the inception of the tenancy, exclusive of ordinary wear and tear. The bill would also prohibit a landlord from requiring a tenant to pay for, or asserting a claim against the tenant or the security for, professional carpet cleaning or other professional cleaning services, unless reasonably necessary to return the premises to the condition that it was in at the inception of the tenancy, exclusive of ordinary wear and tear.

Location: 8/6/2024-S. THIRD READING

Summary: The California Community Care Facilities Act requires the State Department of Social Services to license and regulate transitional housing placement providers pursuant to the act. Under current law, a transitional housing placement provider is an organization licensed by the department to provide transitional housing to foster children at least 16 years of age and not more than 18 years of age and to nonminor dependents to promote their transition to adulthood. Current law requires a transitional housing unit to include, among other things, a host family certified by a transitional housing placement provider or other designated entity, as prescribed. Current law requires the department to adopt regulations governing transitional housing placement living arrangements requirements for minors and nonminor dependents, as prescribed. This bill would require those regulations to include allowing a minor or nonminor dependent participant to share a bedroom or unit in a transitional housing placement with a nonparticipant roommate, sibling, or coparent, as specified. The bill would also require the regulations to allow a minor or nonminor dependent with children to share their living arrangement with a coparent or participant sibling. The bill would require the regulations to require counties and program contracts to allow individual program participants and individuals sharing their living arrangements to share bedrooms, bathrooms, and units together,

regardless of gender identity and would require county program contracts to allow providers and participants to make best matches to allow for gender flexibility.

Location: 8/5/2024-S. THIRD READING

Summary: Current law prohibits a person from engaging in a motor vehicle exhibition of speed on a highway or aiding or abetting in a motor vehicle exhibition of speed on a highway. Upon conviction, existing law punishes a person by imprisonment in a county jail for not more than 90 days, by a fine of not more than \$500, or by both that fine and imprisonment. Current law, commencing July 1, 2025, authorizes the court to order the privilege to operate a motor vehicle suspended for 90 days to 6 months and restrict the person's operation of a motor vehicle for the purposes of their employment if the violation occurred as part of a sideshow, as defined. Current law requires the court to consider a person's hardships, as specified, when deciding to either suspend or restrict a driver's license. This bill would clarify that a "sideshow" is also known as a "street takeover."

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Current law establishes the Clean Transportation Program, administered by the State Energy Resources Conservation and Development Commission, to provide funding to certain entities to develop and deploy innovative technologies that transform California's fuel and vehicle types to help attain the state's climate change policies. Current law limits funding under the program to specified categories of programs and projects. Current law creates the Alternative and Renewable Fuel and Vehicle Technology Fund, to be administered by the commission, and requires the moneys in the fund, upon appropriation by the Legislature, to be expended by the commission to implement the program. This bill would add to the categories of programs and projects eligible for funding under the Clean Transportation Program a program to repair or replace nonoperational electric vehicle chargers that are at least 5 years old and that are located in a publicly available parking space, as provided. The bill would require the commission to allocate at least 50% of the funding allocated for the repair or replacement program to low-income communities and disadvantaged communities.

Summary: The Planning and Zoning Law, authorizes a local agency, by ordinance, to provide for the creation of accessory dwelling units (ADUs) in areas zoned for residential use, as specified. Current law requires ministerial approval of ADUs, as specified, if the local agency does not adopt an ordinance governing ADUs. Under current law, a local agency is also required to ministerially approve an application for a building permit within a residential or mixed-use zone to create any of specified variations of ADUs. Current law also authorizes a local agency to provide for the creation of junior accessory dwelling units (JADUs) in single-family residential zones, as specified. This bill would authorize a local agency to adopt an ordinance that allows the local agency to inspect an ADU or JADU to ensure that the unit is used for dwelling purposes consistent with specified requirements.

Summary: Current law establishes the California Interagency Council on Homelessness to oversee the implementation of Housing First guidelines and regulations, and, among other things, identify resources, benefits, and services that can be accessed to prevent and end homelessness in California. Current law requires a state agency or department that funds, implements, or administers a state program that provides housing or housing-related services to people experiencing homelessness or who are at risk of homelessness to revise or adopt guidelines and regulations to include enumerated Housing First policies. Current law specifies the core components of Housing First, including services that are informed by a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of tenants' lives and where tenants are engaged in nonjudgmental communication regarding drug and alcohol use. This bill would authorize state programs to fund supportive recovery residences, as defined, that emphasize abstinence under these provisions as long as the state program meets specified criteria, including using at least 90% of its funds in each county for housing or housing-based services using a harm-reduction model. The bill would specify requirements for applicants seeking funds under these programs and would require the state to perform periodic monitoring of select supportive recovery residence programs to ensure that the supportive recovery residences meet certain requirements, including that core outcomes of the supportive recovery housing emphasize long-term housing stability and minimize returns to homelessness. The bill would also prohibit eviction on the basis of relapse, as specified.

Location: 6/5/2024-S. THIRD READING

Summary: Current law requires the owner of qualifying residential property, as defined, that provides parking with the qualifying residential property to unbundle parking from the price of rent, as specified. Current law defines "unbundled parking" as the practice of selling or leasing parking spaces separate from the lease of the residential use. Current federal law provides housing assistance to low-income individuals and households in the form of vouchers, commonly known as Housing Choice Vouchers. This bill would exempt any residential unit that is leased to a tenant who receives a federal Housing Choice Voucher, including a federal Veterans Affairs Supportive Housing voucher, from the above-described requirement to unbundle parking.

Location: 8/5/2024-S. APPR. SUSPENSE FILE

Summary: Current law requires the California Building Standards Commission to approve and adopt building standards and to codify those standards in the California Building Standards Code, which is required to be published once every 3 years. The State Housing Law establishes statewide construction and occupancy standards for buildings used for human habitation. That law requires the building department of every city or county to enforce within its jurisdiction the provisions of the California Building Standards Code, the provisions of the State Housing Law, and specified other rules and regulations promulgated pursuant to that law. That law authorizes a city or county to adopt alternative building regulations for the conversion of commercial or industrial buildings to joint living and work quarters, as specified. This bill would additionally authorize the City of Los Angeles (city) to adopt alternative building regulations for the conversion of commercial buildings to residential uses, as specified. The bill would require the city to have a housing element compliant with law and adopt an

ordinance facilitating or expediting the review of adaptive reuse projects before the city is authorized to adopt alternative building regulations pursuant to this bill.

Summary: Would, on and after January 1, 2026, prohibit the sale, distribution, installation, or arrangement of the installation of an overwater structure, excluding a floating home, that contains expanded polystyrene, as defined, or other plastic foam that is not fully enclosed and contained in a shell made of aluminum, concrete, steel or plastic with a minimum thickness of 0.15 inches. The bill would, on and after January 1, 2026, prohibit the sale, distribution, installation, or arrangement of the installation of a block or float that contains, or is comprised of, expanded polystyrene or other plastic foam that is not fully enclosed and contained in a shell made of aluminum, concrete, steel or plastic with a minimum thickness of 0.15 inches. The bill would authorize the State Water Resources Control Board to adopt rules to implement, administer, and enforce these provisions and to maintain and revise a list of materials that are approved to fully enclose and contain expanded polystyrene or other plastic foam used in an overwater structure, block, or float, as specified. The bill would authorize the state board to revise or disqualify a material if the state board determines the material is not sufficient to prevent the release of expanded polystyrene or other plastic foam into the environment. The bill would also authorize the state board to approve a new material for use if the state board determines that the material is sufficient to prevent the release of expanded polystyrene or other plastic foam into the environment and is safe for use in the aquatic environment. The bill would require that, beginning January 1, 2026, an overwater structure that contains, or a block or float that contains or is comprised of, expanded polystyrene or other plastic foam, sold or installed before January 1, 2026, and that is repaired or maintained on or after that date, be fitted with a shell made of aluminum, concrete, steel or plastic with a minimum thickness of 0.15 inches, or other material as the state board may approve, that fully encloses and contains all expanded polystyrene or other plastic foam.

Location: 5/16/2024-A. DEAD

Summary: Current law establishes the Building Standards Administration Special Revolving Fund, and makes the moneys in the fund available, upon appropriation, to state entities to carry out various related provisions, as specified. Current law requires the Department of Housing and Community Development to propose the adoption, amendment, or repeal of building standards to the California Building Standards Commission, and the department to adopt, amend, and repeal other rules and regulations for the protection of the public health, safety, and general welfare of the occupant and the public governing the erection, construction, enlargement, conversion, alteration, repair, moving, removal, demolition, occupancy, use, height, court, area, sanitation, ventilation, and maintenance of all hotels, motels, lodging houses, apartment houses, and dwellings, and buildings and structures accessory thereto, as specified. Current law authorizes those standards to include voluntary best practice and mandatory requirements related to environmentally preferable water using devices and measures. Current law requires the department and the commission to research, develop, and propose building standards to reduce potable water use in new residential and nonresidential buildings, including consideration of requiring installation of water reuse systems and consideration of requiring preplumbing of buildings to allow future use of recycled water, onsite treated graywater, or other alternative water sources. This bill would enact the California Multiunit Residential Structure and Mixed-Use Residential and Commercial Structure Water Conservation Act. The bill would state findings and declarations of the Legislature relating to wasted water due to plumbing leaks. The bill would require the department to investigate whether additional water conservation and efficiency measures are warranted for existing and new multifamily residential construction and mixed use commercial structures, including, but not limited to, point-of-use systems, as defined. The bill would authorize the department, if it determines that changes to the California Green Building Standards are warranted, to develop voluntary or mandatory proposals to be submitted to the commission for consideration.

Summary: The California Constitution, with respect to any taxes levied on taxable property in a redevelopment project established under the Community Redevelopment Law, as it then read or may be amended, authorizes the Legislature to provide for the division of those taxes under a redevelopment plan between the taxing agencies and the redevelopment agency, as provided. Current law dissolved redevelopment agencies as of February 1, 2012, and designates successor agencies to act as successor entities to the dissolved redevelopment agencies. This bill, the Reconnecting Communities Redevelopment Act, would authorize a city or county, or two or more cities acting jointly, to propose the formation of a reconnecting communities investment agency by adoption of a resolution of intention that meets specified requirements, including that the resolution of intention include a passthrough provision and an override passthrough provision, as defined. The bill would require the city or county to submit that resolution to each affected taxing entity and would authorize an entity that receives that resolution to elect to not receive a passthrough payment, as provided. The bill would require the city or county that adopted that resolution to hold a public hearing on the proposal to consider all written and oral objections to the formation, as well as any recommendations of the affected taxing entities, and would authorize that city or county to adopt a resolution of formation at the conclusion of that hearing.

Status: 6/5/2024-Read second time. Ordered to third reading.

Location: 6/5/2024-S. THIRD READING

Summary: The Teacher Housing Act of 2016 authorizes a school district to establish and maintain programs, as provided, that address the housing needs of teachers and school district employees who face challenges in securing affordable housing. The act restricts programs established under its provisions to teachers and school district employees, with certain exceptions. The act defines the term "teacher or school district employee" for these purposes to mean any person employed by a unified school district maintaining prekindergarten, transitional kindergarten, and grades 1 to 12, inclusive, or elementary school district maintaining prekindergarten, transitional kindergarten, and grades 1 to 8, inclusive, or a high school district maintaining grades 9 to 12, inclusive, including, but not limited to, certificated and classified staff. The act creates a state policy supporting housing for teachers and school district employees and permits school districts and developers in receipt of local or state funds or tax credits designated for affordable rental housing to restrict occupancy to teachers and school district employees, as specified. This bill would expand the authority provided under the act to include programs that address the housing needs of nonprofit organization employees who face challenges in securing affordable housing. The bill would define "nonprofit organization employee" for these purposes to include employees of a nonprofit organization operating early childhood, prekindergarten, or schoolage childcare, classrooms, or programs, or expanded learning classrooms and programs, on school district property with funding from the State Department of Education, the federal Head Start program, or other public funding targeted to children from families of low and moderate income.

Summary: The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 provides the exclusive authority and procedure for the initiation, conduct, and completion of changes of organization and reorganization for cities and districts, except as specified. The act continues in existence in each county a local agency formation commission (LAFCO) that consists of members appointed, as specified, and that oversees those changes of organization and reorganization. The act authorizes a LAFCO to, among other things, review and approve with or without amendment, wholly, partially, or conditionally, or disapprove proposals for changes of organization or reorganization, including incorporation of a city or formation of a district, as specified. Current law requires each county to have a board of supervisors and provides for the organization and powers of the board of supervisors. This bill would require the County of Los Angeles, no later than March 1, 2025, to submit to the Legislature a report that includes specified information, including, among other things, for East Los Angeles, the feasibility of forming a municipal advisory council, a local town council, or a coordinating council that could represent the comprehensive interests of the entire East Los Angeles community. If the county has produced a report that contains substantially similar information to the information required by the above-described provisions, this bill would authorize the county to submit that report in lieu of completing a separate report.

Summary: Current law requires the State Energy Resources Conservation and Development Commission (Energy Commission), in coordination with specified agencies, to develop a strategic plan for offshore wind energy developments installed off the California coast in federal waters, and require the Energy Commission to submit the strategic plan to the Natural Resources Agency and the Legislature on or before June 30, 2023, as specified. Current law requires the Energy Commission, in coordination with relevant state and local agencies, to develop a plan to improve waterfront facilities that could support a range of floating offshore wind energy development activities, as specified. The California Infrastructure Planning Act requires the Governor to annually submit a 5-year infrastructure plan to the Legislature in conjunction with the Governor's Budget. Under existing law, "infrastructure" means real property, including land and improvements to the land, structures and equipment integral to the operation of structures, easements, rights-of-way, and other forms of interest in property, roadways, and water conveyances. This bill would amend the definition of "infrastructure" described above to include port infrastructure for offshore wind energy development, and would require the 5-year infrastructure plan to include, beginning in the 2026-27 fiscal year, an assessment of funding needs for port infrastructure for offshore wind energy development.

Summary: Current law establishes the Geologic Energy Management Division in the Department of Conservation, under the direction of the State Oil and Gas Supervisor, who is required to supervise the drilling, operation, maintenance, and abandonment of oil and gas wells, as provided. Current law requires the operator of any idle well to either (1) no later than May 1 of each year, for each idle well that was an idle well at any time in the last calendar year, file with the supervisor an annual fee according to a specified schedule of fees based on the length of time a well has been idle, or (2) file a plan with the supervisor to provide for the management and elimination of all long-term idle wells. Current law also establishes the Hazardous and Idle-Deserted Well Abatement Fund in the State Treasury for the deposit of those idle well fees, and continuously appropriates moneys in the fund to the department for expenditure to mitigate a hazardous or potentially hazardous condition, by well plugging and abandonment, decommissioning the production facilities, or both, at a well of an operator, as provided. Current law establishes requirements that apply when a public entity is required by statute or regulation to obtain an enforceable commitment that a bidder, contractor, or other entity will use a skilled and trained workforce to complete a contract or project, as provided. This bill would require the department to make available at least 25% of the funds to be expended each year from the Hazardous and Idle-Deserted Well Abatement Fund to a county in which there are at least 100 orphaned or deserted oil and gas wells and that attests to the department that it can plug and abandon those wells more quickly than the department can, as provided.

AB 3025 (Valencia D) County employees' retirement: disallowed compensation: benefit adjustments.

Current Text: Amended: 8/13/2024 [html](#) [pdf](#)

Status: 8/13/2024-Read third time and amended. Ordered to second reading.

Location: 8/13/2024-S. SECOND READING

Summary: The California Public Employees' Pension Reform Act of 2013 (PEPRA) generally requires a public retirement system, as defined, to modify its plan or plans to comply with the act. PEPRA, among other things, establishes new defined benefit formulas and caps on pensionable compensation. The County Employees Retirement Law of 1937 (CERL) authorizes counties to establish retirement system pursuant to its provisions in order to provide pension benefits to their employees. CERL generally vests management of each retirement system in a board of retirement. CERL authorizes a board of retirement to correct errors in the calculation of a retired member's monthly allowances or other benefits under CERL in certain circumstances, including if the member caused their final compensation to be improperly increased or otherwise overstated at the time of retirement, and the system applied that overstated amount as the basis for calculating the member's monthly retirement allowance or benefits under CERL, subject to certain limitations. The Public Employees' Retirement Law (PERL) also authorizes its board of administration to adjust retirement payments due to errors or omissions, including for cases in which the retirement systems that the benefits of a member or annuitant are, or would be, based on disallowed compensation that conflicts with PEPRA and other specified laws and is thus impermissible. This bill would require a retirement system established under CERL, upon determining that the compensation reported for a member is disallowed compensation, to require the employer, as defined, to discontinue reporting the disallowed compensation. The bill would require, for an active member, the retirement system to credit all employer contributions made on the disallowed compensation against future contributions to the benefit of the employer that reported the disallowed compensation, and return any member contribution paid by, or on behalf of, that member, to the member directly or indirectly through the employer that reported the disallowed compensation, except in certain circumstances in which a system has already initiated a process, as defined, to recalculate compensation. The bill would require the system, for a retired member, survivor, or beneficiary whose final compensation was predicated upon the disallowed compensation, to credit the employer contributions made on the disallowed compensation against future contributions, to the benefit of the employer that reported the disallowed compensation, to return any member contributions paid by, or on behalf of, that member, to the member directly, and to permanently adjust the benefit of the affected retired member, survivor, or beneficiary to reflect the exclusion of the disallowed compensation. The bill would establish other conditions required to be satisfied with respect to a retired member, survivor, or beneficiary when final compensation was predicated upon disallowed compensation, including, among others, requiring a specified payment to be made by the employer that reported contributions on the disallowed compensation to the retired member, survivor, or beneficiary, as appropriate.

Status: 8/6/2024-Read second time. Ordered to third reading.

Location: 8/6/2024-S. THIRD READING

Summary: The Employee Housing Act generally regulates employee housing, as defined. Among other things, the act authorizes a development proponent to submit an application for a development that is subject to a streamlined, ministerial process, as specified, and is not subject to a conditional use permit if certain requirements are met, including that the development is located on land designated as agricultural in the applicable city or county general plan, and that the development is an eligible agricultural employee housing development. The act defines eligible agricultural housing development as, among other things, an agricultural employee housing development that consists of no more than 36 units or spaces designed for use by a single family or household and is not ineligible for state funding under a provision that prohibits state funding from being provided to an employer who employs at least one H-2A worker, as specified. This bill would additionally authorize a development proponent to submit an application for a development that would subject to the above-described conditions, if the development is located on land in the County of Santa Clara or the County of Santa Cruz that is within 15 miles of an area designated as farmland or grazing by the Department of Conservation and is not a site or adjoined to a site where more than 1/3 of the square footage on the site is dedicated to industrial use, as specified. The bill would also increase the maximum number of units in an eligible agricultural employee housing development from 36 units to 150 units if the development is located with the County of Santa Clara or the County of Santa Cruz.

Location: 8/12/2024-A. ENROLLMENT

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA exempts from its requirements the adoption of an ordinance by a city or county to issue a zoning variance, special use permit, or conditional use permit for a dwelling unit to be constructed, or which is attached to or detached from, a primary residence on a parcel zoned for a single-family residence, as provided, or an the adoption of an ordinance to provide for the creation of accessory dwelling units in areas zoned to allow single-family or multifamily dwelling residential use. This bill would expand the above CEQA exemption to include the adoption of an ordinance by a city or county to provide for the creation of junior accessory dwelling units in single-family residential zones.

Summary: Would, commencing July 31, 2025, require a manufacturer of autonomous vehicles to report to the Department of Motor Vehicles (DMV) a vehicle collision, traffic citation, or disengagement, as defined, that occurs when a manufacturer's vehicle is operating in autonomous mode in California regardless of whether the vehicle is in the testing or deployment phase. The bill would require these reports to contain specified information and to be submitted at the time the incident is identified by the manufacturer. The bill would require these reports to be submitted on timelines adopted by the DMV that do not exceed reporting deadlines required by the federal National Highway Traffic Safety Administration. The bill would additionally require a manufacturer to submit quarterly reports to the department that summarize the above-mentioned reports, vehicle miles traveled, unplanned stops, certain traffic violations, and wheelchair-accessible services, as specified. The bill would require the DMV to publish all reports submitted pursuant to these provisions in an electronic, open, and machine-readable format on the department's internet website within 30 days of receipt, as specified. The bill would authorize the DMV to suspend or revoke the testing and deployment permit of any manufacture while an investigation of any violations is pending.

Summary: Current law requires a magistrate to issue a warrant or order authorizing a peace officer to immediately seize and cause the removal of a vehicle if the magistrate is presented with a peace officer's affidavit establishing reasonable cause to believe that the vehicle was an instrumentality used in the peace officer's presence in violation of specified offenses, including, among others, a person who, while operating a motor vehicle and with the intent to evade, willfully flees or otherwise attempt to elude a pursuing peace officer's motor vehicle. Current law makes it a crime for a person to engage in a motor vehicle speed contest or exhibition of speed on a highway or in an offstreet parking facility, as specified. This bill would include this crime in the list of offenses for which a peace officer may impound a vehicle pursuant to a warrant or order issued by a magistrate, and make other technical

changes, as specified.

Summary: The Planning and Zoning Law requires a city or county to adopt a general plan for land use development that includes, among other things, a housing element. That law defines various terms for purposes of requirements applicable to the housing element. Under current law, a housing element is required to include specified information, including an analysis of special housing needs, such as those of the elderly, and quantification of the locality's existing and projected housing needs for all income levels, including extremely low income households, calculated as provided. This bill would define acutely low, extremely low, very low, lower, moderate, and above moderate income for purposes of requirements applicable to the housing element, and would make related changes.

Location: 8/12/2024-A. CONCURRENCE

Summary: Current law, commonly referred to as the Density Bonus Law, requires a city or county to provide a developer that proposes a housing development, as defined, within the city or county with a density bonus and other incentives or concessions, as specified, if the developer agrees to construct, among other options, 20% of the total units, as defined, for lower income students in a student housing development that meets certain requirements. Current law requires that all units in the student housing development be used exclusively for undergraduate, graduate, or professional students enrolled full time at an institution of higher learning, as specified. To be eligible under this provision, current law requires a developer, as a condition of receiving a certificate of occupancy, provide evidence to the city, county, or city and county that the developer has entered into an operating agreement or master lease with one or more institutions of higher education, as specified.

Attachment: Legislative Tracking Bill Report (Legislative Tracking Report)

Current law also requires the development to provide priority for the applicable affordable units for lower income students experiencing homelessness, as specified. Current law requires units described in these provisions to be subject to a recorded affordability restriction of 55 years. This bill would define "student housing development" to mean a development that contains bedrooms containing 2 or more bedspaces that have a shared or private bathroom, access to a shared or private living room and laundry facilities, and access to a shared or private kitchen. The bill would authorize units in the student housing development to be used for undergraduate, graduate, or professional students enrolled currently or in the past 6 months in at least 6 units at an institution of higher learning, as specified.

Summary: Current law authorizes the State Water Resources Control Board, on and after January 1, 2024, to issue informational orders pertaining to water production, water use, and water conservation to an urban retail water supplier that does not meet its urban water use objective. Current law authorizes the board, on and after January 1, 2025, to issue a written notice to an urban retail water supplier that does not meet its urban water use objective. Current law authorizes the board, on and after January 1, 2026, to issue a conservation order to an urban retail water supplier that does not meet its urban water use objective. This bill would instead provide that the date the board is authorized to issue informational orders is on or after January 1, 2026, the date to issue a written notice is on or after January 1, 2027, and the date to issue a conservation order is on or after January 1, 2028, respectively.

Status: 8/13/2024-Read second time. Ordered to third reading.

Location: 8/13/2024-S. THIRD READING

Summary: Current law requires a vehicle to display a license plate, issued by the Department of Motor Vehicles, with tabs that indicate the month and year the vehicle registration expires. Existing law requires the department to issue a registration card upon registering a vehicle that includes, among other information, the name of the owner and the vehicle registration number. Current law authorizes the department to establish a program allowing an entity to issue devices as alternatives to the conventional license plates, stickers, tabs, and registration cards, subject to specific requirements that include limitations on how vehicle location technology is used with an alternative device and how an alternative device may display certain specialized license plates. Current law imposes requirements and restrictions on electronic information generated by an alternative device. Commencing January 1, 2027, this bill would modify the limitations on the use of vehicle location technology. The bill would also require the department to submit, by December 31, 2025, a report to the Legislature discussing the state's authority to regulate the content and messaging on license plates. This bill would authorize any vehicle, beginning on January 1, 2027, to be offered an alternative device to a license plate or registration card that includes vehicle location technology.

Status: 5/16/2024-Joint Rule 62(a), file notice suspended. In committee: Held under submission.

Location: 5/15/2024-A. APPR. SUSPENSE FILE

Summary: Current property tax law requires that all property subject to tax be assessed at its full cash value, and includes certain possessory interests among those property interests that are subject to tax. Current property tax law defines a taxable possessory interest to be a use that is independent, durable, and exclusive. Current property tax law specifies, for purposes of the definition of a taxable possessory interest, various types of possession or use that are not considered independent possession or use of land, including when that possession or use is a tenancy in a residential unit of a publicly owned housing project by a low-income household, as specified. This bill would provide, for the 2025-26 fiscal year to the 2029-30 fiscal year, inclusive, that there is no independent or exclusive possession or use of land or improvements if that possession or use is of any infrastructure at a public seaport, as defined, that is newly constructed on or after January 1, 2025, as described, as part of a nonrevenue-generating environmental improvement, as defined. The bill would, among other things, deem the construction or installation made or used for the operation of any fully automated cargo

handling equipment, as defined, to be independent, durable, and exclusive, as specified.

Summary: Current law establishes a low-income housing tax credit program pursuant to which the California Tax Credit Allocation Committee provides procedures and requirements for the allocation, in modified conformity with federal law, of state insurance, personal income, and corporation tax credit amounts to qualified low-income housing projects that have been allocated, or qualify for, a federal low-income housing tax credit, and farmworker housing. Current law limits the total annual amount of the state low-income housing credit for which a federal low-income housing credit is required to the sum of \$70,000,000, as increased by any percentage increase in the Consumer Price Index for the preceding calendar year, any unused credit for the preceding calendar years, and the amount of housing credit ceiling returned in the calendar year. Current law provides for an additional allocation of \$500,000,000 in low-income housing tax credits for the 2020 calendar year and up to \$500,000,000 for the 2021 calendar year and thereafter. Current law provides that the additional amount for the 2021 calendar year and thereafter is available only if the Budget Act or related legislation specifies an amount available for allocation. This bill would instead require that this additional allocation of low-income housing tax credits be \$500,000,000 for the 2020 calendar year through the 2030 calendar year, and up to \$500,000,000 for the 2031 calendar year and every year thereafter.

Location: 8/5/2024-S. THIRD READING

Summary: Current law prohibits the disclosure of the home addresses of certain public employees and officials that appear in records of the Department of Motor Vehicles, except to a court, a law enforcement agency, an attorney in a civil or criminal action under certain circumstances, and certain other official entities. Current law requires that following termination of office or employment, a confidential home address be withheld from public inspection for 3 years, unless the termination is the result of conviction of a criminal offense. Current law provides that if a termination or separation from office or employment is the result of the filing of a criminal complaint, the confidential home address shall be withheld from public inspection during the time in which the terminated individual may file an appeal from termination, while an appeal from termination is ongoing, and until the appeal process is exhausted. If the termination or separation is upheld, existing law grants employing agencies with discretion to maintain the confidentiality of the terminated individual's home address. This bill would authorize an employing agency to request that the department remove the confidentiality protections described above following the termination of employment if no appeal to the termination is filed or if the termination or separation is upheld. If the terminated individual files an appeal from termination, this bill would require that the individual's home address be withheld from public inspection while the appeal from termination is ongoing and until the appeal process is exhausted.

Status: 8/6/2024-Read second time. Ordered to third reading.

Location: 8/6/2024-S. THIRD READING

Summary: The Mitigation Fee Act imposes various requirements with respect to the establishment, increase, or imposition of a fee by a local agency as a condition of approval of a development project. Current law requires a local agency that imposes a fee on a housing development for the purpose of mitigating vehicular traffic impacts to set the rate for the fee to reflect a lower rate of automobile trip generation if the housing development satisfies specified characteristics, including that the housing development is located within 1/2 mile of a transit station, as specified. Current law defines transit station for these purposes to mean a rail or light-rail station, ferry terminal, bus hub, or bus transfer station. This bill would instead require the housing development to be located within a transit priority area, as specified, for purposes of a local agency setting the rate for a mitigating vehicular traffic impacts fee to reflect a lower rate of automobile trip generation. The bill would define "transit priority area" as an area within 1/2 mile of a major transit stop that is existing or planned, if the planned stop is scheduled to be completed within the planning horizon included in a Transportation Improvement Program or applicable regional transportation plan. This bill would prohibit a local agency from imposing a land dedication requirement, as defined, on a housing development to widen a roadway if the land

dedication requirement is for the purpose of mitigating vehicular traffic impacts, achieving an adopted traffic level of service related to vehicular traffic, or achieving a desired roadway width.

Summary: Current law requires an applicant receiving state funds under the California Wildlife, Coastal, and Park Land Conservation Act to maintain any property acquired in perpetuity, as specified, and use the property only for the purposes stated in the act and to make no other use, sale, or other disposition of the property except as authorized by a specific act of the Legislature. Current law authorizes the County of San Bernardino to sell or exchange property it owns within the Chino Agricultural Preserve that was purchased with grant funds if it meets certain conditions. Among those conditions, current law requires the county to preserve all lands and conservation easements acquired or dedicated as authorized by the act in perpetuity for open-space conservation purposes or agricultural preservation, and specifies that open-space conservation includes community gardens, agricultural heritage projects, agricultural and wildlife education or wildlife habitat. This bill would additionally authorize preservation of those lands or easements for park and recreational purposes, and would explicitly include, to the extent they are consistent with the purposes of the act, playgrounds, recreational venues, sporting venues, amphitheatres, and preservation of historical resources as appropriate purposes.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. This bill would, if certain conditions are met, exempt from the provisions of CEQA the routine maintenance of stormwater facilities that are fully concrete or that have a conveyance capacity of less than a 100-year storm event. The bill would, if the lead agency determines that a project is not subject to CEQA pursuant to these provisions and determines to approve or carry out the project, require the lead agency to file a notice with the State Clearinghouse in the Office of Planning and Research and with the county clerk in the county in which the project will be located, as provided, thereby imposing a state-mandated local program. Because a lead agency would be required to determine whether a project qualifies for this exemption, the bill would impose a state-mandated local program.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. The CEQA exempts certain projects from its requirements, including actions necessary to prevent or mitigate an emergency. Current law prohibits an electrical corporation from beginning the construction of a line, plant, or system, or extensions of those facilities without first having to obtain from the Public Utilities Commission a certificate that the present or future convenience and necessity require or will require the construction. Current law specifies that the certificate is not required for the extension, expansion, upgrade, or other modification of existing electrical transmission facilities. This bill would, for electrical infrastructure projects, as defined, designate the commission as the lead agency for purposes of the CEQA, would require the commission to prescribe procedures for the preparation of the appropriate environmental review document for those projects, and would specify the manner in which the environmental review for those projects is to be conducted. The bill would repeal these provisions on January 1, 2035.

Location: 5/16/2024-A. DEAD

Summary: Current law authorizes the Department of Motor Vehicles to impose a registration fee for vehicles registered for use in California. Existing law imposes penalties for the failure of a person to pay the registration fee. Current law permits the department to suspend, cancel, or revoke the registration of a vehicle when the department determines that the required fee has not been paid. Current law requires, prior to the expiration of the registration of a vehicle, if that registration is not to be renewed prior to its expiration, the owner of the vehicle to file a specified certification that the vehicle will not be operated, moved, or left standing upon a highway without first making an application for registration of the vehicle, including full payment of all fees, except as specified. Current law authorizes certifications to be filed after the expiration of the registration, but not later than 90 days after the expiration date, subject to the payment of specified filing fees and delinquency penalties. This bill would, notwithstanding any law, prohibit a person who is subject to these delinquency penalties and has been determined to have a current income level that meets the eligibility requirements for specified public social services programs, including, among others, the California Work Opportunity and Responsibility to Kids (CalWORKs) program, from being required to pay the delinquency penalty in order to renew the registration of their vehicle.

Summary: The California Constitution authorizes the Legislature, with the approval of 2/3 of the membership of each house, to allow a county board of supervisors to exempt from property taxation those properties having a value too low to justify the costs of assessment and collection. Current property tax law implementing this authority generally limits any exemption granted under this constitutional provision by a county board of supervisors to real property with a total base year value, or personal property with a full value, not exceeding \$10,000, or \$50,000 for lien dates occurring on or after January 1, 2020, and before January 1, 2025, in the case of possessory interests and, in the case of certain possessory interests, for lien dates occurring on or after January 1, 2025. This bill would instead apply the above-described authority for an exemption of \$50,000 to lien dates occurring on or after January 1, 2020, and before January 1, 2030, in the case of possessory interests and, in the case of certain possessory interests, to lien dates occurring on or after January 1, 2030.

Summary: The Motor Vehicle Fuel Tax Law, administered by the California Department of Tax and Fee Administration, imposes a tax upon each gallon of motor vehicle fuel removed from a refinery or terminal rack in this state, entered into this state, or sold in this state, at a specified rate per gallon. Current law requires the department to annually adjust the tax imposed by increasing the rates based on the California Consumer Price Index, as specified. This bill would limit the above-described annual adjustment to a maximum of 2% for rate adjustments made on or after July 1, 2023. This bill contains other related provisions.

Summary: The Planning and Zoning Law requires, for the 4th and subsequent revisions of the housing element, the Department of Housing and Community Development (department) to determine the existing and projected need for housing for each region, as specified. That law requires the department, in consultation with the council of governments, to determine the existing and projected need of housing for each region in a specified manner. That law requires the department's determination to be based upon population projections produced by the Department of Finance, as specified. That law also requires the department to meet and consult with the council of governments regarding the assumptions and methodologies to be used to determine each region's housing need and requires the council of governments to provide data assumptions from the council of governments projections, as specified. That law authorizes the department to accept or reject the information provided by the council of governments and, after consultation with each council of governments, to make determinations on the council of governments' data assumptions and the methodology the department will use to determine each region's housing need. That law requires the department to provide its determinations to each council of governments, as specified. That law, upon making that determination, authorizes the council of governments to object to the determination. This bill, for regions in which the department is required to distribute the regional housing need, would prohibit a city or county from filing an objection to the regional housing need determination.

Summary: Current law creates the Enhanced Fleet Modernization Program to provide compensation for the retirement and replacement of passenger vehicles and light-duty and medium-duty trucks that are high polluters. Existing law requires the Bureau of Automotive Repair to administer the program and the State Air Resources Board to adopt the guidelines for the program. Current law requires the guidelines to ensure vehicle replacement or a mobility option be an option for all motor vehicle owners and may be in addition to compensation for vehicles retired. Current law creates the Enhanced Fleet Modernization Subaccount in the High Polluter Repair or Removal Account and makes available, upon appropriation, all moneys in the account to establish, implement, and administer the program. This bill would require the guidelines to ensure each replacement vehicle in the program be either a plug-in hybrid or zero-emission vehicle unless the state board makes a specified determination in consultation with the State Energy Resources Conservation and Development Commission, as specified.

Summary: The Knox-Keene Health Care Service Plan Act of 1975 provides for the licensure and regulation of health care service plans by the Department of Managed Health Care, and makes a willful violation of the act a crime. Current law provides for the regulation of disability insurers by the Department of Insurance. Current law establishes the Independent Medical Review System within each department, under which an enrollee or insured may seek review if a health care service has been denied, modified, or delayed by a health care service plan or disability insurer and the enrollee or insured has previously filed a grievance that remains unresolved after 30 days. This bill, commencing January 1, 2026, would require a health care service plan or a disability insurer that upholds its decision to modify, delay, or deny a health care service in response to a grievance or has a grievance that is otherwise pending or unresolved upon expiration of the relevant timeframe to automatically submit within 24 hours a decision regarding a disputed health care service to the Independent Medical Review System, as well as the information that informed its decision, if the decision is to deny, modify, or delay specified services relating to mental health or substance use disorder conditions for an enrollee or insured up to 26 years of age. The bill would require a health care service plan or disability insurer, within 24 hours after submitting its decision to the Independent Medical Review System to

SB 308 (Becker D) Net zero greenhouse gas emissions goal: carbon dioxide removal: regulations.

Current Text: Amended: 7/8/2024 [html](#) [pdf](#)

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: The California Global Warming Solutions Act of 2006 requires the state board to approve a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020 and to ensure that statewide greenhouse gas emissions are reduced to at least 40% below the 1990 level by 2030. The act authorizes the state board to adopt a regulation that establishes a system of market-based declining annual aggregate emissions limits for sources or categories of sources that emit greenhouse gases, applicable from January 1, 2012, to December 31, 2030, inclusive, as specified. The act authorizes the state board to include in its regulation of those emissions the use of market-based compliance mechanisms. The act requires the state board to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas emissions and to update the scoping plan at least once every 5 years. Current law requires the state board, as part of its scoping plan, to establish specified carbon dioxide removal targets for 2030 and beyond. The act also declares the policy of the state both to achieve net zero greenhouse gas emissions as soon as possible, but no later than 2045 and achieve and maintain net negative greenhouse gas emissions thereafter, and to ensure that by 2045, statewide anthropogenic greenhouse gas emissions are reduced to at least 85% below the 1990 levels. This bill would require the state board to develop and adopt regulations, or utilize existing programs and regulations, to ensure the state achieves carbon dioxide removals equivalent to at least 100% of statewide greenhouse gas emissions in calendar year 2045, and all subsequent years, in order to achieve the net zero and net negative greenhouse gas emissions goals. As part of those efforts, the bill would require the state board to establish separate interim targets for greenhouse gas emissions reductions and carbon dioxide removals, to be applicable beginning no later than calendar year 2030, and to report on progress toward achieving those targets.

This bill would also exempt from the requirements of the Subdivision Map Act, the leasing of, or the granting of an easement to, a parcel of land or any portion of the land in conjunction with a hydrogen fueling station or an electric vehicle charging station, as those terms are defined, if the project is subject to discretionary action by the advisory agency or legislative body.

Summary: Current law establishes the Code Enforcement Incentive Program pursuant to which the Department of Housing and Community Development, upon appropriation by the Legislature, makes funds available as matching grants to cities, counties, and cities and counties that operate local building enforcement programs for more than 3 years, as specified. Current law requires the recipient city, county, or city and county to provide a cash or in-kind local match of at least 25% in the first year, 50% in the 2nd year, and 75% in the 3rd year, and limits the maximum grant to a single recipient under the program to \$1,000,000. Current law requires grant recipients to submit a report to the department on the expanded code enforcement efforts, among other things. Current law requires the department to summarize the reports and transmit the reports to the Legislature within 6 months after the grant recipient's submission date. Current law requires the department to award grants under the program on a competitive basis, based on criteria weighted for specified applicants, including local government

applicants that propose to identify and prosecute owners with habitual, repeated, and multiple code violations that have remained unabated beyond the period required for abatement. This bill would revise the cash or in-kind local match requirement, described above, to instead require a recipient city, county, or city and county to match at least 35% of the funds awarded over 3 years. The bill would increase the maximum grant to a single recipient under the program from \$1,000,000 to \$2,000,000, and require the department to adjust that amount for inflation at least once every 5 years.

Location: 7/3/2024-A. THIRD READING

Summary: Current law provides that in a civil action brought by a plaintiff to challenge a housing development project that meets or exceeds the requirements for low- or moderate-income housing, a defendant may seek an order requiring the plaintiff to furnish an undertaking as security for costs and damages that may be incurred by the defendant if the bringing of the action or seeking by the plaintiff of particular relief, including injunctive relief, would result in a delay in carrying out the development project. Current law requires this motion to be made on the grounds that (1) the action was brought in bad faith, vexatiously, to delay or thwart the low- or moderate-income nature of the housing development project and (2) the plaintiff will not suffer undue economic hardship by filing the undertaking. If the court determines, after hearing, that the grounds for the motion have been established, current law requires the court to order the plaintiff to file an undertaking that may not exceed \$500,000 as security for the defendant's costs and damages. This bill would require the motion described above to be made solely on the ground that the action was brought in bad faith, vexatiously, for the purpose of delay, or to thwart the low- or moderate-income nature of the housing development project. The bill would permit the plaintiff, in responding to the motion, to seek to limit the amount of the undertaking by presenting evidence that filing the undertaking will cause the plaintiff to suffer undue economic hardship.

Summary: The Planning and Zoning Law requires each county and each city to adopt a comprehensive, long-term general plan for the physical development of the county or city, and specified land outside its boundaries, that includes specified mandatory elements, including a housing element. Current law also establishes a planning agency in each city and each county with the powers necessary to carry out the Planning and Zoning Law. Current law requires the housing element to include, among other things, an inventory of land suitable and available for residential development. For a housing element or amendment adopted on or after January 1, 2021, existing law requires the planning agency to submit to the Department of Housing and Community Development an electronic copy of its inventory, as specified. Existing law requires a county or city to submit each revision or amendment of its housing element to the department promptly following adoption of the revision or amendment and requires the department, within 90 days, to review the adopted housing element or amendment and report its findings to the planning agency. This bill would expand the requirement to submit an electronic copy of the above-described inventory to the department to additionally require the planning agency to submit a housing element or amendment prepared on or after January 1, 2021

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires specified public agencies, including air pollution control districts and air quality management districts, to perform, at the time of adoption of a rule or regulation requiring the installation of pollution control equipment or a performance standard or treatment requirement, an environmental analysis of the reasonably foreseeable methods of compliance. This bill would also require those specified public agencies, at the time of adoption of a rule or regulation requiring the reduction in emissions of greenhouse gases, criteria air pollutants, or toxic air contaminants, to perform an environmental analysis of the reasonably foreseeable methods of compliance.

Location: 9/14/2023-A. 2 YEAR

Summary: Current law requires a proposed housing development containing no more than 2

residential units within a single-family residential zone to be considered ministerially, without discretionary review or hearing, if the proposed housing development meets certain requirements, including that the proposed housing development does not allow for the demolition of more than 25% of the existing exterior structural walls, except as provided. Current law authorizes a local agency to impose objective zoning standards, objective subdivision standards, and objective design standards, as defined, except as specified, on the proposed housing development. Current law authorizes a local agency to deny a proposed housing development if specified conditions are met, including that the building official makes a written finding that the proposed housing development project would have a specific, adverse impact upon public health and safety or the physical environment, as provided. This bill would remove the requirement that a proposed housing development does not allow for the demolition of more than 25% of the existing exterior structural walls to be considered ministerially. The bill would prohibit a local agency from imposing objective zoning standards, objective subdivision standards, and objective design standards that do not apply uniformly to development within the underlying zone, but would specify that these provisions do not prohibit a local agency from adopting or imposing objective zoning standards, objective subdivision standards, and objective design standards on the development if the standards are more permissive than applicable standards within the underlying zone. The bill would remove the authorization for a local agency to deny a proposed housing development if the building official makes a written finding that the proposed housing development project would have a specific, adverse impact upon the physical environment. The bill would require the local agency to consider and approve or deny the proposed housing development application within 60 days from the date the local agency receives the completed application, and would deem the application approved after that time.

Location: 2/1/2024-S. DEAD

Summary: The Costa-Hawkins Rental Housing Act prescribes statewide limits on the application of local rent control with regard to certain properties. The act generally authorizes an owner of residential real property to establish the initial rental rate for a dwelling or unit, except in specified circumstances, including, (1) when the residential real property has a certificate of occupancy issued after February 1, 1995, (2) when the residential real property has already been exempt from the residential rent control ordinance of a public entity on or before February 1, 1995, pursuant to a local exemption for newly constructed units, and (3) when the residential real property is alienable and separate from title to any other dwelling units, except as specified. This bill would instead authorize an owner of residential real property to establish the initial rental rate for a dwelling or unit when the residential real property has been issued a certificate of occupancy within the 28 years preceding the date on which the owner seeks to establish a rental rate under these provisions, except as specified for dwellings or units exempt from the residential rent control ordinance of a public entity on or before February 1, 1995, pursuant to a local exemption for newly constructed units.

Summary: Would require the Energy Commission to create a program to award grants to facilitate electric vehicle sharing services, as defined, operated at affordable housing facilities, as defined. The bill would specify the eligible entities that may be awarded grants pursuant to the program, and would require those eligible entities to submit an application to the Energy Commission, as specified. The bill would require the Energy Commission to consider specified criteria in awarding grants and would require a grant recipient to only use grant funds for specified purposes to facilitate an electric vehicle sharing service operated at an affordable housing facility. The bill would require that a grant recipient, at a minimum, purchases, or commits to purchase, 2 electric vehicles and 2 electric vehicle charging stations with Level 2 electric vehicle service equipment. The bill would provide that a grant recipient may be eligible to purchase up to 2 direct current fast chargers if the grant recipient meets specified requirements. The bill would require, as a condition of receiving a grant, a grant recipient to annually submit a report to the Energy Commission that includes specified information. The bill would require implementation of the program to be subject to an appropriation of funds by the Legislature for purposes of developing and implementing the program.

Summary: Current law allows a local authority to establish parking meter zones and fix the rate of fees for those zones by ordinance. Current law prohibits a local authority from requiring payment of parking meter fees by a mobile device, as specified. This bill would instead authorize, in the City and County of San Francisco, a local authority to require payment of parking fees by a mobile device, if it meets certain requirements, such as adopting an accessible and equitable parking cash payment plan that does not utilize parking meters or payment centers in parking payment zones to provide reasonably accessible alternative means for payment of parking fees using cash. The bill would also authorize the local authority in the City and County of San Francisco to operate the above-described parking zone, for 5 years following the creation of the first zone, or until January 1, 2033, whichever is sooner.

Location: 8/6/2024-A. G.O.

Summary: Current law provides for various memorials and monuments on the grounds of the State Capitol. Existing law requires the Department of General Services to maintain state buildings and grounds. The Apology Act for the 1930s Mexican Repatriation Program, makes findings and declarations regarding the unconstitutional removal and coerced emigration of United States citizens and legal residents of Mexican descent, between the years 1929 and 1944, to Mexico from the United States during the 1930s "Mexican Repatriation" Program. Current law expresses the apology of the State of California to those individuals who were illegally deported and coerced into emigrating to Mexico and requires that a plaque to commemorate those individuals be installed and maintained by the Department of Parks and Recreation in an appropriate public place in the City or County of Los Angeles. This bill would authorize a nonprofit organization representing Mexican Americans or Mexican immigrants to enter into a memorandum of understanding to plan, construct, and maintain a memorial to Mexican Americans and Mexican immigrants who were forcibly deported from the United States during the Great Depression, as provided. The bill would require the memorial to be located at an appropriate public place in the City or County of Los Angeles. The bill would require the nonprofit

organization to enter into a memorandum of understanding with either the Department of General Services, if the nonprofit organization proposes to locate the memorial on state property, or the City of Los Angeles or the County of Los Angeles, depending on which local jurisdiction owns the site where the nonprofit organization proposes to locate the memorial.

Summary: Would, by April 30, 2024, require the 22nd District Agricultural Association to execute a legally binding lease of specified parcels of real property to the City of Del Mar for the purposes of constructing a residential development that provides at least 61 units that are affordable to lower income households. The bill would provide that the rent for a lease executed pursuant to these provisions be \$1 per year and would authorize the City of Del Mar to sublease the real property to a private entity for the purpose of developing and constructing the affordable housing units. The bill would authorize the lease to include a requirement that a minimum percentage of the units constructed be reserved for employees of the 22nd District Agricultural Association, provided that no more than 10% are reserved for those employees. The bill would provide that the lease not be subject to the approval of the Department of General Services. By requiring the City of Del Mar to execute a lease with the 22nd District Agricultural Association, the bill would impose a state-mandated local program.

Location: 1/18/2024-S. DEAD

Summary: Current law provides that the California Environmental Quality Act (CEQA) does not apply to an action taken by a public agency to lease, convey, or encumber land owned by a public entity or to facilitate the lease, conveyance, or encumbrance of land owned by a public agency, or to provide financial assistance to, or otherwise approve, a Low Barrier Navigation Center constructed or allowed by existing law. CEQA does not apply to the ministerial approval of projects. Current law prescribes requirements for notifying a developer that its application for a Low Barrier Navigation Center development is complete and for the local jurisdiction to complete its review of the application. Current law declares that Low Barrier Navigation Center developments are essential tools for alleviating the homelessness crisis in this state and are a matter of statewide concern and thus applicable to charter cities. Current law repeals these provisions as of January 1, 2027. This bill would additionally require an opportunity housing project, as defined, to be a use by right if the project has a housing transition

plan for a situation when the parcel on which the project is located is no longer suitable for opportunity housing projects, as specified. The bill would also expand use by right to include sites used pursuant to Executive Order No. N-23-20 and areas zoned for medical use or faith-based use. The bill would provide that these provisions do not apply to an opportunity housing project located on a site in a nonresidential zone unless the site is located near amenities and services that serve people experiencing homelessness, as specified. The bill, by authorizing additional developments to be a use by right under certain circumstances, would expand the exemption for the ministerial approval of projects under CEQA.

Location: 1/18/2024-S. DEAD

Summary: Current law designates the State Air Resources Board as the state agency with the primary responsibility for the control of vehicular air pollution and the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. Current law imposes various requirements related to transportation planning, including a requirement that certain transportation planning agencies prepare and adopt regional transportation plans directed at achieving a coordinated and balanced regional transportation system. Current law requires each regional transportation plan to include, among other things, a sustainable communities strategy prepared by each metropolitan planning organization, as specified, which is designed to achieve certain targets for 2020 and 2035 established by the state board for the reduction of greenhouse gas emissions from automobiles and light trucks in the region. This bill would require the state board, in consultation with the Office of Planning and Research and the Department of Transportation, to develop a methodology for assessing and spatially representing light-duty vehicle miles traveled and to develop maps accordingly to display average light-duty vehicle miles traveled per capita in the state at the local, regional, and statewide level, as provided. The bill would require the state board to adopt the methodology no later than January 1, 2025, and to publish the maps no later than 6 months after the methodology is adopted. The bill would require the state board to update the methodology and maps at least once every 4 years.

Summary: The California Coastal Act of 1976 requires the issuance of a coastal development permit if the proposed development is in conformity with the certified local coastal program. The act provides for the certification of local coastal programs by the California Coastal Commission. This bill would provide that an application by a local government to convert an existing motorized vehicle travel lane into a dedicated bicycle lane, dedicated transit lane, or a pedestrian walkway shall not require a traffic study for the processing of either a coastal development permit or an amendment to a local coastal program. The bill would require, if a proposal to convert an existing motorized vehicle travel lane into a dedicated bicycle lane, dedicated transit lane, or a pedestrian walkway within the developed portion of an existing road right-of-way requires an amendment to a local coastal program, that the amendment be processed in accordance with the procedures applicable to de minimus local coastal program amendments if the executive director of the commission makes specified determinations.

Status: 7/2/2024-July 2 set for first hearing. Placed on suspense file.

Location: 7/2/2024-A. APPR. SUSPENSE FILE

Summary: Current law requires the Office of Planning and Research to prepare, develop, and transmit to the Secretary of the Natural Resources Agency for certification and adoption proposed revisions to guidelines establishing criteria for determining the significance of transportation impacts of projects within transit priority areas to promote the reduction of greenhouse gas emissions, the development of multimodal transportation networks, and a diversity of land uses. Current law establishes the Transportation Agency in state government with various duties and responsibilities. The agency is under the supervision of the Secretary of Transportation, who has the power of general supervision over specified departments and offices, including the Department of Transportation. This bill would require the Transportation Agency, in consultation with local governments and other interested parties as specified, by January 1, 2028, and subject to an appropriation by the Legislature for this purpose, to conduct and post on its internet website a study on how vehicle miles traveled is used as a metric for measuring transportation impacts pursuant to the California Environmental Quality Act (CEQA). The bill would require the study to include, among other things, an analysis of the differences in the availability and feasibility of mitigation measures for vehicle miles traveled in rural, suburban, and urban areas. The bill would repeal those provisions on January 1, 2029.

Status: 2/29/2024-Re-referred to Com. on RLS. pursuant to Assembly Rule 96.

Location: 2/29/2024-A. RLS.

Summary: Current law authorizes the legislative body of a city or a county to adopt ordinances establishing requirements for parking, and permits variances to be granted from the parking requirements of a zoning ordinance for nonresidential development if the variance will be an incentive to the development and the variance will facilitate access to the development by patrons of public transit facilities. Current law prohibits a public agency from imposing any minimum automobile parking requirement on any residential, commercial, or other development project, as defined, that is located within 1/2 mile of public transit, as defined. Current law, notwithstanding the above-described prohibition, authorizes a city, county, or city and county to impose or enforce minimum automobile parking requirements on a housing development project if specified conditions are met. Current law authorizes a local authority to authorize preferential parking for designated groups to park on specified streets if the local authority determines that use of the permits will not adversely affect parking conditions for residents and merchants in the area. This bill would prohibit a local authority from issuing any permit conferring preferential parking privileges to any residents or vendors of any developments within 1/2 mile of public transit and exempt from parking minimums. The bill would require the local authority to revise the boundaries of any such preferential parking district to exclude those developments from its boundaries. The bill would make related findings and declarations, and state that it is the intent of the Legislature to discourage car use by incentivizing development near public transit.

Summary: Current law requires all contracts for the acquisition of information technology goods and services related to information technology projects, as defined, to be made by or under the supervision of the Department of Technology. Current law requires all other contracts for the acquisition of information technology goods or services to be made by or under the supervision of the Department of General Services. Under current law, both the Department of Technology and the Department of General Services are authorized to delegate their authority to another agency, as specified. The California Consumer Privacy Act of 2018 (CCPA), as amended, establishes the California Privacy Protection Agency with full administrative power, authority, and jurisdiction to implement and enforce the CCPA. This bill would require the Department of Technology to develop and adopt regulations to create an automated decision tool (ADT) procurement standard, following the adoption of specified regulations by the California Privacy Protection Agency or the enactment of comprehensive ADT legislation, whichever occurs sooner. To develop those regulations, the bill would require the department to consider principles and industry standards addressed in specified publications regarding AI risk management. The bill would require the ADT procurement standard to include, among other things, a detailed risk assessment procedure that analyzes specified characteristics of the ADT, methods for appropriate risk controls, as provided, and adverse incident monitoring procedures.

Summary: Current law requires the Department of Corrections and Rehabilitation to ensure that specified procedures are performed in the investigation and prosecution of sexual abuse incidents, including, among others, that an employee must be terminated if an investigation confirms that the employee sexually abused an inmate. Current law requires administrators to report criminal sexual abuse by staff to law enforcement authorities. This bill would require the department or a county correctional facility or jail to monitor for 90 days an incarcerated person who reports sexual abuse, and the incarcerated person reported to have suffered the abuse, by a staff person at a department facility or a county correctional facility or jail for possible retaliation. The bill would require a referral by the warden within 72 hours for investigation by the department’s Office of Internal Affairs or, in the case of a county correctional facility or jail, their oversight agency, if specified retaliation occurs. The bill would make any act of retaliation against an incarcerated person who has made a complaint of sexual abuse by a staff person at a department facility or a county correctional facility or jail prima facie evidence that the abuse occurred and would create a rebuttable presumption in any subsequent court proceeding or administrative proceeding regarding the abuse.

The bill would specify the criteria and procedures for determining whether the use of PFAS in a product is a currently unavoidable use, for renewing that determination, and for revoking that determination. The bill would require the department to maintain on its internet website a list of each determination of currently unavoidable use, when each determination expires, and the products and uses that are exempt from the prohibition. The bill would impose an administrative penalty for a violation of the prohibition, as specified. The bill would establish the PFAS Penalty Account and require all administrative penalties received to be deposited into that account and, upon appropriation by the Legislature, to be used for the administration and enforcement of these provisions, as specified.

Summary: Current law authorizes an autonomous vehicle, as defined, to be operated on public roads

Attachment: Legislative Tracking Bill Report (Legislative Tracking Report)

for testing purposes by a driver who possesses the proper class of license for the type of vehicle being operated if certain requirements are met, including that the vehicle is being operated solely by employees, contractors, or other persons designated by the manufacturer. Current law prohibits an autonomous vehicle from being operated on public roads until the manufacturer submits an application to the Department of Motor Vehicles containing certain certifications regarding safety and other technological requirements and the department approves that application pursuant to adopted regulations. Current law, commencing January 1, 2030, and to the extent authorized by federal law, prohibits the operation of certain new autonomous vehicles that are not zero-emission vehicles, as defined. This bill would authorize a city with a population of 250,000 or greater that an autonomous vehicle service, as defined, has received authorization by the Department of Motor Vehicles, the Public Utilities Commission, or any other applicable state agency to operate, to protect the public health, safety, and welfare by enacting an ordinance in regard to autonomous vehicle services within that jurisdiction. The bill would require each city that enacts an ordinance to include certain provisions within that ordinance. These would include a policy for entry into the business of providing autonomous vehicle services including a permitting program that includes, among other things, the establishment of reasonable vehicle caps and hours of service restrictions. The bill would authorize a city with a population of less than 250,000 that shares a border or is contiguous to a city that has enacted an autonomous vehicle services ordinance to enact an ordinance substantially consistent with that autonomous vehicle services ordinance.

Summary: Current law requires a landlord of an assisted housing development, as defined, to offer tenants obligated on the lease of units in the development the option of having their rental payments reported to at least one consumer reporting agency through a written election of rent reporting, as specified. Existing law authorizes a landlord to charge a tenant that elects to have rent reported the lesser of \$10 per month or the actual cost to the landlord to provide the service, as specified. Current law requires the Department of Financial Protection and Innovation to select an independent evaluator and requires the evaluator to report annually on the impact of these provisions, as specified. Current law repeals these provisions on January 1, 2025. This bill would permit a landlord, upon the agreement of the tenant, to provide the offer of rent reporting to the tenant by first-class United States mail or email.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Under current law, knowingly buying or receiving stolen property or property that has been obtained in any manner constituting theft or extortion, as specified, is punishable as either a misdemeanor or a felony if the value of the property exceeds \$950. Current law authorizes a local authority to, by ordinance or resolution, adopt requirements regulating the time, place, and manner of sidewalk vending if the requirements are directly related to objective health, safety, or welfare concerns. Current law prohibits a local authority from regulating sidewalk vendors, except in accordance with certain provisions. This bill, until January 1, 2030, would authorize the City and County of San Francisco to adopt an ordinance prohibiting the sale of specified merchandise on public property without a permit, if the ordinance includes specified written findings, including, among other things, that there has been a significant pattern of merchandise being the subject of retail theft and then appearing for sale on public property within the City and County of San Francisco. The bill would require an ordinance adopted by the City and County of San Francisco to, among other things, identify a local permitting agency that is responsible for administering a permit system. The bill would authorize the ordinance to provide that selling merchandise without a permit is punishable as an infraction, and that subsequent violations after 2 prior convictions is an infraction or a misdemeanor punishable by

imprisonment in the county jail not exceeding 6 months. By creating a new crime, the bill would impose a state-mandated local program.

Location: 5/16/2024-S. DEAD

Summary: Existing law imposes renewal fee penalties for late payment of vehicle registration except in limited specified cases. Existing law authorizes the Department of Motor Vehicles to waive the registration penalties accrued before the purchase of a vehicle upon payment for the fees for registration due, if the transferee or purchaser was not aware that the fees were unpaid. Existing law also authorizes the department to waive the registration fees that became due before the purchase of the vehicle if the transferee or purchaser was not aware that the fees were unpaid and the license plate assigned to the vehicle displays a validating device issued by the department that contains the year number of the registration year for which the transferee or purchaser is requesting a waiver of fees. Existing law further provides that these unpaid fees and penalties are the personal debt of the transferor of the vehicle and may be collected by the department in an appropriate civil action if the department has waived the fees and penalties. This bill would instead require the department to waive delinquent registration fees and penalties when a transferee or purchaser of a vehicle applies for a transfer of registration if the department determines that the fees became due or the penalties accrued before the purchase of the vehicle. The bill would require the department to create a system to collect these delinquent fees and penalties from the seller or transferor. The bill would repeal the provision authorizing the department to collect the waived fees and penalties in a civil action. These provisions would become operative on January 1, 2028.

Status: 8/8/2024-Read second time. Ordered to third reading.

Location: 8/8/2024-A. THIRD READING

Summary: The Planning and Zoning Law requires each county and each city to adopt a comprehensive, long-term general plan for its physical development, and the development of specified land outside its boundaries, that includes, among other mandatory elements, a housing element. The Permit Streamlining Act, among other things, requires a public agency that is the lead agency for a development project to approve or disapprove that project within specified time periods. Current law extended by 18 months the period for the expiration, effectuation, or utilization of a housing entitlement, as defined, that was issued before, and was in effect on, March 4, 2020, and that would expire before December 31, 2021, except as specified. Current law provides that if the state or a local agency extended the otherwise applicable time for the expiration, effectuation, or utilization of a housing entitlement for not less than 18 months, as specified, that housing entitlement would not be extended an additional 18 months pursuant to these provisions. This bill would extend by 24 months the period for the expiration, effectuation, or utilization of a housing entitlement for a priority designated residential development project, as those terms are defined, that was issued before January 1, 2024, and that will expire before December 31, 2025, except as specified. The bill would to this 24-month extension during any time that the housing entitlement is the subject of a legal challenge.

Location: 7/2/2024-A. APPR. SUSPENSE FILE

Summary: The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases. The act requires the state board to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas emissions and to update the scoping plan at least once every 5 years. This bill would require the state board, in its next update to the scoping plan, to include a discussion of industrial sources of emissions of greenhouse gases for which there are zero-emission alternatives currently technologically available and a discussion of industrial sources of emissions of greenhouse gases for which there are no zero-emission alternatives currently technologically available.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current law establishes the State Department of Public Health and sets forth its powers and duties pertaining to, among other things, protecting, preserving, and advancing public health. Current law requires the department, in consultation with specified stakeholders, to develop a plan, addressing specified issues, with recommendations and guidelines for counties to use in the case of a significant air quality event caused by wildfires or other sources. This bill, the Wildfire Smoke and Health Outcomes Data Act, would require the State Department of Public Health, in consultation with the Department of Forestry and Fire Protection and the Wildfire and Forest Resilience Task Force, to create, operate, and maintain a statewide integrated wildfire smoke and health data platform no later than July 1, 2026, that, among other things, would integrate wildfire smoke and health data from multiple databases. Under the bill, the purposes for the data platform would include providing adequate information to understand the negative health impacts on California's population caused by wildfire smoke and evaluating the effectiveness of investments in forest health and wildfire mitigation on health outcomes in California. This bill would require the State Department of Public Health, in consultation with the Department of Forestry and Fire Protection and the Wildfire and Forest Resilience Task Force, to develop, among other things, protocols for data sharing, documentation, quality control, and promotion of open-source platforms and decision support tools related to wildfire smoke and health data.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current law requires a city or county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. Current law requires the housing element to identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, among other things. Current law requires the housing element to contain an assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. Current law requires rezoning, including adoption of minimum density and development standards, as specified, when an inventory of sites does not identify adequate sites to accommodate the need for groups of specified household income levels. This bill would, for a jurisdiction within the coastal zone that has not identified adequate sites to accommodate the locality's housing need for a designated income level, require completion of any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, as specified.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current law requires the Department of Transportation to improve and maintain the state's highways, and establishes various programs to fund the development, construction, and repair of local roads, bridges, and other critical transportation infrastructure in the state, including the state highway operation and protection program (SHOPP). Current law requires the department, in consultation with the California Transportation Commission, to prepare a robust asset management plan to guide selection of projects for the SHOPP. Current law requires the commission, in connection with the plan, to adopt targets and performance measures reflecting state transportation goals and objectives. Existing law requires the department to develop, in consultation with the commission, a plain language performance report to increase transparency and accountability of the SHOPP. This bill would require the targets and performance measures adopted by the commission to include targets and performance measures reflecting state transportation goals and objectives for complete streets assets that reflect the existence and conditions of bicycle, pedestrian, and transit priority facilities on the state highway system. The bill would require the department's plain language performance report to include a description of complete streets facilities, including pedestrian, bicycle, and transit priority facilities on each project, as specified.

Summary: Current law generally authorizes a county tax collector to sell tax-defaulted property 5 years or more, or 3 years or more, as applicable, after that property has become tax defaulted to any

years or more, or 3 years or more, as applicable, after that property has become tax defaulted, to any person, regardless of any prior or existing lien on, claim to, or interest in, the property, as specified. Current law generally authorizes the sale to certain entities of a property that has been tax defaulted for 5 years or more, or 3 years or more, as applicable, in an applicable county, including by authorizing the state, county, any revenue district the taxes of which on the property are collected by county officers, or a redevelopment agency created pursuant to the California Community Redevelopment Law, to purchase the property or any part thereof, as prescribed. Current law also authorizes a nonprofit organization to purchase, with the approval of the board of supervisors of the county in which it is located, a residential or vacant property that has been tax defaulted for 5 years or more, or 3 years or more if the property is subject to a nuisance abatement lien, as prescribed. Current law requires the sales price of a property sold pursuant to the provisions described or referenced above to include certain amounts, including all defaulted taxes and assessments and all associated penalties and costs. This bill would authorize a property or property interest to be offered for sale under the provisions described above authorizing a sale to certain entities that has not been offered for sale under the provisions described above authorizing a sale to any person if the State Board of Equalization conducts a property valuation that shows that the property or property interest is worth less than the amount of the defaulted debt, as specified.

Location: 4/25/2024-S. DEAD

Summary: Current law requires each council of governments or delegate subregion, as applicable, to develop a proposed methodology for distributing the existing and projected regional housing need to cities, counties, and cities and counties within the region or within the subregion, as provided. Current law requires the consideration of several specified factors in developing the methodology. Current law prohibits certain criteria from being a justification for a determination or reduction in a jurisdiction's share of the regional housing need, including prior underproduction of housing in a city or county from the previous regional housing need allocation, as specified. This bill would permit the council of governments or delegate subregion, in developing the methodology, to consider prior overproduction of housing units in a city or county from the previous regional housing need allocation in a particular income category and to count it as credit toward the future regional housing need allocation of that same income category in the next cycle. The bill would provide that the amount eligible to count as credit toward the next cycle is determined by each jurisdiction's most recent annual progress report, as specified.

Status: 7/2/2024-July 2 set for first hearing. Placed on suspense file.

Location: 7/2/2024-A. APPR. SUSPENSE FILE

Summary: The Alcoholic Beverage Control Act contains various provisions regulating the application for, the issuance of, the suspension of, and the conditions imposed upon alcoholic beverage licenses by the Department of Alcoholic Beverage Control. Current law defines "entertainment zone" for purposes of the act as a zone created by ordinance on or after January 1, 2024, in the City and County of San Francisco, that authorizes consumption of one or more types of alcoholic beverages on public streets, sidewalks, or public rights-of-way adjacent to and during a special event permitted or licensed by the department. Current law authorizes the City and County of San Francisco to establish an entertainment zone, subject to certain requirements, including providing specified information relating to the entertainment zone to the department and establishing a process or procedure by which persons in possession of alcoholic beverages in the entertainment zone may be readily identifiable as being 21 years of age or older. This bill would, instead, define "entertainment zone" as a zone created by a city, county, or city and county ordinance on or after January 1, 2025, that authorizes consumption of one or more types of alcoholic beverages on public streets, sidewalks, or public rights-of-way. The bill would additionally authorize any city, county, or city and county to establish an entertainment zone subject to the above-described requirements. Before enacting an ordinance to establish an entertainment zone, the bill would require a city, county, or city and county to notify local law enforcement and request feedback about specific information, including, among others, the entertainment zone's proposed boundaries and days and hours of operation.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: The Lithium Extraction Tax Law imposes a lithium extraction excise tax upon each metric ton of lithium carbonate equivalent extracted from geothermal fluid, spodumene ore, rock, minerals, clay, or any other naturally occurring substance in this state, as specified. Current law requires the California Department of Tax and Fee Administration to administer and collect the tax and requires all collected revenues, less refunds and reimbursement to the department for administrative expenses, to be deposited into the Lithium Extraction Excise Tax Fund and disbursed in the manner prescribed. Current law requires 80% of the moneys in the Lithium Extraction Excise Tax Fund to be disbursed by the Controller to all counties in proportion to the amounts collected for lithium extraction within each county, as specified, and 20% of the moneys to be deposited into the Salton Sea Lithium Fund. This bill would, instead of depositing 20% of the moneys in the Lithium Extraction Excise Tax Fund into the Salton Sea Lithium Fund, deposit 20% of the revenues collected in the County of Imperial into the Salton Sea Lithium Fund, and disburse 20% of the revenues collected in every other county to that county for distribution to communities in that county that are the most impacted by the lithium extraction activities.

Location: 5/16/2024-S. DEAD

Summary: Would require the Public Utilities Commission, on or before July 1, 2026, in a new or existing proceeding, to evaluate and, if just and reasonable, establish a clean energy development incentive rate time-of-use tariff to encourage the development of new commercial or industrial electrical loads that contribute to the state's efforts to reduce the emissions of greenhouse gases. The bill would require the tariff to offer lower rates for customers and to meet specified requirements, including, among other things, that the program only be open to new electrical customers that did not establish service before January 1, 2025, or to existing electrical customers that are expected to increase their total annual electrical demand by more than 50% after beginning service under the tariff. The bill would require that the tariff only be open to customers producing hydrogen using an electrolysis of water or using electricity to provide industrial process heat. The bill would require the tariff to be available to bundled customers of electrical corporations until the tariff meets a statewide limitation of 5,000 megawatts of customer participation.

Summary: Current law authorizes a court to issue a restraining order to a person to prevent abuse, as specified, based on reasonable proof of a past act or acts of abuse. Current law authorizes the order to be issued solely on the affidavit or testimony of the person requesting the restraining order. Current law requires a manufacturer of a connected device to equip the device with a reasonable security feature or features that are appropriate to the nature and function of the device, appropriate to the information it may collect, contain, or transmit, and designed to protect the device and information contained in the device from unauthorized access, destruction, use, modification, or disclosure. This bill would, commencing January 1, 2026, require an account manager, as defined, to terminate or disable a covered device or account access to a perpetrator, as defined, commencing no later than 2 days after a device protection request is submitted to the account manager by a survivor of that perpetrator, and would specify the requirements for a survivor to submit a device protection request and the requirements that an account manager make the request available, subject to specified exceptions. By providing that a survivor may include a copy of a signed affidavit to submit a device protection request, and thus expanding the crime of perjury, this bill would impose a state-mandated local program.

Location: 5/16/2024-S. DEAD

Summary: Would establish the Property Tax Assistance for Descendants of Enslaved Persons Program for purposes of making, upon appropriation by the Legislature, moneys available to persons who meet specified criteria for purposes of providing financial assistance equal to the total amount of property taxes paid on a residential dwelling, as defined, or \$4,000, whichever is less, and as subject to specified limitations. The bill would, for purposes of determining a person's eligibility for moneys under the program, require the person to provide an affidavit, under penalty of perjury, containing specified information, if the residential dwelling is owned by the person on property owned by a nonprofit incorporated association. By expanding the crime of perjury, the bill would impose a state-mandated local program. The bill would require the Franchise Tax Board to develop and administer the program and to provide moneys to eligible claimants. The bill would set forth procedures for administering the program.

Summary: The Public Utilities Act defines "electrical corporation" to include every corporation or person owning, controlling, operating, or managing any electric plant for compensation within this state, except as specified. The act authorizes the Public Utilities Commission to fix the rates and charges for every public utility and requires that those rates and charges be just and reasonable. This bill would revise the definition of "electrical corporation" to exclude a corporation or person employing certain solar or wind generating technology if electricity is transmitted exclusively and directly through private

electrical lines to a single facility owned by a different corporation or person that uses the electricity only for new load, not for departing load, and for an electrolytic hydrogen production facility, as defined, or a facility using the electricity to provide industrial process heat, or both.

Location: 7/3/2024-A. THIRD READING

Summary: The California Fair Employment and Housing Act (FEHA) makes certain discriminatory employment and housing practices unlawful, and authorizes a person claiming to be aggrieved by an alleged unlawful practice to file a verified complaint with the department. The FEHA requires the Civil Rights Department to make an investigation in connection with a filed complaint alleging facts sufficient to constitute a violation of the FEHA, and requires the department to endeavor to eliminate the unlawful practice by conference, conciliation, and persuasion. Existing law defines terms for purposes of these provisions, in connection with unlawful practices, as specified. This bill would define the term "group or class complaint" for these provisions to include any complaint alleging a pattern or practice.

Summary: Current law requires business entities that are marketing or selling voluntary carbon offsets, as defined, within the state, and other entities engaging in specified activities relating to voluntary carbon offsets, to disclose on their internet websites certain information relating to those voluntary carbon offsets, as specified. Under current law, a violation of those disclosure requirements is subject to a civil penalty. This bill would make it unlawful for a person to certify or issue a voluntary carbon offset, to maintain on a registry a voluntary carbon offset, or to market, make available or offer for sale, or sell a voluntary carbon offset if the person knows or should know that the greenhouse gas

reductions or greenhouse gas removal enhancements of the offset project related to the voluntary carbon offset are unlikely to be quantifiable, real, and additional.

SB 1037 (Wiener D) Planning and zoning: housing element: enforcement.

Current Text: Amended: 6/13/2024 [html](#) [pdf](#)

Status: 7/3/2024-Read second time. Ordered to third reading.

Location: 7/3/2024-A. THIRD READING

Summary: The Planning and Zoning Law requires a city or county to adopt a general plan for land use development within its boundaries that includes, among other things, a housing element. The Planning and Zoning Law requires the Department of Housing and Community Development (HCD) to determine whether the housing element is in substantial compliance with specified provisions of that law. The Planning and Zoning Law requires HCD to notify a city, county, or city and county, and authorizes HCD to notify the office of the Attorney General, that the city, county, or city and county is in violation of state law if the local government has taken action in violation of specified provisions of law. The Planning and Zoning Law also requires, among other things, that an application for a housing development be subject to a specified streamlined, ministerial approval process if the development satisfies certain objective planning standards. This bill, in any action brought by the Attorney General, on behalf of HCD or in an independent capacity, to enforce the adoption of housing element revisions, as specified, or to enforce any state law that requires a city, county, or local agency to ministerially approve any planning or permitting application related to a housing development project, as specified, would subject the city, county, or local agency to specified remedies, including a civil penalty of, at minimum, \$10,000 per month, and not exceeding \$50,000 per month, for each violation, as specified. The bill would require that the penalties set forth in its provisions only apply when the local agency's acts or omissions, as described, are arbitrary, capricious, or entirely lacking in evidentiary support, contrary to established public policy, unlawful, or procedurally unfair. The bill would require these civil penalties, as specified, to be deposited into the Building Homes and Jobs Trust Fund for the sole purpose of supporting the development of affordable housing located in the affected jurisdiction, except as provided.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: The California Integrated Waste Management Act of 1989 establishes the Department of Resources Recycling and Recovery to administer an integrated waste management program. Current law establishes a goal that statewide landfill disposal of organic waste be reduced from the 2014 level by 75% by 2025. This bill, on or before June 1, 2026, would require the Office of Planning and Research, in consultation with the Department of Resources Recycling and Recovery, to develop and post on the office's internet website, a technical advisory, as provided, reflecting best practices to facilitate the siting of composting facilities to meet the organic waste reduction goals. The bill would require the office to consult with specified entities throughout the development of the technical advisory.

Status: 7/2/2024-July 2 set for first hearing. Placed on suspense file.

Location: 7/2/2024-A. APPR. SUSPENSE FILE

Summary: Current law requires the Department of Resources Recycling and Recovery, in consultation with the State Air Resources Board, to adopt regulations to achieve certain reduction targets in the organic waste disposed in landfills and to analyze the progress that the waste sector, state government, and local governments have made in achieving those reduction targets, as provided. Current law authorizes the department to provide incentives to facilitate progress towards the reduction targets if the department determines that sufficient progress has not been made. The California Environmental Quality Act (CEQA), requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect, as provided. This bill would require the Department of Resources Recycling and Recovery to prepare and certify, by January 1, 2027, a program environmental impact report that streamlines the process with which jurisdictions can develop and site small and medium compostable material handling facilities or operations, as defined, for processing organic material, as specified.

Location: 5/16/2024-S. DEAD

Summary: Would require the Department of Industrial Relations, in conjunction with the Secretary of Labor and Workforce Development and the Director of Housing and Community Development, to develop a certification program for employers that pay a living wage, which the bill would define as the lowest wage that allows full-time and part-time wage earners to afford a decent standard of living, as specified. In order to determine a decent standard of living, the bill would require the department to examine housing costs by county, by region, and in the state and create a formula to ascertain the living wage for each county, each region, and the state. The bill, commencing in 2025, would also require the department to report to the Legislature by December 15 of each year the living wage in each county, each region, and the state and develop a method to annually adjust figures to account for housing cost inflation and inflation broadly.

Location: 4/25/2024-S. DEAD

Summary: The Mobilehome Residency Law Protection Act, until January 1, 2027, establishes the Mobilehome Residency Law Protection Program within the Department of Housing and Community Development to assist in taking and resolving complaints from homeowners relating to the Mobilehome Residency Law. Current law requires the department, in administering the program, to contract with one or more qualified and experienced nonprofit legal services providers and refer complaints selected for evaluation, and which are not resolved, to these nonprofit legal service providers for possible enforcement action, as specified. This bill would require a nonprofit legal services provider contracted with the department to provide the department, in its role as the contract manager overseeing the performance of nonprofit legal services contracts, with full access to information regarding the status of each case and the services provided to complainants. The bill would prohibit laws relating to the attorney-client privilege or attorney work product doctrine that protect the confidentiality of communications or records from preventing disclosure, as provided. To the extent any information disclosed to the department includes confidential information subject to the attorney-client privilege or work product protection, the bill would prohibit any described disclosure from constituting a waiver of that privilege or protection.

SB 1053 (Blakespear D) Solid waste: reusable grocery bags: standards: plastic film prohibition.

Current Text: Amended: 7/3/2024 [html](#) [pdf](#)

Status: 8/8/2024-Read second time. Ordered to third reading.

Location: 8/8/2024-A. THIRD READING

Summary: Current law prohibits a store, as defined, from providing a single-use carryout bag, as

defined, to a customer, with specified exceptions, including an exemption for bags used to contain unwrapped food. Current law requires a reusable grocery bag sold by a store to a customer at the point of sale to be made by a certified reusable grocery bag producer and to meet specified requirements with regard to the bag's durability, material, labeling, heavy metal content, and, with regard to reusable grocery bags made from plastic film, recycled material content. Current law prohibits a producer of reusable grocery bags made from plastic film from selling or distributing those bags unless the producer is certified by a third-party certification entity, and provides proof of that certification and a certification fee to the department, as specified. Current law also prohibits a store from selling or distributing a recycled paper bag at the point of sale unless the store makes that bag available for purchase for not less than \$0.10. Existing law defines "recycled paper bag," in part, as a paper carryout bag that contains a minimum of 40% postconsumer recycled materials, except as provided, and meets other requirements. Current law allows a retail establishment to voluntarily comply with these requirements, if the retail establishment provides the department with irrevocable notice. This bill would, commencing January 1, 2026, revise and recast those provisions to, among other things, revise the single-use carryout bag exception to include a bag provided to a customer before the customer reaches the point of sale, that is designed to protect a purchased item from damaging or contaminating other purchased items in a checkout bag, or to contain an unwrapped food item, as specified. The bill would revise the definition of "recycled paper bag" to require it be made from a minimum of 50% postconsumer recycled materials on and after January 1, 2028, without exception.

Summary: The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. The act authorizes the state board to include the use of market-based compliance mechanisms in regulating those emissions. The implementing regulations adopted by the state board provide for the direct allocation of greenhouse gas allowances to electrical corporations and gas corporations pursuant to a market-based compliance mechanism. This bill would require the Public Utilities Commission to direct the balance of the revenues received by a gas corporation as a result of that allocation to be credited directly to the residential customers of the gas corporation, as specified.

Status: 4/25/2024-Failed Deadline pursuant to Rule 61(b)(5). (Last location was HOUSING on 2/21/2024)

Location: 4/25/2024-S. DEAD

Summary: Current law requires the planning agency of a city or county to provide an annual report to its legislative body, the Office of Planning and Research, and the Department of Housing and Community Development by April 1 of each year that includes, among other information, the city's or county's progress in meeting its share of regional housing needs, as described. Existing law, the Planning and Zoning Law, authorizes a local agency, by ordinance or ministerial approval, to provide for the creation of accessory dwelling units in areas zoned for residential use, as specified. Current law authorizes a local agency to impose standards on accessory dwelling units that include, but are not limited to, parking, height, setback, landscape, architectural review, and maximum size of a unit. Current law prohibits a local agency from establishing height limitations for accessory dwelling units, including height limitations that would prohibit attached accessory dwelling units from attaining a height of 25 feet, as specified. This bill would prohibit a qualifying local agency from imposing height limitations that would prohibit an attached accessory dwelling unit from attaining a height of 16 feet, as specified. The bill would define "qualifying local agency" as a local agency that the Department of Housing and Community Development has determined that the number of housing units that have been entitled by the local agency, as shown on its most recent annual progress report, is greater than the local agency's share of the regional housing need, for the low- and very low income categories, prorated for that annual reporting period.

Status: 7/2/2024-Failed Deadline pursuant to Rule 61(b)(13). (Last location was INS. on 6/3/2024)

Location: 7/2/2024-A. DEAD

Summary: Current law creates the Department of Insurance and prescribes the department's powers and duties. Current law generally regulates the business of insurance in the state, including the underwriting and ongoing monitoring of insured risks. Current law generally requires an insurer or insurance producer to have underwriting guidelines that establish the criteria and process under which an insurer makes its decision to provide or to deny coverage. If a property insurer uses risk models for underwriting purposes, this bill would authorize the models to account for wildfire risk reduction associated with hazardous fuel reduction, home hardening, defensible space, and fire prevention activities. The bill would require an insurer using risk models for underwriting purposes, as specified, beginning January 15, 2026, and on or before each January 15 thereafter, to report to the department the extent to which models used for underwriting purposes account for specified categories of risk mitigation, and other specified information. The bill would require the department to post the information contained in the report, excluding any confidential or proprietary information, on its internet website.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Would require the Department of Conservation, on or before December 1, 2025, to establish and administer the Biomass Technology Transition Program to support the conversion of biomass generation facilities using traditional combustion technologies to newer advanced bioenergy technology facilities, as defined. The bill would require the Department of Conservation, on or before December 1, 2025, to identify generation facilities with a generation capacity of 10 megawatts or greater that use, or are in the process of recommissioning or redeveloping those facilities to use, forest biomass waste or agricultural biomass waste, as defined, and the operators of those facilities have demonstrated to the Department of Conservation their intent to convert the facilities to advanced bioenergy technology facilities. The bill would require the Department of Conservation to request the relevant local air pollution control district or air quality management district to provide information for each identified generation facility about best available control technologies, and other potential advanced emission control technologies applicable to the district, that would be required if the generation facility requests a permit, as provided. The bill would require the Department of Conservation, on or before January 1, 2030, to establish a grant program to support the conversion of the generation facilities identified pursuant to the above-described provisions to advanced bioenergy technology facilities and would require an operator of a generation facility, in order to receive a grant, to develop and submit to the Department of Conservation business plans meeting specified guidelines. The bill would prohibit actions taken by the Department of Conservation and by operators of generation facilities pursuant to the above-described provisions from being funded by ratepayers.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Under current law, as part of the hazardous waste control laws, the Department of Toxic Substances Control (DTSC) generally regulates the management and handling of hazardous waste and hazardous materials. This bill would create a producer responsibility program for marine flares. The bill would define "covered product" to mean a pyrotechnic device that produces a brilliant light or a plume of colorful smoke as a visual distress signal on marine vessels to attract attention and pinpoint a boater's location in an emergency. The bill would require a producer of a covered product to register with a producer responsibility organization (PRO), which would be required to develop and implement a producer responsibility plan for the collection, transportation, and the safe and proper management of covered products.

Status: 6/27/2024-Read second time. Ordered to third reading.

Location: 6/27/2024-A. THIRD READING

Summary: The California Constitution sets forth various requirements for the imposition of local taxes. The California Constitution excludes from classification as a tax assessments and property-related fee imposed in accordance with provisions of the California Constitution that establish requirements for those assessments and property-related fees. Under these requirements, an assessment is prohibited from being imposed on any parcel if it exceeds the reasonable cost of the proportional special benefit

conferred on that parcel, and a fee or charge imposed on any parcel or person as an incident of property ownership is prohibited from exceeding the proportional cost of the service attributable to the parcel. The Proposition 218 Omnibus Implementation Act prescribes specific procedures and parameters for local compliance with the requirements of the California Constitution for assessments and property-related fees. This bill would require a local agency, if a court determines that a fee or charge for a property-related service, as specified, violates the above-described provisions of the California Constitution relating to fees and charges, to credit the amount of the fee or charge attributable to the violation against the amount of the revenues required to provide the property-related service, unless a refund is explicitly provided for by statute.

Summary: Would require, by July 1, 2026, the California Coastal Commission, in coordination with the Department of Housing and Community Development, to develop and provide guidance for local governments to facilitate the preparation of amendments to a local coastal program to clarify and simplify the permitting process for accessory dwelling units and junior accessory dwelling units within the coastal zone. The bill would require the commission, in coordination with the department, to convene at least one public workshop to receive and consider public comments on the draft guidance before the finalization of the guidance document and to post the guidance document on the commission's and department's respective internet websites, as specified. To the extent the bill would create additional duties for a local government, the bill would impose a state-mandated local program.

Summary: Would require the California Health and Human Services Agency to convene a working

group that includes representatives from all departments and agencies that currently receive funding relating to services for homeless individuals. The bill would require the working group to determine the best approach to creating a Department of Homelessness Prevention, Outreach, and Support and to submit its findings and recommendations to the Legislature no later than January 1, 2028. The bill would repeal these provisions on January 1, 2028.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current unemployment compensation disability law requires workers to pay contribution rates based on, among other things, wages received in employment and benefit disbursement, for payment into the Unemployment Compensation Disability Fund, for purposes of compensating in part for the wage loss sustained by any individual who is unable to work due to the employee's own sickness or injury, among other reasons. Current law sets forth standards for eligibility to receive unemployment compensation disability benefits. Current law requires, for purposes of unemployment compensation disability benefits, the Employment Development Department to issue the initial payment for unemployment compensation disability benefits to a monetarily eligible claimant who is otherwise determined eligible by the department within 14 days of receipt of the claimant's properly completed first disability claim. Current law provides for purposes of the paid family leave program that eligible workers shall receive benefits generally in accordance with unemployment and disability compensation law. This bill would instead require, for purposes of unemployment compensation disability benefits, the issuance of the initial payment for those benefits within 14 days of receipt of the claimant's properly completed first disability claim or as soon as eligibility begins, whichever is later. The bill would apply the same initial payment issuance schedule applicable to unemployment compensation disability benefits to the paid family leave program and repeal the requirement that eligible workers receive benefits generally in accordance with unemployment and disability compensation law.

Summary: The California Coastal Act of 1976 requires anyone wishing to perform or undertake any development in the coastal zone, in addition to obtaining any other permit required by law from any local government or from any state, regional, or local agency, to obtain a coastal development permit from the California Coastal Commission or a local government, as provided. The act authorizes an appeal to the commission for any action taken by a local government on coastal development permit applications, as provided. The act requires the commission to hear the appeal and establishes specified appeal procedures, as provided. This bill would require the commission, on or before December 31, 2025, to provide a report to the Legislature that provides information regarding appeal of local government coastal development permits to the commission, including, among other things, the percentage of local government coastal development permit actions that were appealed to the commission.

Attachment: Legislative Tracking Bill Report (Legislative Tracking Report)

Summary: The Manufactured Housing Act of 1980 (the "act"), requires the Department of Housing and Community Development to enforce various laws pertaining to the structural, fire safety, plumbing, heat-producing, or electrical systems and installations or equipment of a manufactured home, mobilehome, commercial coach, or special purpose commercial coach. The act defines "manufactured home" and "mobilehome" to mean a structure that meets specified requirements, including that the structure is transportable in one or more sections and is 8 body feet or more in width, or 40 body feet or more in length, in the traveling mode, or, when erected onsite, is 320 or more square feet, and includes the plumbing, heating, air-conditioning, and electrical systems contained within the structure. The act specifies that it does not prohibit the replacement of water heaters or appliances for comfort heating in manufactured homes or mobilehomes with fuel-gas-burning water heaters or fuel-gas appliances for comfort heating that are not specifically listed for use in a manufactured home or mobilehome, as specified. This bill would extend those provisions to also apply to electric water heaters and electric appliances for comfort heating that are not specifically listed for use in a manufactured home or mobilehome.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current law authorizes the Department of Transportation, subject to approval of the Secretary of Transportation, to enter into an interagency transfer agreement under which a joint powers board assumes responsibility for administering the state-funded intercity rail service in certain rail corridors, including the LOSSAN Rail Corridor. Current law defines the LOSSAN Rail Corridor as the intercity passenger rail corridor between San Diego, Los Angeles, and San Luis Obispo. Pursuant to this authority, the department entered into an interagency transfer agreement with the LOSSAN Rail Corridor Agency to administer intercity passenger rail service in the LOSSAN Rail Corridor. This bill would require the Secretary of Transportation to provide guidance and recommendations to, and coordination between, stakeholders as necessary to ensure the performance of the LOSSAN Rail Corridor, as specified.

Summary: Current law requires a landlord of a residential dwelling to give notice to the tenant a certain number of days before the effective date of a rent increase depending on the amount of the

increase, as specified. This bill would apply this requirement to leases of commercial real property by a qualified commercial tenant, as defined. The bill would specify, in all leases for commercial real property by a qualified commercial tenant, that a rent increase would not be effective until the notice period required by these provisions has expired. The bill would also specify that a violation of these provisions would not entitle a qualified commercial tenant to civil penalties. The bill would require a landlord of a commercial real property to include information on these provisions in the notice.

Status: 7/2/2024-July 2 set for first hearing. Placed on suspense file.

Location: 7/2/2024-A. APPR. SUSPENSE FILE

Summary: The Mobilehome Parks Act establishes requirements for the construction, maintenance, occupancy, use, and design of mobilehome parks. Existing law generally requires the Department of Housing and Community Development to enforce the act, except that a city, county, or city and county may assume the responsibility for the enforcement of the act upon the approval of the department, as provided. Current law, until January 1, 2025, requires an enforcement agency, after conducting an inspection and determining that a violation exists, to issue a notice to correct the violation to the registered owner of the manufactured home or mobilehome and provide a copy to the occupant thereof, if different from the registered owner. Current law requires the registered owner to be responsible for the correction of any violations for which a notice of violation has been given. For violations other than imminent threats to health and safety, as provided, current law requires the notice of violation to allow 60 days from the postmarked date of the notice or date of personal delivery for the elimination of the condition constituting the alleged violation. Current law requires the department to develop a list of local agencies that have home rehabilitation or repair programs for which registered owners or occupants of manufactured homes and mobilehomes residing in mobilehome parks may be eligible, as specified. Existing law repeals these provisions on January 1, 2025. This bill would revise and recast the above-described requirements to extend their operation indefinitely.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current law authorizes the State Water Resources Control Board, on and after January 1, 2024, to issue informational orders pertaining to water production, water use, and water conservation to an urban retail water supplier that does not meet its urban water use objective, as provided. Current law authorizes the board, on and after January 1, 2025, to issue a written notice to an urban retail water supplier that does not meet its urban water use objective. Current law authorizes the board, on and after January 1, 2026, to issue a conservation order to an urban retail water supplier that does not meet its urban water use objective. This bill would instead authorize the board to issue the informational orders on and after January 1, 2026, the written notice on and after January 1, 2027 and the conservation order on and after January 1, 2028.

Location: 8/13/2024-S. ENROLLED

Summary: This bill would authorize recycling pilot projects to operate until January 1, 2034, and repeal those provisions on that date. By extending the time recycling pilot projects may operate, the bill would make an appropriation by increasing expenditures from a continuously appropriated fund for handling fee payments to pilot project recyclers. The bill would limit the time that a convenience zone that falls within the area of an operational, department-approved pilot project is deemed to be served to January 1, 2027.

SB 1116 (Portantino D) Unemployment insurance: trade disputes: eligibility for benefits.

Current Text: Introduced: 2/13/2024 [html](#) [pdf](#)

Status: 7/2/2024-Failed Deadline pursuant to Rule 61(b)(13). (Last location was INS. on 6/3/2024)

Location: 7/2/2024-A. DEAD

Summary: Current law provides for the payment of unemployment compensation benefits and extended benefits to eligible individuals who meet specified requirements. Under current law, unemployment benefits are paid from the Unemployment Fund, which is continuously appropriated for these purposes. Current law makes an employee ineligible for benefits if the employee left work because of a trade dispute and specifies that the employee remains ineligible for the duration of the trade dispute. Existing case law holds that employees who left work due to a lockout by the employer, even if it was in anticipation of a trade dispute, are eligible for benefits. This bill would restore eligibility after the first 2 weeks for an employee who left work because of a trade dispute.

Location: 5/2/2024-S. DEAD

Summary: Current law requires the State Water Resources Control Board, in consultation with the California Building Standards Commission and the Department of Housing and Community Development, to adopt regulations for risk-based water quality standards for the onsite treatment and reuse of nonpotable water, and requires a local jurisdiction that elects to establish a program for onsite treated nonpotable water systems to establish design criteria, permitting, cross-connection control, and enforcement procedures, as provided. This bill would require those local jurisdictions to ensure their permitting procedures require the approval of a permit for an onsite treated nonpotable water system within 60 days from the date the permit application is submitted if the application demonstrates that the project meets or exceeds the state board's water quality standards for the onsite treatment and reuse of nonpotable water for nonpotable uses in multifamily residential, commercial, and mixed-use buildings.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: The Starter Home Revitalization Act of 2021, among other things, requires a local agency to ministerially consider, without discretionary review or a hearing, a parcel map or a tentative and final map for a housing development project that meets certain requirements, including that the housing development project on the lot proposed to be subdivided will contain 10 or fewer residential units, is zoned for multifamily residential development, is no larger than 5 acres, as specified, and is no smaller than 600 square feet, except as provided. Current law prohibits a local agency from imposing on the housing development an objective zoning standard, objective subdivision standard, or objective design standard that, among other things, physically precludes the development of a project built to specified densities. This bill would prohibit, if a local agency chooses to permit accessory dwelling units and junior accessory dwelling units, those units from counting as residential units for purposes of the above-described requirement that a housing development project on the lot proposed to be subdivided will contain 10 or fewer residential units. The bill would revise the requirement that the lot be zoned for multifamily residential development and would instead require that the lot either be zoned for multifamily residential dwelling use or vacant, as defined, and zoned for single-family residential development. The bill would also revise the above-described requirements to instead include that the lot is no larger than 1 1/2 acres, as specified, and that if the parcels are zoned for single-family residential units, the newly created parcels on average are no less than 1,200 square feet.

Summary: Would require the Public Utilities Commission, by June 1, 2025, and each year thereafter, to review each electrical corporation's report to ensure it has sufficiently enrolled eligible households in the FERA program commensurate with the proportion of households the commission determines to be eligible within the electrical corporation's service territory. If the commission, in its review of a report, determines an electrical corporation has not sufficiently enrolled eligible households in the FERA program, the bill would require the commission to require the electrical corporation to develop a strategy and plan to sufficiently enroll eligible households within 3 years of the adoption of the strategy and plan.

SB 1134 (Caballero D) Surplus land.

Current Text: Amended: 6/10/2024 [html](#) [pdf](#)

Status: 7/2/2024-July 2 set for first hearing. Placed on suspense file.

Location: 7/2/2024-A. APPR. SUSPENSE FILE

Summary: Current law provides for the disposal of land owned by a local agency that is surplus and is not necessary for the agency's use. The local agency is required to declare the land either "surplus land" or "exempt surplus land," as prescribed. Current law sets forth procedures for the disposal of surplus land and provides that these procedures do not apply to exempt surplus land. Current law, for prescribed surplus land parcels developed with residential units, requires minimum percentages of residential units developed on the parcel to be sold or rented at affordable housing cost or affordable rent. This bill, with regard to surplus land, would require each parcel of land to be considered a distinct unit of surplus land, with the exception of contiguous parcels that are disposed of simultaneously to the same receiving entity or any entity working in concert with another receiving entity, which parcels the bill would require to be treated as a single unit of land.

Location: 5/13/2024-S. APPR. SUSPENSE FILE

Summary: The California Global Warming Solutions Act of 2006 authorizes the State Air Resources Board to include in its regulation of those emissions the use of market-based compliance mechanisms. Current law requires all moneys, except for fines and penalties, collected by the state board from the auction or sale of allowances as part of a market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund. Current law continuously appropriates the annual proceeds of the fund to the various purposes. This bill, in the 2025-26 fiscal year through the 2035-36 fiscal year, would transfer 1% of the annual proceeds of the Greenhouse Gas Reduction Fund, not to exceed \$120,000,000 per fiscal year, to the California Compost Tax Credit Fund, which the bill would establish.

Summary: The California Global Warming Solutions Act of 2006 requires the State Air Resources Board

to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas emissions and to update the scoping plan at least once every 5 years. Current law requires the state board to present an informational report on the reported emissions of greenhouse gases, criteria pollutants, and toxic air contaminants from all sectors covered by the scoping plan at least once a year at a hearing of the Joint Legislative Committee on Climate Change Policies. This bill would instead require that informational report to cover topics related to the scoping plan, as directed by the Joint Legislative Committee on Climate Change Policies.

SB 1140 (Caballero D) Enhanced infrastructure financing district.

Current Text: Amended: 8/8/2024 [html](#) [pdf](#)

Status: 8/12/2024-Read third time. Passed. Ordered to the Senate. In Senate. Concurrence in Assembly amendments pending.

Location: 8/12/2024-S. CONCURRENCE

Summary: Current law authorizes the legislative body of a city or a county to designate a proposed enhanced infrastructure financing district to finance public capital facilities or other specified projects, with a governing body referred to as the public financing authority, by adopting a resolution of intention to establish the proposed district. Current law requires the legislative body to direct the city official or county official, as applicable, selected by the legislative body, to mail a copy of the resolution to each affected taxing entity. Current law requires the public financing authority of an enhanced infrastructure financing district to hold a meeting and 3 public hearings on a proposed infrastructure financing plan, as provided. Current law requires the infrastructure financing plan, among other things to be sent to each owner of land within the proposed district and to each affected taxing entity. Current law establishes notice requirements for the meeting and public hearings, including requiring a written notice of each meeting or public hearing to be mailed to each landowner, each resident, and each taxing entity, as specified. Alternative to mailing the documents and notices, current law authorizes an official designated by the city or county to, instead, comply with alternative notice procedures. Current law requires the public financing authority to review the infrastructure financing plan at least annually and make any amendments that are necessary and appropriate. Current law requires a public financing authority to adopt an annual report, as provided, after holding a public hearing, and complying with certain notice requirements, including that the notice be mailed by first-class mail, but may be addressed to "occupant." This bill would revise and recast those provisions by, among other things, requiring the public financing authority to hold a meeting and 2 public hearings, as specified. The bill would remove the requirement that annual report notices be mailed by first-class mail.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current law authorizes a public agency, as defined, to operate a household hazardous waste collection facility under permit from DTSC. This bill would create a producer responsibility program for products containing household hazardous waste and require a producer responsibility organization (PRO) to provide a convenient collection and management system for covered products at no cost to residents or local governments. The bill would define "covered product" to mean a product that is flammable, toxic, ignitable, corrosive, reactive, or pressurized, and that meets other specified criteria. The bill would require a producer of a covered product to register with the PRO, which would be required to develop and implement a producer responsibility plan for the collection, transportation, and the safe and proper management of covered products. The bill would require CalRecycle, in coordination with DTSC, to adopt regulations to implement the program with an effective date no earlier than July 1, 2027.

Summary: Current law requires the Public Utilities Commission to require every residential unit in an apartment house or similar multiunit residential structure, condominium, or mobilehome park issued a building permit on or after July 1, 1982, with certain exceptions, to be individually metered for electrica and gas service. This bill would add an exception from the requirement that every residential unit be individually metered for electrical service for a multifamily site, as defined, that includes deployment of

an electrical generation and energy storage facility and that meets specified requirements, including, among other things, that deployment of the electrical generation and energy storage facility is capable of providing backup electricity to the multifamily site using renewable energy resources, that the owner of the multifamily site does not increase rent in association with the costs of the deployment's components or lease agreement, that each tenant's electricity costs are less than what the effective fully bundled rate would have been if billed by the relevant load-serving entity, and that the owner bill the nonresidential meters and residential tenants for electricity usage directly, as measured by private submeters installed by the owner for each individual unit at the site, as specified.

Summary: The Political Reform Act of 1974 prohibits a public official from making, participating in making, or attempting to use their official position to influence a governmental decision in which they know or have reason to know that they have a financial interest, as defined. The act requires specified public officials, including elected state officers, judges and court commissioners, members of certain boards and commissions, other state and local public officials, and candidates for these positions to file statements of economic interests, annually and at other specified times, that disclose their investments, interests in real property, income, and business positions. The Fair Political Practices Commission is the filing officer for such statements filed by statewide elected officers and candidates and other specified public officials. This bill would require members of the board of directors and the executive, as defined, of a groundwater sustainability agency to file statements of economic interests, according to the filing requirements described above, with the Fair Political Practices Commission using the Commission's online system for filing statements of economic interests.

more than 2 years from the time of reservation. Current law requires funds not liquidated by a district by June 30 of the 4th calendar year following the date of the reservation to be returned to the state board within 90 days for future allocation under the program. Beginning January 1, 2034, current law reduces the deadline for that period of liquidation to June 30 of the 2nd calendar year following the date of reservation. This bill would extend the deadline for the period of liquidation to June 30 of the 6th calendar year following the date of disbursement and would make other conforming changes.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires the Office of Planning and Research to prepare and develop, and the Secretary of the Natural Resources Agency to certify and adopt, guidelines for the implementation of CEQA. CEQA requires the guidelines to include a list of classes of projects that have been determined not to have a significant effect on the environment and are exempt from the requirements of CEQA, commonly known as categorical exemptions. This bill, on or before January 1, 2026, would require the office to evaluate, and the secretary to consider, the inclusion of roadside projects no more than 5 road miles from a municipality or census-designated place that are undertaken solely for the purpose of wildfire risk reduction in the classes of projects subject to a categorical exemption. The bill would require the office to consider appropriate eligibility criteria for these projects, as specified.

Summary: Current law establishes requirements that apply when a public entity is required by statute or regulation to obtain an enforceable commitment that a bidder, contractor, or other entity will use a skilled and trained workforce to complete a contract or project. Current law requires the enforceable commitment to provide that the contractor, bidder, or other entity will provide to the public entity or other awarding body a report on a monthly basis demonstrating its compliance with these requirements. This bill would additionally require the enforceable commitment to provide that the above-described report will include the date of birth of each worker.

[SB 1164](#) (Newman D) Property taxation: new construction exclusion: accessory dwelling units.

Current Text: Amended: 5/16/2024 [html](#) [pdf](#)

Status: 6/24/2024-June 24 set for first hearing canceled at the request of author.

Location: 6/3/2024-A. REV. & TAX

Summary: The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, "full cash value" is defined as the assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value" or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. This bill would exclude from classification as "newly constructed" and "new construction" the construction of an accessory dwelling unit, as defined, if construction on the unit is completed on or after January 1, 2025, and before January 1, 2030, until one of specified events occurs. The bill would require the property owner to, among other things, notify the assessor that the property owner intends to claim the exclusion for an accessory dwelling unit and submit an affidavit stating that the owner shall make a good faith effort to ensure the unit will be used as residential housing for the duration the owner receives the exclusion.

Location: 5/16/2024-S. DEAD

Summary: Current law authorizes a person proposing an eligible facility, including an electrical transmission line carrying electricity from certain other facilities that are located in the state to a point of junction with any interconnected electrical transmission system, to file an application, on or before June 30, 2029, with the State Energy Resources Conservation and Development Commission (Energy Commission) to certify a site and related facility for purposes of specified environmental review procedures. This bill would expand the facilities eligible to be certified pursuant to the provisions described above by the Energy Commission and deemed environmental leadership development projects to include electrical transmission projects. The bill would require an applicant applying for certification of an electrical transmission project to take certain actions, including, among other actions to avoid or minimize significant environmental impacts in any disadvantaged community.

Location: 4/25/2024-S. DEAD

Summary: Current law prohibits a full-service restaurant, as specified, from providing single-use plastic straws, as defined, to consumers unless requested by the consumer. Current law requires a city, county, or city and county, to authorize an enforcement agency to enforce these provisions. Current law specifies that the first and 2nd violations of these provisions would result in a notice of violation and any subsequent violation would be an infraction punishable by a fine of \$25 for each day the full-service restaurant is in violation, but not to exceed an annual total of \$300. This bill would require a chain restaurant, before serving a beverage, to ask a customer if the customer intends to consume the beverage on the premises or off the premises. The bill would prohibit a chain restaurant from serving a beverage in a single-use vessel if a customer indicates intent to consume the beverage on the premises, as specified, and would subject a violator to the enforcement provisions described above.

Summary: Would require the County of Riverside to report the mileage of the highways maintained by the De Luz Community Services District to the Department of Transportation as maintained county highways. The bill would require the Controller to deem those highways reported by a county, and certified by the department, to be maintained county highways for purposes of apportioning funds from the Highway Users Tax Account and the Road Maintenance and Rehabilitation Account. The bill would authorize the county to allocate funds to the district to maintain county highways in the district. This bill contains other related provisions and other existing laws.

Status: 6/19/2024-June 19 set for first hearing. Placed on suspense file.

Location: 6/19/2024-A. APPR. SUSPENSE FILE

Summary: Current law requires the State Air Resources Board to approve and begin implementing a comprehensive short-lived climate pollutant strategy to achieve a certain reduction in statewide emissions of methane, including a goal of a 75% reduction in the level of the statewide disposal of organic waste from the 2014 level by 2025. Current law requires the Department of Resources Recycling and Recovery, in consultation with the state board, to adopt regulations that achieve those targets for reducing organic waste in landfills that may include, among other things, different levels of requirements for local jurisdictions and phased timelines based upon their progress in meeting the organic waste reduction goals, and penalties to be imposed by the department for noncompliance. The department's regulations authorize low-population and elevation waivers for a local jurisdiction, based on, among other things, a consideration of the jurisdiction's census tracts, that exempt the jurisdiction from all or some of the department's organic waste collection requirements. This bill would require the department to revise the regulations to require the department to consider, in addition to census tracts, alternatives to those census tracts, as provided, when deciding the geographic boundaries of a low-population or elevation waiver, as specified.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Under current law, the State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with the federal national pollutant discharge elimination system permit program established by the federal Clean Water Act and the Porter-Cologne Water Quality Control Act. This bill would require the board to, on or before August 1, 2025, establish regulations governing annual reporting by compliance entities, as defined, regarding waste discharges, as provided. The bill would require compliance entities to submit a report to the board by June 1, 2026, and annually thereafter of waste discharges and their locations, as provided. The bill would require, within 3 months of reporting to the board waste discharges that affect the quality of the water of the state within any region, any nonexempt compliance entity to prominently label any product sold in California whose production resulted in waste discharge contaminating California's water quality with a warning label, as specified. The bill would authorize the board to adopt regulations to seek administrative penalties for nonfiling, late filing, or other failures to meet the requirements of these provisions, and would require these penalties to be deposited into the California Water Quality and Public Health Impact Fund, which the bill would create.

Summary: The Affordable Internet and Net Equality Act of 2024, would require the Department of Technology, in coordination with the Public Utilities Commission and the Department of General Services, to develop and establish the Net Equality Program. The bill would require the state and state agencies to only enter into a procurement contract with an internet service provider offering affordable home internet service to households participating in certain public assistance programs, as specified. The bill would define affordable home internet service to mean internet service costing no more than \$30 per month and that meets specified minimum speed requirements. The bill would require these internet service providers to establish a telephone number to sign up eligible households and would require these providers to advertise the availability of affordable home internet service, among other requirements placed on these providers. This bill contains other related provisions.

Location: 4/25/2024-S. DEAD

Summary: Existing law requires all water suppliers to increase the efficient use of water. Existing law establishes various water use objectives and restrictions, including urban water use objectives. Existing law requires the State Water Resources Control Board, in coordination with the Department of Water Resources, to adopt long-term standards for the efficient use of water, including standards for,

among other things, a volume for water loss, and requires the board, when adopting the standards, to consider policies relating to urban water use objectives and proposed efficiency standards' effects on local wastewater management, developed and natural parklands, and urban tree health. This bill would delete the requirement that the board adopt standards, for purposes of urban water use objectives, for water loss and would instead require the board to consider the policies relating to urban water use objectives and proposed efficiency standards' effects on water loss. The bill would also set forth standards, policies, and procedures relating to water use objectives, generally, including, among other things, a prohibition against any water use objective established by the board that causes a reduction of more than 20% when compared to a water supplier's actual water use in 2023 or that exceeds a water use standard recommended by the department.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: The California Safe Drinking Water Act prohibits a person from operating a public water system unless the person first submits an application to the state board and receives a permit to operate the system, as specified. Current law authorizes the State Water Resources Control Board to impose permit conditions, requirements for system improvements, technical, financial, or managerial requirements, and time schedules as it deems necessary to ensure a reliable and adequate supply of water at all times that is pure, wholesome, potable, and does not endanger the health of consumers. Current law makes it a crime to knowingly make any false statement or representation in any application, record, report, or other document submitted, maintained, or used for purposes of compliance with the act. This bill would require the state board to develop and adopt minimum standards related to the technical, managerial, and financial capacity of community water systems serving fewer than 10,000 people or 3,300 service connections and nontransient noncommunity water systems that serve K-12 schools. The bill would require community water systems serving fewer than 10,000 people or 3,300 service connections and nontransient noncommunity water systems that serve K-12 schools to demonstrate compliance with those standards, as provided. The bill would require new community water systems serving fewer than 10,000 persons or 3,300 service connections and nontransient noncommunity water systems that serve K-12 schools to demonstrate, as part of a permit application, compliance with the minimum technical, managerial, and financial standards.

SB 1191 (Padilla D) Personal Income Tax Law and Corporation Tax Law: exclusions: environmental credits.

Status: 5/16/2024-Failed Deadline pursuant to Rule 61(b)(8). (Last location was APPR. SUSPENSE FILE on 4/22/2024)

Location: 5/16/2024-S. DEAD

Summary: The Personal Income Tax Law and the Corporation Tax Law, in conformity with federal income tax law, generally defines "gross income" as income from whatever source derived, except as specifically excluded, and provides various exclusions from gross income. Federal law authorizes an applicable entity, as defined, to receive a refund for specified environmental credits against the taxes imposed under federal law and excludes a refund payment made pursuant to that law from gross income. Current federal law also authorizes an eligible taxpayer, as defined, to transfer the value of that refundable credit and exempts from gross income payment received by the transferor as consideration for the transfer. Current federal law prohibits the transferee from deducting the amount paid as consideration for the transfer. This bill, in conformity with federal law, for taxable years beginning on or after January 1, 2023, would exclude from gross income a refund payment made for the specified federal environmental credits described above and any payment received by a transferor as consideration for a transfer, as provided.

Summary: Would prohibit an airport operator or aviation retail establishment, as defined, from selling, distributing, or otherwise making available leaded aviation gasoline to consumers on or after January 1, 2031, as provided. Because these provisions would be part of the State Aeronautics Act, the bill would impose a state-mandated local program.

SB 1205 (Laird D) Workers' compensation: medical treatment.

Current Text: Amended: 6/27/2024 [html](#) [pdf](#)

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current law, under the workers' compensation system, requires employers to provide medical, surgical, chiropractic, acupuncture, licensed clinical social worker, and hospital treatment reasonably required to cure or relieve the injured worker from the effects of the injury. Current law makes it a misdemeanor for an employer to discharge, threaten to discharge, or discriminate against, or for an insurer to advise, direct, or threaten an insured to discharge, an employee because they have filed or made known their intention to file a claim for compensation, or an application for adjudication, or because the employee has received a rating, award, or settlement, as specified. This bill would require an employee, when possible, to make a reasonable effort to schedule treatment outside of work hours. The bill would require the employee to provide notice if treatment occurs during work hours, as specified. The bill would require that the leave taken by an employee pursuant to these provisions run concurrently with leave taken pursuant to the federal Family and Medical Leave Act of 1993 and the California Family Rights Act if the employee would have been eligible for that leave.

Status: 7/2/2024-July 2 set for first hearing. Placed on suspense file.

Location: 7/2/2024-A. APPR. SUSPENSE FILE

Summary: The Buy Clean California Act requires the Department of General Services, by January 1, 2022, to establish and publish in the State Contracting Manual, in a department management memorandum, or on the department's internet website, a maximum acceptable global warming potential for each category of eligible materials, as defined, in accordance with specified requirements. Current law defines "eligible materials" for those purposes to mean carbon steel rebar, flat glass, mineral wool board insulation, or structural steel. By January 1, 2025, and every 3 years thereafter, existing law requires the department to review the maximum acceptable global warming potential for each category of eligible materials, as provided. This bill would revise the definition of "eligible materials" to delete mineral wool board insulation and additionally include insulation, and would make various nonsubstantive changes to the definition provisions of the act.

Location: 8/8/2024-A. THIRD READING

Summary: Current law vests the Public Utilities Commission with regulatory authority over public utilities, including electrical corporations, gas corporations, sewer system corporations, and water corporations, while local publicly owned utilities, including municipal utility districts, public utility districts, and irrigation districts, are under the direction of their governing boards. This bill would, for new housing construction, require the above-described utilities, on or before January 1, 2026, to publicly post on their internet websites (1) the schedule of estimated fees for typical service connections for each housing development type, including, but not limited to, accessory dwelling unit, mixed-use, multifamily, and single-family developments, except as specified, and (2) the estimated timeframes for completing typical service connections needed for each housing development type, as specified. The bill would exempt from its provisions a utility with fewer than 4,000 service connections that does not establish or maintain an internet website due to a hardship and would authorize the

utility to establish that a hardship exists by annually adopting a resolution that includes detailed findings, as provided.

Summary: The Planning and Zoning Law authorizes a local agency, by ordinance, to provide for the creation of accessory dwelling units (ADUs) in areas zoned for residential use, as specified. That law prohibits, if a local agency adopts an ordinance to create ADUs in those zones, the local agency from requiring the replacement of offstreet parking spaces if a garage, carport, or covered parking structure is demolished in conjunction with the construction of, or is converted to, an ADU. This bill would also prohibit the local agency from requiring the replacement of offstreet parking spaces if an uncovered parking space is demolished in conjunction with the construction of, or is converted to, an ADU.

Summary: The bill would reset that 60-day timeline if the seller changes the asking price for the housing. The bill would prohibit a real estate investment trust that purchases or acquires any housing in compliance with these provisions from paying a final sales price that less than 95% of the publicly listed asking price. The bill would impose civil damages upon a real estate investment trust that violates these provisions in an amount not to exceed \$1,000,000. The bill would absolve a seller of housing from liability under these provisions if the seller obtains a written release signed by the buyer stating that the buyer is not a real estate investment trust.

Status: 8/7/2024-August 7 set for first hearing. Placed on suspense file.

Location: 8/7/2024-A. APPR. SUSPENSE FILE

Summary: Current law prohibits, with specified exceptions, a state agency authorized to enter into contracts relating to public benefit programs from contracting for services provided by a call center that directly serves applicants for, recipients of, or enrollees in, those public benefit programs with a contractor or subcontractor unless that contractor or subcontractor certifies in its bid for the contract that the contract, and any subcontract performed under that contract, will be performed solely with workers employed in California. Current law provides an exception for contracts between a state agency and a health care service plan or a specialized health care service plan regulated by the Department of Managed Health Care and for contracts between a state agency and a disability insurer or specialized health insurer regulated by the Department of Insurance. Current law also authorizes the state to terminate a contract relating to services provided by a call center if the contractor or subcontractor performs services with workers not employed in California. This bill would, until July 1, 2030, instead require any state agency authorized to provide or enter into contracts relating to public benefit programs, or any local government agency authorized to provide or enter into contracts relating to public benefit programs funded by state funds, as specified, to provide services through, or contract for services provided by, a call center that directly serves callers with services performed solely with and by workers employed in California. The bill would also prohibit a state agency or specified local agency from using, or contracting with a call center that uses, artificial intelligence (AI) or automated decision systems (ADS) that would eliminate or automate core job functions of a worker, as specified.

The bill would require the prime contractor and subcontractors on the development project to provide an affidavit under the penalty of perjury regarding the use of skilled and trained workforce on the development project, as provided. Because the bill would expand the crime of perjury and would increase the duties of the lead agency by requiring it to determine the applicability of the exemption for projects located in the City and County of San Francisco, this bill would impose a state-mandated local program.

Status: 8/8/2024-Read second time. Ordered to consent calendar. From consent calendar on motion of Assembly Member Aguiar-Curry. Ordered to third reading.

Location: 8/8/2024-A. THIRD READING

Summary: Current law defines an electric bicycle as a bicycle equipped with fully operable pedals and an electric motor of less than 750 watts, and classifies electric bicycles into 3 classes with different restrictions for various purposes, including the requirement that manufacturers and distributors of electric bicycles apply a label that is permanently affixed to each electric bicycle that contains, among other things, the classification number of the electric bicycle, as specified. Current law defines "class 1 electric bicycle" as a bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour, and defines "class 3 electric bicycle" as a bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 28 miles per hour, and equipped with a speedometer. A violation of the Vehicle Code is a crime. This bill would clarify that an electric bicycle is a bicycle equipped with fully operable pedals and an electric motor with continuous rated mechanical power of not more than 750 watts. The bill would also clarify the definitions of "class 1 electric bicycle" and "class 3 electric bicycle" by providing that the motor on a class 1 electric bicycle is not capable of exclusively propelling the bicycle nor providing assistance to reach speeds greater than 20 miles per hours hour and the motor on a class 3 electric bicycle is not capable of exclusively propelling the bicycle.

Status: 5/2/2024-Failed Deadline pursuant to Rule 61(b)(6). (Last location was TRANS. on 4/3/2024)

Location: 5/2/2024-S. DEAD

Summary: Current law allows a vehicle to park, for up to the posted time limit, in a parking space that is regulated by an inoperable parking meter or an inoperable parking payment center. Current law defines "inoperable parking payment center" as an electronic parking meter or pay station serving one or more parking spaces that is closest to the space where a person has parked and that cannot accept payment in any form, cannot register that a payment in any form has been made, or cannot issue a receipt that is required to be displayed in a conspicuous location on or in the vehicle. This bill would change the definition for an inoperable parking payment center to clarify that it applies to an electronic parking meter or pay station designated to serve the specific parking space where a person has parked.

Location: 5/16/2024-S. DEAD

Summary: Current law requires that each application for an original or a renewal of a driver's license contain certain information, including the applicant's true full name, age, and gender. Current law also requires the application for a driver's license or identification card to contain certain specified elements including, among other things, whether the applicant has served in the Armed Forces of the United States and a space for an applicant to enroll in the Donate Life California Organ and Tissue Donor Registry. This bill would require the application forms for a driver's license or identification card to contain a space for a person to voluntarily disclose that the applicant has a disability, as defined by the federal American with Disabilities Act (ADA), and that the disability interferes with the person's ability to effectively communicate with a peace officer. The bill would require the disclosed disability to be certified by a licensed health professional, as specified, on appropriate forms to be developed by the Department of Motor Vehicles. The bill would require the department to develop an appropriate disability identifier symbol to be placed on a driver's license or identification card that is discreet and represents all types of disabilities, as specified.

SB 1295 (Rubio D) Automobile insurance: notice of cancellation.

Current Text: Amended: 4/9/2024 [html](#) [pdf](#)

Status: 7/1/2024-From consent calendar on motion of Assembly Member Blanca Rubio. Ordered to third reading.

Location: 7/1/2024-A. THIRD READING

Summary: Under current law, a notice of cancellation of an automobile insurance policy shall not be effective unless mailed or delivered by the insurer to the named insured, lienholder, or additional interest at least 20 days prior to the effective date of cancellation, and at least 10 days' notice of cancellation when the reason for cancellation is for nonpayment of premium. For purposes of this provision, nonpayment of premium means failure of the named insured to discharge when due any of their obligations in connection with the payment of premiums on a policy, or any installment of the premium, as specified. Current case law requires the 10-day notice period for nonpayment to commence after default. This bill would require that the 10-day notice period for nonpayment commence after nonpayment of premium due by the specified due date and make a cancellation for nonpayment effective, as specified, if the insured has not cured the nonpayment of premium due identified in the notice by the end of the 10-day period.

Summary: Current law requires a participating city or city and county to adopt a Speed Safety System Use Policy and a Speed Safety System Impact Report before implementing the program, and requires the participating city or city and county to engage in a public information campaign at least 30 days before implementation of the program, including information relating to when the systems would begin detecting violations and where the systems would be utilized. Current law requires a participating city or city and county to issue warning notices rather than notices of violations for violations detected within the first 60 calendar days of the program. Existing law also requires a participating city or city and county to develop uniform guidelines for, among other things, the processing and storage of confidential information. Current law designates all photographic or administrative records, not including data about the number of violations issued or the speeds at which they were issued for, made by a system as confidential, and would only authorize public agencies to use and allow access to these records for specified purposes. This bill would authorize, until January 1, 2032, the City of Malibu to establish a similar program for speed enforcement that utilizes up to 5 speed safety systems on the Pacific Coast Highway.

Location: 5/16/2024-S. DEAD

Summary: Current law establishes in the California Environmental Protection Agency the Department of Resources Recycling and Recovery, which administers various solid waste management and recycling programs. This bill would require the Department of Resources Recycling and Recovery to draft and submit a report to the Legislature on or before January 1, 2027, relating to the in-state collection, recycling, reuse, and stockpiling for domestic consumption of precious metals, critical minerals, as defined, and other similar valuable materials as reasonably decided by the department, contained within products in the state, as specified.

Status: 7/2/2024-Failed Deadline pursuant to Rule 61(b)(13). (Last location was NAT. RES. on 5/28/2024)

Location: 7/2/2024-A. DEAD

Summary: Current law requires the State Air Resources Board to develop and adopt regulations, consistent with federal law, to protect the public health from ozone emitted by indoor air cleaning devices, including medical and nonmedical devices used in occupied spaces. Current law requires those regulations to include, among other things, an emission concentration standard for ozone emissions that is equivalent to the federal ozone emissions limit for air cleaning devices. Current law generally sets forth crimes and penalties for violations of air pollution laws and any rule, regulation, permit, or order of the state board. This bill would instead require the state board, by July 1, 2026, or as soon as feasible, as provided, to include in these regulations an emission concentration standard for ozone emissions not greater than 0.005 parts per million, to the extent consistent with federal law, thereby imposing a more protective standard. The bill would require the regulations to include a ban on the sale or the offering for sale of devices that exceed that emissions limit, even if previously certified, after a date determined by the state board, unless the state board determines an exemption applies.

Summary: Existing law prohibits vehicles from being equipped with certain equipment, including, among other things, theft alarm systems that emit the sound of a siren. Existing law also prohibits vehicles from being equipped with a device that is designed for, or is capable of, jamming, scrambling, neutralizing, disabling, or interfering with radar, laser, or any other electronic device used by a law enforcement agency to measure the speed of moving objects. This bill would prohibit vehicles from being equipped with a device that is specifically designed for, marketed for, or being used for, neutralizing, disabling, or otherwise interfering with a direct driver monitoring system, as defined, that is engaged when drivers are utilizing active driving assistance system technology, as defined. The bill would prohibit a person from using, buying, possessing, manufacturing, selling, advertising for sale, or otherwise distributing a device that is specifically designed for neutralizing, disabling, or otherwise interfering with a direct driver monitoring system that is engaged when drivers are utilizing active driving assistance system technology. The bill would make a violation of the above provisions an infraction. By creating a new crime, the bill would impose a state-mandated local program.

Location: 8/12/2024-A. THIRD READING

Summary: Current law authorizes the Governor to certify projects meeting certain requirements as infrastructure projects and provides those certified projects with certain streamlining benefits, including requiring the lead agency to prepare the record of proceedings concurrently with the environmental review process and requiring the resolution of an action or proceeding challenging the

certification of an EIR for certified projects or the granting of any project approvals, to the extent feasible, within 270 days of the filing of the record of proceedings with the court, as specified. Current law requires the lead agency, within 10 days of the certification of an infrastructure project, to provide a public notice of the certification, as provided. If a lead agency fails to approve a project certified as an infrastructure project before January 1, 2033, existing law specifies that the certification is no longer valid. This bill would include the San Vicente Energy Storage Facility project proposed by the San Diego County Water Authority and a project for the repair, rehabilitation, or replacement of the South Bay Sewage Treatment Plant in the County of San Diego, operated by the International Boundary and Water Commission, as infrastructure projects, thereby providing the above-described streamlining benefits to those 2 projects. To the extent the bill would increase the duties of a lead agency regarding projects proposed by a third party, this bill would impose a state-mandated local program.

Summary: This bill would require a vehicle manufacturer that offers a vehicle for sale, rent, or lease in this state that includes connected vehicle service, as defined, to: (1) ensure that the connected vehicle service can be immediately disabled for a period of at least 48 hours by a driver of the vehicle while that driver is inside the vehicle, as specified; and (2) reenable the connected vehicle service, as specified. The bill would require the driver to submit a connected vehicle service request, as defined, within 48 hours of disabling the connected vehicle service to terminate a person's access to connected vehicle service, and the request would be required to include specified documents that support that the person has committed, or allegedly committed, domestic violence against the driver or an individual in the driver's care. The bill would require the driver to submit specified documentation within 30 days of submission of the request to provide proof of legal possession of the vehicle, including a dissolution decree, temporary order, or domestic violence restraining order that awards possession or exclusive use of the vehicle, as specified. The bill would require a vehicle manufacturer to terminate the person's access to connected vehicle service within one business day after the date of receiving the driver's completed request, as specified. The bill would prohibit a vehicle manufacturer from charging a fee to a driver for completing their request to terminate a person's access to connected vehicle service. The bill would require a vehicle manufacturer, among other things, to establish an efficient, secure, and user-friendly online submission process for requests related to terminating a person's access to connected vehicle service, as specified, and to ensure that all personal information provided during this process is handled with the utmost security and privacy, adhering to relevant data protection laws and regulations. The bill would also require a vehicle manufacturer to provide a notification inside of a vehicle that is installed with connected vehicle service that shows if the connected vehicle service is being used. By establishing new duties on vehicle manufacturers, this bill would expand the general crime applicable to provisions under the Vehicle Code, thereby imposing a state-mandated local program.

Summary: Current federal law establishes federal housing assistance programs that are administered by the federal Department of Housing and Urban Development (HUD). Existing federal law authorizes

HUD to waive regulations promulgated to implement these programs, as provided. The Housing Authorities Law, establishes a housing authority in each county and each city, known as the housing authority of the county or city. Current law establishes a low-income housing tax credit program through which, in order to promote the provision of affordable low-income housing within and throughout the state, the California Tax Credit Allocation Committee allocates low-income housing tax credits, in modified conformity with certain federal law. Current law also establishes the Department of Housing and Community Development and requires it to administer various programs regarding housing for persons with specified incomes, including the Joe Serna, Jr. Farmworker Housing Grant Program, which is funded by a continuously appropriated fund, the Multifamily Housing Program, the Infill Incentive Grant Program of 2007, the Infill Incentive Grant Program of 2019, the Transit-Oriented Development Implementation Program, which is funded by a continuously appropriated fund, the Housing for a Healthy California Program, and the Veterans Housing and Homeless Prevention Act of 2014, which is funded by a continuously appropriated fund and which the department administers in collaboration with the California Housing Finance Agency and the Department of Veterans Affairs, as specified. In jurisdictions for which HUD has granted a housing authority created pursuant to the Housing Authorities Law, as described above, a waiver to streamline and reduce barriers to entry for unhoused populations seeking entry into projects pursuant to or in connection with specified federal law, this bill would: (1) prohibit certain state entities from taking any negative actions, as specified, against certain participants in the programs described above unless the participant has not cured the noncompliance within 24 months of discovery of the violation; and (2) if an agreement between the participant and certain government entities imposes certain income restrictions, deem the tenant to satisfy that income restriction if certain requirements are met.

Location: 12/5/2022-S. RLS.

Summary: The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to adopt rules and regulations to achieve the maximum technologically feasible and cost-effective greenhouse gas emissions reductions to ensure that the statewide greenhouse gas emissions are reduced to at least 40% below the statewide greenhouse gas emissions limit, as defined, no later than December 31, 2030. Pursuant to the act, the state board has adopted the Low Carbon Fuel Standard regulations. The act authorizes the state board to include in its regulation of those emission the use of market-based compliance mechanisms. Current law requires all moneys, except for fines and penalties, collected by the state board from the auction or sale of allowances as part of a market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund. This bill would suspend the Low Carbon Fuel Standard regulations for one year. The bill would also exempt suppliers of transportation fuels from regulations for the use of market-based compliance mechanisms for one year.

Subject: SB 960 (Wiener) - Transportation Planning Complete Streets Facilities

Kome Ajise

RECOMMENDED ACTION:

Staff recommends a “support” position for SB 960 (Wiener).

STRATEGIC PRIORITIES:

This item supports the following Strategic Priority 2: Be a cohesive and influential voice for the region.

EXECUTIVE SUMMARY:

As written, SB 960 by Senator Scott Wiener (D-San Francisco) would require any project in the State Highway Operation and Protection Program (SHOPP) to include bicycle, pedestrian, and transit priority projects starting in 2026, “to the extent beneficial, cost effective, and practicable.” Caltrans and the Assembly Transportation Committee have been working on amendments to address concerns from opposition, resulting in the bill’s current version. Further amendments are expected soon. Staff recommends that the Legislative/Communications and Membership Committee (LCMC) forward a “support” position recommendation to the Regional Council on SB 960 as it aligns with the goals of SCAG’s board-adopted Connect SoCal 2024.

BACKGROUND:

SCAG continues to monitor almost 1,300 legislative bills that remain for the 2024 Legislative Session to identify those that relate to active transportation, affordable housing and housing production, land use, transportation, California Environmental Quality Act (CEQA) modernization, and more. With the end of the legislative session rapidly approaching, state bills continue to be revised. Through this process, SCAG staff identified SB 960 by Senator Scott Wiener (D – San Francisco) as aligning with the goals of SCAG’s board-adopted Connect SoCal 2024 and is bringing it before the LCMC with a request for a support position.

A summary of the bill is included below.

Bill:	SB 960	Author:	Senator Scott Wiener (D-San Francisco)
Title:	Transportation: planning: complete streets facilities: transit priority facilities		
Status:	Passed the Assembly Transportation Committee with an 11-4 vote. Re-referred to Assembly Appropriations Committee on August 7, 2024.		
Hyperlink:	https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=202320240SB960		
Recommendation:	Support		

Current Update:

This bill passed the Senate Floor on May 22, 2024, on a vote of 28-9. This bill also passed in the Assembly Transportation Committee on July 1, 2024, on a vote of 11-4. It was re-referred to the Assembly Appropriations Committee and placed on the suspense file, where it will be heard on August 15, 2024.

Background:

In 2019, Senator Scott Wiener introduced SB 127, the Complete Streets for Active Living Bill, which would have required Caltrans to consider adding elements to make biking and walking safer each time it repaved a state-controlled road. While SB 127 passed the Legislature, Governor Newsom vetoed it, stating that even though he supports “improving facilities to increase walking, biking, and accessing public transit,” the bill would create a “prescriptive and costly approach” to implementing complete streets elements into the state highways. In citing the bill’s cost, the Governor was referring to Caltrans’ analysis, which estimated that SB 127 would cost \$4.5 million per mile to add complete streets features for maintenance projects, with a total annual cost of \$1.1 billion to implement the bill’s provisions. As SB 127 failed to be signed into law, Senator Wiener re-introduced it as SB 960 in January 2024.

The key difference between SB 960, as currently amended, and AB 127 is that Caltrans would now have the ability to determine whether or not to include complete streets facilities in capital and maintenance SHOPP projects, as opposed to being required to do so. Should Caltrans decide not to include a complete streets facility in a capital and maintenance SHOPP project, the department would then be required to document its justification and publish that on its website.

In addition to this primary provision, the bill would make several other changes to state law as it relates to the SHOPP, including requiring Caltrans to:

- Adopt target and performance measures that reflect state transportation goals and objectives for complete streets in its transit asset management plan (TAMP);

- Include a description of complete streets facilities, including the number, extent, and type of facilities in its plan-language performance report on SHOPP;
- Include specific, quantifiable accomplishments, goals, objectives, cost, and performance measures for complete streets in the State Highway System Management Plan (SHSMP);
- Ensure that Caltrans' SHOPP project development teams consult with public agencies and representatives from local bicycle, pedestrian, and transit advisory committees, community-based organizations, or other local stakeholders that the complete streets portion of a project would impact;
- Conduct specific outreach targeting the most underserved areas for a complete streets SHOPP project located in an underserved community;
- Adopt a transit policy developed in consultation with specified stakeholders to guide the implementation of transit priority facilities, and transit stops on the SHS;
- Adopt guidance relating to transit performance measures and outlining the department's responsibilities in supporting transit vehicles on the state highway system by January 2027;
- Adopt design guidance for transit priority facilities by July 2027;
- Develop and adopt a streamlined project intake, evaluation, and encroachment permit review process for complete streets facilities by 2027, enabling Caltrans to provide a determination on an encroachment permit within 60 days of receiving an application;
- Annually report the number of completed applications submitted, permits issued, and the number of days required to process each application to the California Transportation Commission and on its website; and
- Designate an encroachment permit manager with expertise in complete streets facilities in each district to ensure efficient complete streets facility review and approval under the new streamlined permit process.

SB 960 was co-sponsored by AARP, the California Bicycle Coalition (CalBike), SPUR, and Streets for All. The following entities have registered support for the bill: 350 Bay Area, AARP California, Active SGV, Alameda-Contra Costa Transit District, American Academy of Pediatrics, California, America Walks, Bike East Bay, Bike LA, Bik Walk Alameda, Breast Cancer Prevention Partners, Calbike, California Environmental Voters, California Transit Association, California Walks, Chico Velo, City of Goleta, City of Oakland Mayor Sheng Thao, City of San Jose, Climate Action California, Climate Plan,

The following entities have registered opposition to SB 960 prior to recent amendments: American Council of Engineering Companies, Associated General Contractors of California, California Alliance for Jobs, California Asphalt Pavement Association, California Construction & Industrial Materials Association, California State Council of Laborers, International Union of Operating Engineers, Keeplamoving, Mendocino Council of Governments, New Livable California DbA Livable California, Rebuild SoCal Partnership, Safer Streets LA, Southern California Contractors Association, Transportation California, United Contractors (UCON), and Western Regional Association for Pavement Preservation.

Analysis

SB 960's co-sponsors submitted a coalition letter arguing that SB 960 would improve road safety by strengthening requirements that state-owned surface streets comfortably accommodate all road users, including pedestrians, bicyclists, and public transit users. Their letter noted that while Governor Newsom directed Caltrans to implement Complete Streets in its projects and programs, the department has not effectively implemented its Complete Streets policy.

Conversely, in their statement of opposition, Transportation California noted that even though SB 1 (Beall, 2017) provides much-needed revenue for the maintenance and operation of the existing state highway systems (SHS), Caltrans still faces an annual shortfall in excess of \$5 billion to bring the SHS into a state of good repair. Further, Transportation California argued that SB 960 would remove flexibility and could prevent Caltrans from achieving a proper balance of investments that meets performance targets, improves safety for all users, and protects the system from climate impacts.

Since that statement of opposition was made, Senator Wiener has been engaging with Caltrans on amendments to address the issues presented by the opposition, culminating in the most recent

amendments on July 3, 2024, the current version of the bill being analyzed by SCAG staff. Additionally, Caltrans continues to engage with the author's office, and SCAG staff anticipates another round of amendments that would allow the coalition of opposing entities to rescind their opposition.

Lastly, the Senate Appropriations Committee has greatly reduced cost estimates to carry out the bill compared to SB 127. The Appropriations Committee's analysis now anticipates ongoing costs in the low millions of dollars to implement the bill's provisions.

Alignment with Connect SoCal and 2024 State Legislative Platform

The Complete Streets Strategy outlined in Connect SoCal, SCAG's recently board-adopted 2024-2045 Regional Transportation Plan/ Sustainable Communities Strategy (RTP/SCS), defines "Complete Streets" as "roadways designed to support the safety, comfort and mobility for all road users. They are accessible to people of all ages and abilities, regardless of whether they are driving, walking, bicycling, using micromobility devices, or riding transit/rail." The Plan outlines various Regional Planning Policies relating to Complete Streets to support the following strategies:

- Pursue the development of Complete Streets that comprise a safe, multimodal network with flexible use of public rights-of-way for people of all ages and abilities using a variety of modes (e.g., people walking, biking, rolling, driving, taking transit);
- Ensure the implementation of Complete Streets that are sensitive to urban, suburban, or rural contexts and improve transportation safety for all, but especially for vulnerable road users (e.g., people, especially older adults and children, walking and biking);
- Facilitate the implementation of Complete Streets and curb space management strategies that accommodate and optimize new technologies, micro-mobility devices, and first/last mile connections to transit and last-mile delivery; and
- Support implementation of Complete Streets improvements in Priority Equity Communities, particularly with respect to Transportation Equity Zones, to enhance mobility, safety, and access to opportunities.

These strategies are mirrored in SCAG's board-adopted 2024 State Legislative Platform, which calls for supporting legislation that:

- Protects the safety of active transportation users;

-
- Facilitates the development of Complete Streets that comprise a safe multimodal network with flexible use of public rights-of-way for people of all ages and abilities using a variety of modes (e.g., people walking, biking, rolling, driving, taking transit); and
 - Facilitates the implementation of Complete Streets and curb space management strategies that accommodate and optimize new technologies and micro-mobility devices, first/last mile connections to transit, and last-mile delivery.

As SB 960 aligns with goals identified in both SCAG’s Connect SoCal and 2024 Legislative Platform, SCAG staff is recommending the LCMC forward a “support” position recommendation to the Regional Council.

Recommendation:

RECOMMENDED ACTION:

Information Only – No Action Required.

STRATEGIC PRIORITIES:

This item supports the following Strategic Priority 2: Be a cohesive and influential voice for the region.

EXECUTIVE SUMMARY:

This report provides the Legislative/ Communications and Membership Committee (LCMC) with an update on SCAG’s most recent legislative advocacy efforts, including support for the preservation of Regional Early Action Planning 2.0 (REAP 2.0) grant funding and support for SCAG’s sponsored bill, Assembly Bill (AB) 2485 (J. Carrillo).

BACKGROUND:

REAP 2.0 Grant Funding Advocacy

Governor Newsom unveiled his 2024-25 California state budget proposal on Wednesday, January 10, 2024. Facing an estimated \$38 billion budget shortfall at the time, the \$291 billion budget proposal included \$1.2 billion in cuts for housing programs, including a proposed \$300 million reversion to the REAP 2.0 program.

Created exclusively for the implementation of the region’s Sustainable Communities Strategies (SCS) required by SB 375 (2008), this \$600 million program supports projects that play a critical role in increasing housing supply by removing systemic barriers for developers to build housing units where they are needed and planning for.

In July 2023, SCAG’s full REAP 2.0 application was approved by HCD, formally committing \$246 million to SCAG. Since then, SCAG sub-allocated \$192 million, primarily through competitive programs, to 100 transformative, local projects in the SCAG region that implement the Regional Housing Needs Allocation (RHNA) plans and the greenhouse gas (GHG) reducing strategies

contained within Connect SoCal, the Regional Transportation Plan/ Sustainable Communities Strategy (RTP/ SCS) for the Southern California region.

Recognizing the importance of this program to meeting the recent board adopted Connect SoCal 2024, SCAG immediately began to work in partnership with the California Association of Councils of Governments (CalCOG) and our partner Metropolitan Planning Organizations (MPOs) to create a strong coalition of cities, counties, transportation agencies, tribal governments, and private sector organizations to advocate for the protection of the REAP 2.0 program.

Advocacy efforts included:

- Authoring budget advocacy letters and distributing them to the Legislature as the proposed budget advanced, both from SCAG and coalitions, including members of the GLUE Council, the six county transportations, and housing advocates.
- Developing talking points that were distributed to targeted members of the Assembly and Senate budget committees representing the SCAG region whose districts contained projects funded by REAP 2.0 dollars.
- Providing in-person testimony during budget hearings.
- Engaging with legislative staff to the Senate Pro Tem and Assembly Speaker, consultants for the respective housing committees, the California Department of Finance, the Department of Housing and Community Development, and the Legislative Analyst's Office.
- Making it a top priority during our annual Sacramento Summit held in March of 2024.
- Organizing two additional "Strike Team" days to Sacramento where SCAG board members and staff were able to meet with the rest of our legislative representatives we did not have the opportunity to meet with during the Summit.
- Testifying as part of a panel before the Assembly Budget Sub-Committee #5 on State Administration.
- Developing an advocacy tool kit made available to every SCAG elected official, which included a sample letter that could be modified and sent to legislative leadership and their local representatives to amplify the need for this critical program. This culminated in over 33 letters sent by cities, counties, councils of governments, transportation agencies, and tribal governments to Legislative leadership from throughout the SCAG region.

These extensive advocacy efforts, combined with efforts of other organizations throughout the State, resulted in the retention of \$560 million for REAP 2.0, \$480 million of which is dedicated to the formula component for metropolitan planning organizations, just five weeks after the governor's May budget revision proposed \$300 million funding reduction for the program.

The final budget was signed by Governor Newsom on Tuesday, July 2.

RHNA Reform – AB 2485 (Carrillo)

AB 2485 is SCAG's sponsored bill, representing SCAG's intent to increase transparency measures concerning the RHNA Determination. As originally written, the bill would:

1. Establish procedures for HCD to publish the data sources, analyses, and methodology used in the development of a given region's RHNA determination on its internet website; and
2. Require HCD to convene a panel of experts to advise HCD on its data sources, analyses, and methodology used in the development of a given region's RHNA determination. The panel would include a U.S. Census Bureau-affiliated practitioner, an expert in the region's demographics, and a representative from the Council of Governments in question.

Upon introduction, the bill was double referred to the Assembly Committees on Housing and Community Development and Local Government, making it out of both committees. Following, the bill was approved unanimously on May 16, 2024, by the Assembly Appropriations Committee, where consultants noted that HCD estimated compliance with the bill would cost an estimated \$200,000 annually out of the General Fund for one staff position to accommodate the additional workload. Duties would include convening and moderating advisory panels for the 20 Councils of Government (COGs), documenting HCD's determinations, and coordinating updates to the department's website.

The bill then moved on to the Assembly floor, where it was passed unanimously onto the Senate and was assigned to the Senate Housing Committee. In preparation for that hearing, the office of Assemblymember Juan Carrillo, accompanied by SCAG leadership and staff, met with Senate Housing Committee staff on Tuesday, June 11, to discuss the bill and answer any questions as they proceeded to compile their analysis.

Following that initial meeting, committee chair Senator Nancy Skinner (D – Berkeley), expressed concern over the structure of the bill's proposed COG specific panels. Primarily, the Chair was worried that adding a panel of experts for each COG would slow down the existing process. To address that concern, the committee amended the bill to convene one panel for all COGs at the start of each cycle, beginning with the 8th cycle, with a commitment that Assemblymember Carrillo

will work with HCD and the committee to further detail HCD's ongoing engagement with COGs and other stakeholders ahead of the 7th cycle.

The transparency requirements of the bill were left intact.

The bill was heard in the Senate Housing Committee on July 2, 2024, where it was passed to Senate Appropriations with a vote of 9 ayes, 0 noes, and an abstention recorded from Senator Caroline Menjivar (D – Van Nuys). The bill was then scheduled to be heard in Senate Appropriations on August 5, where it was moved to the suspense file. The Senate Appropriations Committee has until August 16, 2024, to meet and report all bills remaining in its suspense file.

In advance of that deadline, Assemblymember Carrillo's office, along with SCAG staff and Cruz Strategies, met with representatives from the Department of Housing and Community Development, who expressed no concerns with the language of the bill as now written.

AGENDA ITEM 7
REPORT

Southern California Association of Governments
August 20, 2024

To: Legislative/Communications and Membership Committee (LCMC)

**EXECUTIVE DIRECTOR'S
APPROVAL**

From: Francisco Barajas, Senior Legislative Affairs Analyst
(213) 630-1400, barajasf@scag.ca.gov

Subject: Housing & Transportation Bills of Interest Follow Up

RECOMMENDED ACTION:

Information Only – No Action Required.

STRATEGIC PRIORITIES:

This item supports the following Strategic Priority 2: Be a cohesive and influential voice for the region.

EXECUTIVE SUMMARY:

As the end of the 2024 legislative session approaches, SCAG continues to monitor legislation relating to active transportation, affordable housing and housing production, land use, transportation, California Environmental Quality Act (CEQA) modernization, and more. For this meeting of the LCMC, staff is providing an update on four (4) bills, including Assembly Bill (AB) 1335 (Zbur), AB 2597 (Ward), AB 3093 (Ward), and SB 7 (Blakespear).

BACKGROUND:

With the 2024 legislative session approaching its conclusion, state bills have until August 23, 2024, to be amended and until August 31, 2024, to be passed before legislators begin their final recess upon adjournment. As bills move through this process, SCAG staff continues to monitor and engage in four (4) legislative bills that could have significant impacts on SCAG, the region, and/or our member organizations, in addition to our sponsored bill, AB 2485 (J. Carrillo).

For the August 2024 LCMC meeting, staff is providing an update on the following four bills for informational purposes. Summaries of the four bills are included below in numerical order.

Bill: AB 1335 **Author:** Assemblymember Rick Zbur (D-Santa Monica)

Title: Local government: transportation planning and land use: sustainable communities strategy.

Status: Passed the Senate Transportation Committee with an 11-2 vote. Re-referred to Senate Appropriations Committee on July 12, 2024.

Hyperlink: https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=202320240AB1335

Current Update:

While there has been no movement on the bill since it was referred to the Senate Appropriations Committee on July 12, 2023, the opportunity remains for the bill to be amended. As presented during SCAG's July 18, 2024, LCMC meeting, SCAG staff was informed that the bill's sponsor was preparing amendments. To remain proactive in our advocacy efforts, Cruz Strategies reached out to the Assemblymember Zbur's new legislative staff responsible for the bill and scheduled a meeting to educate them on SCAG's position and the fundamental issues that remained with the language, particularly around federal air quality conformity.

Ahead of that meeting, SCAG staff quickly engaged with our coalition of partners who had originally joined us in expressing concerns over the bill, including the California Association of Councils of Governments (CalCOG) and agency partners who would be impacted by the bill, such as the California Department of Transportation (Caltrans).

Following that meeting and several subsequent follow-up conversations, Assemblymember Zbur and his staff agreed that the fundamental issue with the bill remained, and the decision was made to not move forward with the bill this year.

Background:

As amended on June 22, 2023, AB 1335 would require MPOs, including SCAG, to make certain planning assumptions in the RTP/SCS. Specifically, AB 1335 would force SCAG to accept HCD's Regional Housing Determination as the only piece of information that could be used to forecast household growth in the first eight years of SCAG's 30-year RTP/SCS. Functionally, this assumption means the RTP/SCS would assume that the region's entire 1.34 million RHNA determination would be constructed by 2029. SCAG's transportation modeling would be required to include that assumption.

For SCAG's planning documents, our technical experts project that 1.34 million housing units will be constructed, just over a longer period of time. SCAG's current forecast is based off development data from the construction industry that shows 54,000 new housing units were constructed in the Southern California region in 2022 – the highest annual total since 2006. As with the previous versions of this bill, it would be irresponsible for SCAG's planning documents to assume housing development at three times the actual rate.

There are more things SCAG must consider when forecasting future housing growth than just HCD's RHNA determination for Southern California. These factors include migration, the private sector's access to capital, public subsidies for affordable projects, labor availability, and raw material costs, to name a few. Using the RHNA target as a planning forecast, however, will have the unintended consequence of throwing off SCAG's ability to demonstrate air quality conformity to the EPA. If the

region is unable to meet air quality conformity, Southern California loses the ability to use most federal transportation dollars, including those from the IJA.

Bill: AB 2597 **Author:** Assemblymember Christopher Ward (D – San Diego)
Title: Planning and zoning: revision of housing element: regional housing need allocation appeals: Southern California Association of Governments
Status: Read second time. Ordered to third reading. (Senate Committee on Appropriations)
Hyperlink: https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=202320240AB2597

Current Update:

AB 2597 was passed out of Senate Housing on June 18, 2024, and was sent to Senate Appropriations, where it is waiting for its third and final reading.

Background:

All 197 cities and counties in the SCAG region must adopt a legally compliant housing element based on timelines outlined in existing law by the same due date, which is 18 months after the adoption of a second Regional Transportation Plan (RTP) update for the planning period. The Department of Housing and Community Development (HCD) estimates this will be October 15, 2029, for the seventh cycle housing element.

Before a housing element can be finalized, HCD must review a first draft housing element from every jurisdiction in the state and provide written findings of its feedback on whether the draft plan complies with a comprehensive list of requirements in housing element law. HCD has 90 days to review first drafts and then 60 days to review subsequent drafts.

Analysis:

With 197 jurisdictions aiming to submit draft housing elements roughly 90 days prior to the same due date, HCD experiences a large workload “spike,” which, the department asserts, not only has an impact on its ability to review the housing elements in a timely manner, but also that of members of the public and stakeholder groups who also have an interest in reviewing the draft housing elements. HCD believes jurisdictions waiting for feedback would receive more individualized technical assistance and deeper feedback on their drafts if the workload were more evenly distributed, which could also then reduce the need for multiple subsequent draft housing elements.

To help address this concern, AB 2597 was introduced to smooth out the workload by creating two phases of housing element adoption due dates for SCAG jurisdictions in future cycles:

- Los Angeles County and jurisdictions within the County would remain on the current 18-month adoption period.

- All other jurisdictions in SCAG would have 24 months (6 additional months) to adopt their housing element, if they have a compliant housing element.

Recent Amendments

In addition to the original intent, the bill was amended on June 10, 2024, to shorten the appeals process for all COGs. The author believes that doing so would help ensure that a COG is able to issue the final RHNA allocation as quickly as possible, without being delayed by appeals, in turn enabling local governments to get started sooner on drafting their revised housing elements. This concept was introduced to the author by the League of California Cities in an attempt to get cities additional time to work on their housing elements, noting that for the majority of COGs in the state, either a minimal number of appeals, or no appeals, were filed. As such, those COGs did not need the full amount of time to process their appeals as is currently outlined in statute and were essentially just running the clock.

While SCAG appreciates the desire to provide local jurisdictions with additional time to complete their housing elements, SCAG does not share the same experience as other COGs regarding the number of appeals filed by our local jurisdictions. For the 6th Cycle RHNA, SCAG's appeals agenda was 1,600 pages long and took approximately 47 hours of public hearings to complete. A shorter time frame would not give us the ability to process the appeals with the adequate time and consideration each appeal is due.

SCAG staff reached out to our partners at the Metropolitan Transportation Commission/ Association of Bay Area Governments (MTC/ ABAG), who also shared the same experience and concerns. Together, in collaboration with the California Association of Councils of Government (CalCOG), we worked with the bill's staff to educate them on our current appeals process, time constraints and needs.

As a result, the author has agreed to amendments that would restore the appeals timelines to what currently exists in statute. Instead, the bill will provide all COGs an option to shorten their appeals timeline to no less than 10 days if they so choose. As of the writing of this report, the amendments have not gone into print, but they are expected soon.

SCAG staff will continue to update the LCMC on the bill's status.

Bill: AB 3093 **Author:** Assemblymember Chris Ward (D-San Diego)

Title: Land use: housing element: streamlined multifamily housing

Status: In Senate Appropriations Committee Suspense File.

Hyperlink: https://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=202320240AB3093

Current Update:

AB 3093 passed the Senate Committee on Housing on July 3 and was referred to the Senate Committee on Appropriations, where was placed in the suspense file on August 12.

Background:

As presented to the LCMC on June 18, 2024, AB 3093 by Assemblymember Ward (D – San Diego), and sponsored by California Governor Gavin Newsom, would establish two new income categories in the housing element process – acutely low-income (defined as those between 0% and 15% of the area median income (AMI)) and extremely low-income (defined as those between 15% and 30% of the AMI). These two new categories fall within the existing very low-income category, which already accounts for the needs of individuals in jurisdictions earning between 0% and 50% of the AMI.

The intent of breaking the existing single category into three is to place a greater emphasis on documenting homeless populations and providing homeless-supporting housing. The author believes that under this existing structure, VLI is too broad and fails to recognize and account for the housing needs of individuals earning the lowest incomes in the state and by lumping these income levels together as they currently exist, the state has made it so that only deed-restricted homes that serve the higher ends of the range are likely to be built.

The author hopes that this bill will lead to the development of targeted programs and strategies in local jurisdictions' housing elements that cater to the lowest end of the income spectrum, including both homeless individuals and those at risk of experiencing homelessness. Additionally, it is his hope that this bill would ensure that HCD's RHND is augmented with accurate and timely local homelessness data, provided by COGs, to create a more accurate understanding of homelessness housing needs throughout the state.

Analysis:

Following the presentation of this bill at the June 18 LCMC meeting, SCAG engaged with staff from Assembly Housing and Community Development Committee, as well as partner agencies including the League of California Cities and CalCOG, to share the concerns discussed by LCMC members and SCAG staff.

Through these and subsequent discussions, several amendments were negotiated into the bill that address SCAG's jurisdictional purview. This includes a requirement that HCD publish advisory guidance pertaining to special housing needs for ALI and ELI, including sample analyses and programs, by December 31, 2026. Additionally, the bill is expected to be amended to require HCD to provide COGs with guidance on how to distribute the ALI and ELI households across their regions.

Bill: SB 7 **Author:** Senator Catherine Blakespear (D – Encinitas)
Title: Regional housing need: determination
Status: On Assembly Floor waiting its third reading.
Hyperlink: https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=202320240SB7

Current Update:

SB 7 was passed out of the Assembly Committee on Local Government and was referred to the Assembly Committee on Appropriations on June 26, 2024. It is currently waiting for its third hearing in appropriations.

Background:

Following the release of HCD’s “California’s Housing Future 2040: The Next Regional Housing Needs Allocation,” Senator Blakespear identified several technical changes requested by HCD to the Regional Housing Needs Determination (RHND) conducted by HCD and the Regional Housing Needs Allocation (RHNA) process conducted by COGs, or HCD in specific cases, to develop SB 7. As such, the bill does not make any substantive changes to the RHND/ RHNA process but rather seeks to clean up the language in statute for consistency with current practice.

Analysis:

SCAG staff presented SB 7 to the LCMC during the June 18, 2024, meeting, where we outlined the changes to statute being proposed in the bill, including:

- Removing the ability for a city or county to file an objection to the RHND process in regions where HCD distributed the housing need – this does not apply to any jurisdictions within the SCAG region
- Repeals provisions that allow HCD to use an alternative process to determine the existing and projected need for housing for a region that has never been used.
- Requires the inclusion of households with special needs in the development of the RHND methodology – Under existing law, public participation by organizations other than local jurisdictions and COGs is required in the development of the methodology. This bill would expand that requirement to explicitly include special needs households.
- Shortens timeframe HCD has to review the adopted allocation methodology submitted by COGs from 90 days to 45 days.
- Requires COGs to distribute the draft allocation plan upon adoption of the final methodology.

-
- If no appeals are filed to a COG's draft allocation, it would automatically become final after a public hearing.
 - Condition the due date of a housing element to be no more than eight years later than the deadline for adoption of the previous eight-year cycle, regardless of the Regional Transportation Plan (RTP) cycle.
 - Applies these provisions to all cities, including charter cities.

As presented during the June LCMC meeting, LCMC members expressed concern over the potential for the bill to eliminate the ability for jurisdictions to form subregional delegations given ambiguity over the language of the bill. As the bill had just been amended with the new language shortly before the June LCMC meeting, SCAG staff was not able to meet with the author's staff until shortly after our meeting for clarification.

The author's staff clarified that the bill language addresses HCD's ability to use an alternative RHND process that they have never used, not a jurisdictions' ability to form subregional delegations. This addresses the sub-regional delegation concerns expressed by LCMC members.
